We wish you to know that we appreciate very much your desire and endeavor to help us and also appreciate your generous attitude toward the University. Inasmuch as we are nearing the end of our campaign, and we think we will be successful, it is probably best to let the matter of your pledges rest as they are at present and we will confer with you later in regard to same. You can be of real help in another campaign which we face to meet the second Rockefeller gift which must be met three years from now, and inasmuch as you may be in position during the next three year period to help in a very substantial way, we believe it advisable to let anything you may be able to do apply then rather than now.

Sincerely yours,

EdMcB.A
