Dr. H. W. Luce,
422 Farmington Avenue,
Hartford, Conn.

My dear Dr.Luce:

I find I have not formally acknowledged your reply to my letter of October 8th.

I quite agree with your suggestion that the best thing to do is to make no further approach to Mr.Hamilton until we have more detailed information from Dr.Stuart on the subject of further land needs of the University.

We are passing on to the campaign office your other suggestions regarding communications to Mr.Hamilton as to progress of negotiations for President Hsu's garden and the athletic field.

Within a few days now we shall know how the furtunes of the presidential campaign are to be settled. I am sorry that you and Mrs. Luce will not have a hand in the battle. Margaret has gotten the idea that I am a supporter of Al Smith and is very much incensed over the matter. I suppose I will sooner or later relieve her anxiety but for the time being I am letting her worry. It will take her mind off her other troubles.

Give my best regards to Mrs.Luce.

Cordially yours,

BAG-H
