The above are all remodeled Chinese houses. Money for these is just as good as similar amounts for others. In fact, if these amounts could be raised they would release several single gifts of $7,000. or more now tied up in financing these less expensive houses. I would go after these rather than bigger ones in the present situation. The assignments of donors to residences made above is arbitrary and not known by the donors.

This, raised and paid in, means not only deficits cleared off but new houses put up because of funds released.
