150-5th Avenue
New York City

My Dear Eric :-

Thank you for your letter of March 11th. I am enclosing a letter to Mr. Russell Carter, as you suggest. I sincerely hope that this will be sufficient, for it would jeopardize the whole matter if it got into the hands of that Pittsburgh lawyer again. The trustees of the Finley estate were quite willing to have that action taken and one of them would be as anxious as we are not to have the matter brought up officially again.

see Cowles file

I am getting along here famously and regard it as a very happy circumstance that the period of having my arm in a cast coincides with the period of immediate medical treatment. I went around two or three days with my arm in a sling and found it very difficult to make calls under those conditions. In spite of that, Dr. Tittle said if I went to see Mr. J. C. Shafer with it, he would come across right at once! I expect to be out on March 26th.

With all best wishes, I am

Ever truly,

H.W.L.

Thro an oversight the Stenographer did not bring the carbon - so I send this on again to mail. You may wish to take off a copy for your files HWL
