a faith-challenging slowness, if it is essentially right, which means it is of God, in the process of time the dark chaos becomes light and order.

In the midst of infinite and trying difficulties, always carrying the burden of the illness of the beloved one in the home , you have accomplished wonders. Already you have accomplished a "life-work"; whatever additional you do( and that will be much) it will simply be an over-and-above plus.

With hearty greeting,

Ever affectionately,

Harry Wheeler
