Jan 16/22

Dear Eric:

Will you let me know just what the plans are for the Bashford-Lewis Memorial and to what stage they have reached in being carried out? I am to meet several people soon who might be interested in that. Is there any section in the Middle West that ought to visit in this connection on my return from the West in March?

The task here in Chicago will be larger - very large. Could not Mr McBrier come on here to help?

Mr. McBrier note and return

I hope you can press the matter of the new pamphlet. Every day's delay now means working without a tool on the Pacific Coast.
