Dear Gorsuch:

That was a blunder, almost a crime! Answering your question: I think Hamilton's matter would better just stand as it is. Dr Stuart has now a chance to make out a whole plan of land needs to lay before Hamilton in due time. Hamilton would not think make any distinction as to Women vs Men's College land. With him it all ought to be treated as a unit.

In the meantime it might be well to have the Athletic fields is actually in hand & they begin to fix it up, to tell him of the progress. If it seems best to mention the Mrs Hsü Gordon delay, it could be done tactfully by reference to the fact that a lot of mental delay etc had arisen, but all could probably be ironed out. Until the Mrs Hsü Gordon is alluded to I do not think it would be well to mention other land, save as in due time Dr Stuart works out the whole plan for land as suggested to him.

Yours truly J.H.L.
