Dear Rex:

In regard to question 1. my survey of M.S. girls:

16	4 yrs	mid schools for Christians	with 185 students
3	2 "	" " " " "	
3	1 "	" " " " "	

18 of these have H.P. Schools attached + in addition there are 14 other H.P. Schools. } 1386 students

(But the C.C.C. ~~dist gives~~ 20 MS, 1233 students
26 HP. 2396 "
)

You see there are large differences here, which, until I left China, had not to be adjusted. I think we must lean this kind of data to Galt, Porter + Stuart at Peking.

The possible female Colleges are: Wooster, Oberlin at Tsinan, Shansi, + now the Shensi Schools.

I don't see how you can get our statements or statistics in shape to make an adequate statement to Vincent on Tuesday. Dr Vincent will only yield to the hardest kind of cold facts
