We will be glad to discuss further with you and with Mr. Henry Luce at any time you may find convenient the matter of his proposed endowment fund for Yenching. As I have already pointed out, any news of substantial new support would be particularly cheering and heartening just at this time when our Yenching friends are feeling very depressed and discouraged by their financial problems. We will await word from you as to what would be the most convenient time.

I hope that your plans for spending the year in China are going forward happily. Don't you need a luggage boy to accompany you? I would offer my services at a very nominal fee.

Very cordially yours,

BaG:MP
