3. Endowment: It was felt that there was no need of placing the endowment at too high a figure: as the institution grows the endowment will need to be increased: but the budget for this coming year will be about $60,000.00 and this would require a productive endowment at six percent of one million dollars.

4. Annual Budget, Peking University, June 30, 1919, to June 30,1920.
