FRANCIS CHO-MIN WEI (WEI CHO-MIN)

President of Hua Chung College

FRANCIS CHO-MIN WEI, college president and author; born on December 7, 1888, at Peihai, Kwangtung; Chinese Classical School, Chungshan, 1895-1902; English by private tutoring 1902-03; Boone School, Wuchang, 1903-07; Boone College, Wuchang, B.A. magna cum laude, 1911, M.A. cum laude in political science 1915; A.M. in Philosophy, Harvard University, U.S.A., 1919; Hon. D.C.L., University of the South, U.S.A. 1927; Ph. D. University of London, England, 1929; instructor in mathematics, Boone College, 1911-18; professor of philosophy, Central China College (Hua Chung College) 1924-27; president of Central China College since 1929; Lecturer at Yale, Harvard, Chicago and Columbia, 1934-35; visiting professor of ethics, Yale 1937-38; member, People's Political Council, 1938-42. --- Books: "Political Principles of Mencius," (doctoral thesis); "The Confucian Moral System and Its Social Values."

(From Who's Who in China and other sources)

(In 1934 Dr. Francis Wei took part in the Seminar on Education and Culture Contacts held at Yale University during the summer session. In September "The Yali Quarterly" published the following account of Dr. Wei's visit to Yale, written by Charles T. Loram, Sterling Professor of Education and Director of the Yale Summer Seminar.)

DR. WEI'S VISIT

Dr. Francis Cho-min Wei, President of Central China College, of which Yale-in-China School of Science is a part, is at present in this country lecturing at Harvard, the University of Chicago, and many other of our leading universities. He arrived

early in August to take part in the Seminar on Education and Culture Contacts held at Yale University this last summer. Dr. Wei received his B.A. in 1911 from Boone College, Wuchang, China, his M.A. from Harvard in 1919. He returned to Boone College as professor of philosophy. After 1927 he spent two years doing research work in France, Germany and England, receiving a Ph.D. from the University of London in 1929. His publications include "Political Principles of Mencius," "The Confucian Moral System and Its Social Values," and various magazine articles on Chinese philosophy and religion.

Dr. Wei was among the outstanding members of the Seminar on Education and Culture Contacts held at Yale this summer. He not only gave the lectures on Education and Culture Contacts in China, but met with the discussion group in the afternoons and was always ready to give us the benefit of his extensive experience, deep learning and charitable outlook. Members of the Seminar will long remember the short, bespectacled, serious looking scholar dressed in Chinese garb, ready at any time to discuss questions wise and otherwise, whose face lighted up with a charming smile at the slightest provocation, and who made us all feel that here was a profound scholar and a Christian gentleman.

President Wei's formal lectures were attended not only by the enrolled members of the Seminar, but by the wives and families of the members and by some of the general public. The large lecture room was crowded and the audience listened in rapt attention at a balanced statement of conditions in China, not untouched by feeling of profound belief in the Chinese character, resentment at Japan's aggressions, and a real appreciation of what the West has done and could do for China and in return the contribution which Chinese civilization and Chinese philosophy could make to the Western world.

In the writer's opinion, President Wei was at his best when he was dealing with subjects that were obviously of deep concern to him. These included an appreciation of Chinese philosophy and Chinese family life, concern over the inability

of China to meet adequately the material needs of her people, scorn of the motives which in the past had induced Western commercial undertakings to induce foreign governments to exploit his native land, gratitude for what the Christian missions had done in education and social service, and fiery resentment at the rape of Manchuria by the Japanese. In all these respects President Wei showed that he was a great human being, sensitive, appreciative, critical, as well as a philosopher and scholar. Was Dr. Wei right when, smilingly he said that culturally as well as geographically Europe was an Asiatic peninsula?.....

To all of us President Wei was unfailingly generous and helpful and we hope it will be some satisfaction to him to know that he and his points of view have found a place in our hearts as well as in our heads.

HUA CHUNG UNIVERSITY

SABBATICAL LEAVES

MEMORANDUM PREPARED BY DR. WEI AND MR. LYFORD

FOR FACULTY MEMBERS OF HUA CHUNG COLLEGE
WHO DRAW SALARIES DIRECT FROM THE COLLEGE

Previous to the War, Hua Chung College had inaugurated a plan for honoring members of its faculty by granting each year to one member who shall have had an outstanding record for at least six years, absence from the college for one year and the opportunity for travel and refreshment during that year.

Three professors have received this award, as follows:-

Dr. Paul Kwei	1935-36
Dr. T. C. Djang	1937-38
Dr. Huang Pu	1938-39

In each case the individual received during the year of absence, salary at his regular rate with housing for his family and a special allowance amounting to U. S. \$1220. The latter covered railroad and steamship fare to and from New York City, amounting in those days to about \$600 ('round trip tourist rate) and the balance of U.S. \$620 was to be applied to costs of board, lodging and other personal expenses.

Any other travel during the year except this direct trip was to be covered by personal funds of the individual or by payments received by him or her from other sources.

This plan has proved to be highly beneficial, not only to the recipient of the award, but as a stimulant to intelligent and effective work by the faculty as a whole.

It is hoped by the faculty that this practice will be reestablished at once, and Dr. John Lo has been recommended by Dr. Wei and Dr. Bien as the candidate for the award for the years 1946-47.

It is the function of the Board-of-Founders, acting for the time being as Directors, to determine whether this practice shall be reestablished and whether Dr. John Lo shall be the first recipient.

Before the award can be made, the conditions governing the award will have to be decided upon and the amount of the award will have to be adjusted to present conditions. Also, the source of the extra payment will have to be determined.

The present costs of travel have not been determined with any certainty, but our present understanding is that the cost of direct travel from Shanghai to New York is now between U. S. \$400 and \$500 (one-way) depending on the route taken, the lowest rate being the all-water route by freighter through the Panama Canal. We also have preliminary information that the cost of living customary with Chinese professors in New York is between \$160 and \$200 per month. On the basis of these preliminary figures and assuming that living outside of China shall be limited to not more than 10 months, the total cost to be assumed by the College would be between U. S. \$2,400 and \$3,000 for the year, plus regular salary in Chinese currency. This U. S. payment thus would be about double what it was before the war. One reason for this is that tourist rates have not been reestablished and another reason is the large increase in American living expenses generally.

PLAN, PURPOSE AND POLICY

The following paragraphs outline the plan, policy and other provisions relating to Sabbatical Leaves.

THE PLAN

- 1 - The plan provides for sabbatical leaves of Professors and Assistant Professors only.

THE PURPOSE

- 2 - The purpose is two fold.

a- A reward for loyal and effective service to the college.

b- An opportunity for refreshment and preparation for further service to the College.

It is the intention that this purpose shall be accomplished without increasing the financial burden of the recipient beyond that measured by his or her normal salary during the college year just preceding the period of the sabbatical leave. The cost of travel, board and lodging, on a predetermined basis shall be paid by the College together with any other expenses caused by conditions included in the grant.

CANDIDATES

- 3 - Professors and Assistant Professors who shall have served full time in such positions in Hua Chung College for at least six years, shall be eligible to apply for sabbatical leaves from the College.
- 4 - Any eligible candidate may submit a project for the use of his time during the period of one year in China or abroad and the merits of the project as well as the previous record of the applicant will be considered.

THE GRANTING OF LEAVE

- 5 - The granting of sabbatical leave shall be by a special committee appointed by the Directors. If granted, the program of procedure shall be agreed upon between this special committee and the individual.
- 6 - The leave may be for activities in China or in a foreign country. If for travel and study in China the recipient shall receive monthly salary at the rate (plus subsidies if any) which he or she shall have been receiving during the university year just previous to his leave of absence, plus a sabbatical allowance of 20% of said rate to be applied against his extra expenses resulting from the approved project.
- 7 - If the leave shall be for travel and study in the United States the recipient shall receive monthly a salary (plus subsidies, if any) equivalent to that received during the university year just previous to his leave of absence plus a sabbatical allowance consisting of U. S. \$800 to be applied on steamship and/or railway charges to and from the place selected for study, plus U. S. \$1,500 to cover living expenses. If the recipient shall have dependents, the regular monthly Chinese salary may be divided between the recipient and his dependents as shall be agreed upon with the Special Committee.
- 8 - If the leave shall be for travel and study in foreign countries other than the United States, the sabbatical allowances for travel to and living in such other countries shall be proportional to the amounts stated above, according to comparative rates then prevailing. This shall be determined by the President of the University.
- 9 - If the professor or assistant professor who takes sabbatical leave shall, during the said leave, accept a remunerative position, he shall receive either the remuneration so resulting or the sabbatical living allowance, depending on which is the greater, but he shall not receive both.
- 10- After a professor or assistant professor has taken sabbatical leave, he or she shall be under obligation to serve Hua Chung College for at least two years thereafter in a position equal to or higher than received before the leave of absence, if so requested by the College.
- 11- In consideration for the granting of sabbatical leave, it shall be understood that if so requested by the President of the College the recipient of the leave shall devote up to one-fifth of his leave time to the service of the College and its supporting missions.

CHINA CHRISTIAN COLLEGES' FACULTY MEMBERS

Among the main contributions the Christian Colleges are making to China is their faculty members. For it is you teachers who are training China's future leaders.

One of the most effective and graphic stories we in America, who are trying to get financial support for your college, have to tell is the story of our teachers, and the contribution they are making in their chosen field of endeavor. You, as one of these faculty members, are part of that story.

Publicity about the Christian Colleges' teaching and administrative staffs can do much to inspire confidence in these institutions by making it known that trusted and competent persons are responsible for their policies. 36. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR? I was directing research at Tangku, Hopei when the war started. I went to teach at Kuangsi University right after that. Then, in 1940, I went to Lanchow to start the so called Lanchow Pharmaceutical Works which was later changed to be called the Lanchow Chemical Works. We manufactured glass ware, sodium bicarbonate, soap and alcohol from 1940-1943 autumn. Then the plant was washed by the flood of 1943. After re-organizing the plant, I left for Huachung to become the Head of Chem. Dept.

37. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD. FOR EXAMPLE, WERE YOU INTERNED, CAPTURED, BOMBED, ETC?

We were bombed twice. Once was in Kweilin around Christmas 1938. I was teaching at Kuangsi University then. My wife was the Honorary College Physician of Huachung because we lived quite near the Baptist Mission Compound where Huachung had her Head Quarters. Our next door neighbor received a direct hit and our house was tumbled down by the concussion. It was Huachung students who helped to put the fire out and get our things out from the ramble. This was my first experience with bombing and the Huachung people certainly made a good impression on me. That may be one of the reasons I came to teach in this institution.

The next time I experience a bombing was at Pingyang, Kuansi. This time, the bombs were only some three to four hundred yards away. We came thru it without injury but the truck that contained all our belongings, including such treasures as a set of calibrated weights, Leica camera and accessories, an enlarger, and a good Bauch & Lomb Microscope and several sets of Blood ~~mixt~~ pipets, etc. received a direct hit. This loss made me to turn to more practical thoughts. I went back to the industries to get more money in the hope of replacing my loss. A futile hope. So, I am back here again teaching and ~~directing research work.~~

37. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD. FOR EXAMPLE, WERE YOU INTERNED, CAPTURED, BOMBED, ETC?

I was not interned, nor captured during the war. But I was once badly scared and had a very narrow escape. During the first year of war I was acting for Dr. Wei as president of Huachung. One afternoon when I was working in my office, a siren sounded. At once I ordered all the students to enter into the dugouts, and I myself stayed in the office to finish my work. Very soon a dog fight took place not very far from Wuhan, and many students came out of the dugouts to see the fight. I saw them out from my window. Seeing the danger right in front of them, I rushed out of my office, trying to chase them into the dugouts. That very moment a machine gun bullet coming from some planes flew not more than six inches in front of me. I was scared, but I did get all the students return to the dugouts.

As stated ~~above~~ above, I was in Shanghai, 1937-1941, and in Szechuan,
1942-1945. I experienced many bombings, but, thank The Lord, each time
I was safe. The most exciting experience was perhaps that at Hochuan, on the
Chialing River, North of Chungking, where, I was living in a Bank temporarily.
One day, an air-raid alarm was sounded, I was not well, and lying quietly
in bed; the whole staff of the Bank quickly ran to the nearest prepared
shelter. I was left unnoticed and firmly locked in the Bank. The
enemy planes came as usual, but dropped no bombs that day. When the
Bank staff returned, they were all surprised to find me alone in the Bank.

INTERNEED, CAPTURED, BOMBED, ETC?

My whole family were almost killed by bombs when we were in Fu-Kien. The
faculty members were all in a little cave and the bombs dropped at a place
within 100 ft. from that cave. In 1944, my native town was occupied by
the Japs. and a lots of people were captured. My home was ruined and I was
forced to enter the army as an English secretary of the 22nd Division Head
quarter. In the army I appreciated very much the friendship of our friend,
U.S.A., for her numerous supplies. I got some experience in using some of
the weapons, which I ^{have} never used them before. At last, I think war is a
really terrible thing, and I hope that there will be a permanent peace in
the world. Not only myself suffered from war, ^{but} people of the whole country,
and peoples of the world also suffer a great deal. Everything is destroyed,
material as well as cultural. It takes a long time to recover.

(Continued from page 2, item 11.) Another research has been carefully and practically made on the method of teaching Chinese in Middle schools during the years 1930 to 1941, when I was teaching purposely in Yali Union Middle School Changsha. Among the problems raised and tested several were laid ^{upon} special emphasis, such as "Correlation of Courses", "Analysis of ^{the} Value of Teaching-Materials", "Method of Classroom presentation of Materials", "Method of teaching for extensive and intensive reading", "Effective Principles for Composition writing and Correction", "Measurement ^{of correctness} of the Results of Examinations", etc. Conclusions arrived, but vast fields were left unexplored yet.

INFORMATION BLANK

FOR

CHINA CHRISTIAN COLLEGES' FACULTY MEMBERS

Among the main contributions the Christian Colleges are making to China is their faculty members. For it is you teachers who are training China's future leaders.

One of the most effective and graphic stories we in America, who are trying to get financial support for your college, have to tell is the story of our teachers, and the contribution they are making in their chosen field of endeavor. You, as one of these faculty members, are part of that story.

Publicity about the Christian Colleges' teaching and administrative staffs can do much to inspire confidence in these institutions by making it known that trusted and competent persons are responsible for their policies. But to tell this story we need much detailed information about you and our other teachers. We should like to know in some detail about the books you have written, the research projects you have undertaken, your experiences during the war, etc.

This kind of information we do not have in our files. So we are asking you to fill out this information blank and return it to us as promptly as possible.

INFORMATION BLANK

FOR

CHINA CHRISTIAN COLLEGES' FACULTY MEMBERS

Among the main contributions the Christian Colleges are making to China is their faculty members. For it is you teachers who are training China's future leaders.

One of the most effective and graphic stories we in America, who are trying to get financial support for your college, have to tell is the story of our teachers, and the contribution they are making in their chosen field of endeavor. You, as one of these faculty members, are part of that story.

Publicity about the Christian Colleges' teaching and administrative staffs can do much to inspire confidence in these institutions by making it known that trusted and competent persons are responsible for their policies. But to tell this story we need much detailed information about you and our other teachers. We should like to know in some detail about the books you have written, the research projects you have undertaken, your experiences during the war, etc.

This kind of information we do not have in our files. So we are asking you to fill out this information blank and return it to us as promptly as possible.

During those years I taught singing and English; drove the school station wagon back and forth to Kunming; acted as Dean of the girls.

37. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD. FOR EXAMPLE, WERE YOU INTERNED, CAPTURED, BOMBED, ETC?

We lived through one year of severe bombings in Nanchang. Both St. Hilda's and Boone compounds were bombed. The city of Chianhsien, where we first refuged also was so badly bombed we moved further west for safety. After that we lived in Yunnan on the Burma Road until the Japanese invaded that province. Then we moved to Kweichow, near Kweichow. There we lived in a Buddhist temple until the end of the war.

All of these moves and the life in each place was unusual, but I'm grateful I've had those experiences with our Chinese colleagues. It helps me understand China now.

The trips I made from Chennan to Kunming for supplies was perhaps the most difficult part of the refugee life, - but what magnificent scenery! I like to close my eyes and visualize the whole journey, - never-to-be-forgotten scenes that we enjoyed a whole day each way.

INFORMATION BLANK

FOR

CHINA CHRISTIAN COLLEGES' FACULTY MEMBERS

Among the main contributions the Christian Colleges are making to China is their faculty members. For it is you teachers who are training China's future leaders.

One of the most effective and graphic stories we in America, who are trying to get financial support for your college, have to tell is the story of our teachers, and the contribution they are making in their chosen field of endeavor. You, as one of these faculty members, are part of that story.

Publicity about the Christian Colleges' teaching and administrative staffs can do much to inspire confidence in these institutions by making it known that trusted and competent persons are responsible for their policies. But to tell this story we need much detailed information about you and our other teachers. We should like to know in some detail about the books you have written, the research projects you have undertaken, your experiences during the war, etc.

This kind of information we do not have in our files. So we are asking you to fill out this information blank and return it to us as promptly as possible.

* Under this heading give the number of individuals regardless of how large or small a teaching load each carries.
 ** Part-time teachers should be included on the basis of teaching load rather than as individuals. For example, 5 part-time teachers may constitute the equivalent of only 1½ full-time.
