Mr Evans
I had hoped I might not need to take up this matter in S.F. unless, of course, there is something important I can do. I have taken this address but will do nothing unless I hear from you. Better write me the situation (to reach me in S.F. about Dec 21, in case he should look me up. NWL

TRANSFER

My dear Dr. Luce

I had hoped to be with you in New York by this time, to join in your work in behalf of the proposed School of Journalism at Yenching, and to do several matters entrusted to me personally by President Stuart. However, I was ill most of the time while travelling, due largely if not altogether to the rush of getting off from Peking on eleven days' notice, with lots of committee and other work to do during that brief interval.

I am still not well, although up. My stomach has some disorder which will require quite a bit of treatment. My present physician says it will require six months, but I perhaps can get a parole earlier. I hope so.

My imagination is unequal to the task of visioning why Dr. Eric M. North has counteracted Dr. Stuart's instructions regarding me. Possibly he has not received the correct statement of the terms and purposes of my trip. The official action was taken before we obtained certain pledges and gifts which would seem to insure the opening of a real School of Journalism, separately incorporated, and affiliated with another Peking institution as well as with Yenching.

I finally came here as Dr. Stuart's personal representative, for a definite piece of university business; which has, I hear, been partly consummated. I have no details on the matter, and am here awaiting instructions from Dr. Stuart. Meanwhile, I am trying to get the proper treatment for my stomach disorder.

With much regret I have heard of Mr. Lewis's death. No details. I ~~only~~ heard of the cabled word to Peking, by letter to me at Yokohama. Could you tell me the facts ? Also, could you give me an idea of the amount paid in by the Hall Estate, and the balance remaining due ? These facts will aid me in doing what Dr. Stuart instructed me to do.

If I can serve you here, please let me know. I heard a suggestion that you might be on the Pacific coast at this time. If so, I trust your secretary will, on reading this, telegraph me so that I can get into communication with you.

I have written a note to Mr Pritchett giving him your San Francisco address and telephone. F. Park

With best wishes, I am

Cordially

Roswell S. Britton
