Dear Mrs. Eurobrava.

Has anyone written to you, I wonder, shout the Religiou Education retreat we had this spring over in Chapyang ? It was such a y worthwhile meeting that you ought to hear a little about it, at least, Miss Traver reported, I am sure, on the retreat of similar nature held here in Enkahich last year. We felt that was a good one, but in several respects it was surpassed by the one this year.

The mucleus of this retreat is the Religious Education committee of the Ming Tong Convention, with the addition of a few others especially interested and connected with religious education work. The Pellowship formed this year was simply contined this year and several new names added, either by reason of election to the committee or because of special interest in or commection with this type of work.

The seventeen who appear in the photograph which I am enclosing were present at almost all sessions of the retreat, from the beginning to the end. We lived in the Grossbeck residence, the women on the upper floor and the men downstairs. We did all our own work except the cerrying of the water. One was appointed to cook the vegetables, another to cook the rice, another to do the buying, another to wash the vegetables. The rest of us were divided into two groups , for the dishwashing and the sweeping. "We" washed dishes and set the tables today while "they" did the sweeping, and to-morrew the other way abound. Working all together this way was really a grand way to get acquainted and it put us all on the same level as nothing alse could have done.

The meetings began Friday evening, March 6, right on the heels of our annual Rission Conference and the meetings with Dr. Rushbrooke. The wother had been very cold and rainy, and some fours were entertained that it was unwise for us to go into an unheated house to live. The skies cleared, however, and no one suffered from sold or dempness. A minimum of time was needed for the election of a chairman and one or two committees, and we went at once to the business of hearing reports from the different districts in regard to various phases of work. Throughouts progress that had been made, in discussion of how to make further and more

the four days emphasis was laid - or rather time was spent in reporting repld progress, and in devotionals as the key to all whe rest. The topics for the "business" sessions will she you the

Mr. Lee) How to Interest Preachers in Training Others [hr. Tang] The Orford Group Movement (Dr. Leach) Bursal Reconstruction (hr. Tahua)

The devotional services were most helpful. Miss Tang Siu Un gave the morning messages on "How to Pray"; Mr. Luebeck the evening talks of the following subjects

How to Read the Bible for Personal Spiritual Help How to Keep in Remembrance of the Presence of God How to Know the Will Of God

Lest Easter we attempted an Easter vesper service of music with this cheir we are so happy to have. The young people are a joy to work with: their enthusiass and willingness to work are a real inspiration! This year with a larger number of singers we tried again and we feel that it was worth all the work put into it. Again the white vestments anneared, though of course they are only one of the small details that helped in the dignity and besuty of the service. The program included two solos, a duet, a trio, a male quartet, a mixed quarted, a double quartet, a sextet, and three fairly long chorus selections. The most ambitious of these was the opening part (first three numbers) of Stainer's oratorio, "The Crucifixion". There were soratchy places, of course, but on the whole they did splendidly and we are pretty proud of thom. More than that, some of these young singers have already made the decision to use their whole lives in the service of the Master, in definite Christian work. It is more than thrilling to think of them, in future years, passing on to many other young people, after we are gone, mucic that they are learning to love now. For the young tener solciet who sings at Christmas time, "Oh, come to my heart, lord Jesus, there is room in my heart for thee," and he barttone who sings in Pakatan Week the cry "Could ye not watch with me one brief hour?" one not be quite the same as before, ofter having those great words and meledies burned into their souls. A cortain influence resains, mometimes a motent one indeed. (These songs were translated by nembers from the choir two boys who are graduates of the academy.)

Dear Gree Committee of the

We are very happy about the spirit of the Young People's Retreat, which was held here in Lakchieh July 8-18 . Porty young men and women from ten Young People's Societies in the Ling Tong field and somen from ten roung to animal Ling Tong Baptist Convention closed. The first evening attention was paid to getting acquainted and in setting up officers for the Retreat; the following four days we ate, sang, discussed, played, and grayed together in fellowship that we feel must be the beginning of something very much worth while.

We borrowed the entire third floor of the Seminary building, using the dormitory rooms for the boys, and the assembly room for the meetings; the girls Enid Johnson and I took bate our home, about ten minutes walk from the Seminary. We ate all together at the Seminary dining room.

The meetings were really of a very high order. These prevailed a spirit of harmony and of wanting to work together that is not always seen in nestings of older Christians. The addresses given morning and evening were by some our best leaders, who showed that they have not forgotten their sympathy with and understanding of the young people. The three devotionals each day- morning, sunset, and bedtime- were led by delegates from the various societies- city and country, near and far: they were very fine indeed. The sunset services, out on the hills, were beautiful. The first night we saw a triple rainbow arching up from the wal-ley just as we were closingthe meetings truly it seemed a bow of promese"

This Retreat was "born" last March at our Religious Education Retreat at Chaoyang; it was planned and carried out by a committee appointed from the two societies in Swatow City and the om here in Kakchieh. Mr. Tang Chek Min, president of the Kakchieh society, was a very able chairmanhe was ably assisted by vice-chairmen from other societies. Another of our delegates was the secretary and a leader among the song leaders; our our delegates was one secretary, and a header among the song leaders; of other two delegates did valiantly in helping to look after details of living, eating, etc. Of course it was all the young people working together however, who made the Retreat what it was.

One of the first pieces of business was the forming of union organization of the societies; snother was making plane for writing a plan to conversion the much-needed Guide Book or Flam Book suitable for the use of Young Poople's Societies here in the the Ling Tong area. A committee of nine was appointed for this work and they are expected to finish thes project during this coming year. before next year's Retreat. (You see they are already planning another Retreat 1)

The singing was a happy feature of the meetings; the new Universal Praise books arrived in time for us to use , and use them we did, from morning till night, learning new songs and singing old favorites, Saturday was a special play-day. After the usual song practice and Saturday was a special play-way. Although the bulble sampane for a trip to Bouble Jeland. Beautiful sunshine to start with- favorable wing and tideand we went down to the Island almost in record time. One of the Swatow members had got the loan of the Customs matched for us: we rested there. members had got one toan of one Customs matches for us; we restor one or went bathing, came back to the matched and had "kiam mue" (seasoned rice with the "extras" cooked right in ito, watermelon and other fruit. We played games until the rain stopped, about three o'clock. then sailed back home agin, none the words for wear, and ready for the meeting of the evening

On Sunday morning the whole group attended the wegular worship on Sinday morning the whole group attended the regular worship service in the church, As a listened to the sermon by Mr. Lee Fehm Chek, one of the Server Lee and the Chek, one of the Server Lee and the Chek, on the milder of that great number of Rapits young people as the Say, we thought of that great number of Rapits young people on the management of the great chek. wohan on that same tay be accounted to seek not blind alleys, nor roads that are too broad, nor short cuts, but the Culy way to Life, as they can find it in Jesus Christ, is one they will not soon forget. One item of special interest in this service was the anthem of praise in which the voices of some of our visiting delegates blended with those of our regular young peoples' choir. Again in the evening the you, met as a grow in the "upper room" at the Seminary fond the thought of the morning was weel followed up by our young woman evangelist as she talked of Spiritual

Mr. Lee's talk on work in the country drew a clear picture of some reasons why young people are not attracted to live their lives in places of obscurity, inconvenience, and disconfort. where infinite patience and loving endurance are required if people are to be won to Christ. In the closing devotional which followed lr. Sit of be won to Christ. In the Changing words of Jeremish, Kityang brought to us the ringing words of Jeremish. After we had sum together a beastful set. "Allowable and farewell from the new book, a prayer was offered on "Allowable many agenting the new book, a prayer was offered on "Allowable many agenting the new book as the set of the problems. This was followed by another for the work of the church throughout the Ling Tong. The closing prayer, by the chairman of the retreat, for our young people and their work, seemed like a secrement in itself-gratitude for the spirit which has been with us these days and a solean pledge to give ourselves anes to Him and His work.

The next morning before we separated, we saw one small group of young men kneeling in meir rooms in earnest phayer. They may not have young men areating he mean roads that some of then must mavel on the way to their homes, but they do have to face the fact that the whole countryside is in a state of uncertainty, and they cannot be at all sure

Thus for the first time we have been privileged to see the young paople of this district brought together and an organization formed which we hope will become a power in Managing interpreting the entrit of Christ

There is a growing undercurrent of terrer among the Koungri people that the fanatical generals Taui Ting-kai and Pui (Anng-hè will recort to Communion as a last means, when they find themsorbres too hard pressed by the Nanhing Government.

A military conference in Canton has decided to send a final telegram to the bellicose Kwangsi commanders. If this fails also war will be declared.

There were rumours in Canton yesterday meening that Kwangel had decided to give up the struggie; that Chiang Kaishok has permitted LI Chung-jen to remain in Kwangel, while Pel Chung-hoi will go alread.

A later message states that Generals Ching Chien and Ho Chien, the Runan Chairman, will probably go to Kwangoi to make a final appeal for peace. It has also been suggested that the peace puriesy night be held in Hongkong. In the meantime government treeps have been withdrawn a few miles from Kwangoi frontiers.
