Memorandum

July 15, 1927

Dr.Luce:

In response to your inquiry as to the present status of the Wheeler Chapel at Yenching, I quote below the following information given by Dr.North:

> "The working drawings have not been authorized because neither the people on the field nor we here have been satisfied with the sketches, and Mr.Murphy has long since been requested to make further studies with reference to the arrangements which appeared in the preliminary sketches. All this has been delayed by Mr.Murphy's experiences this spring.
>
> "Furthermore, the Wheeler family is rather unwilling to proceed, with the China situation as it has been, but I understand that the resources have been set aside and reserved for this purpose."
