Thursday, 7th March

6.30 p.m.

Speaker:-  
Subject:-

University Lecture (Chinese) Augustine Library  
Mr. H. T. Chin  
"The Animals in Relation to Man"

-----  
NEWS ITEMS

With the opening of the new semester, our Weekly Bulletin again resumes publication, and we hope that everyone will make an increasing use of it, as a means of information about any matters affecting our common life in the University. Particulars of old graduates, or of the work being done by those on furlough, are always specially appreciated.

GIFT FOR PRIMARY SCHOOL

It is with very great pleasure that we are able to record the generous gift of \$500 Gold, which has just been received through Dr. Neal towards the building up of a Primary School in the Follansbee Village (the new name for the Model Village). The

need for a school for the children of our Chinese colleagues has been felt for a long time, and we hope it may soon be possible to erect a suitable building, and to get a little model school organised.

#### A MONTH OF CONFERENCES

The winter vacation has been busily occupied with a series of important conferences, four of which took place in the University buildings. These were, respectively, the half yearly conference of the English Baptist Mission, the first annual meeting of the Shantung Board of Christian Education, a Conference of Missions and Churches of North China on the subject of Theological Education, and the Inter-Provincial Conference of the E.B.M.

The Theological Conference brought over 60 representatives from all the leading Churches and Missions in N.China, including delegates from places as far distant as Mukden, Chefoo, Fenchowfu (Shansi), Sianfu, and Wuchang. Whilst possessing no legislative nor executive authority, the conference afforded a very valuable opportunity for Mission and Church representatives to meet one another and to confer together with regard to the important subject of the standards necessary for the growing Chinese Church. There appeared to be a considerable consensus of opinion in favour of recognising three types of theological education:-

- (a) A graduate course for students who have already completed their studies in a full Arts College.
- (b) An under-graduate course probably consisting of a four-year curriculum under the new 6.6.4 system, thus paralleling the general Arts & Science curriculum in standard and length of years.
- (c) A lower course mainly for country evangelists, the entrance requirements of which would be approximately the same as graduation from a Junior Middle School under the new system.

As a result of this Conference, our Theological Faculty are recommending that the general course to be offered in this University when the 6.6.4 system comes into operation (probably September 1924) should correspond to the under-graduate course mentioned above; but that as soon as the necessary additions to staff can be secured, an entirely separate course should also be offered in Chinese for those who have already graduated from the Arts School.

The Board of Christian Education met for two full days on February 1 and 2, and proved to be a most inspiring and profitable gathering. Not only was there a full representation of all seven missions engaged in educational work in the province, but we also had for the first time officially appointed delegates from most of the Chinese ecclesiastical bodies. These included the United Independent Churches of Tsinan, Chefoo, and Tsingtao, which have now developed a federated organisation, and are appointing their own representatives on the Board of Christian Education, in the same way as the various denominational Churches are doing.

In preparation for the meeting of the Board, the special committees appointed last November to consider the questions of uniform curriculum, teacher-training, etc., held preliminary meetings, and their reports formed the general topics discussed. A fully printed series of minutes will soon be issued, giving details of the Board's action, and containing suggestions for the proposed uniform curriculum in primary and secondary schools.

An interesting address was given during the Conference by Professor Terman of Yenching University, on "The Application of Educational Tests to Conditions in China". Professor Terman is at present collaborating with Professor McCall in the preparation of educational tests, and we are hoping that he will be able to visit Shantung during the present year, and apply these tests in some of our schools, to which he has been invited.

The following officers were elected on the Board of Christian Education for the coming year:-

Chairman.....Dr. Harold Balme  
 Vice-Chairman..Mr. Y.H. Wang of Tehbhow  
 Chinese Secretary.. Mr. C.S. Wang of Hwanghsien  
 Foreign Secretary.. Mr. D. C. Baker of Tai An  
 Treasurer ... . . Dr. W.H. Adolph

Executive Committee:- The above Officers together with Mr. Tien of Tai An, and Mr. R.C. Wells of Weihsien.

#### BOXER INDEMNITY FUNDS

Most members of staff will have seen the action taken last week by the Associated British Chambers of Commerce with reference to the proposed remission of the British share of the Boxer Indemnity Fund, but in case there should be some who have not had access to these important resolutions, we are inserting them below:-

"That this Conference welcomes the announcement recently made of the intention of His Majesty's Government to devote the British share in the outstanding portion of the Boxer indemnity to purposes mutually beneficial to Great Britain and China.

That in the opinion of this Conference the purposes to which those funds can most usefully be applied in accordance with the above decision are the education of Chinese on British lines and the support of British medical work educational and clinical in China.

"That, as regards the application of the funds to be devoted to educational work, this Conference adheres generally to the view expressed in the report adopted by the last Conference of Chambers (as amplified by the memorandum received by the Conference from the invited educationalists), under which first place was given to the support of secondary schools in China under British control, with subsidiary provision for the development of feeder primary schools and with as ample provision as possible for scholarships from the feeder primary schools to the secondary schools, from the latter to the University of Hongkong, and in appropriate cases (more especially for post-graduate work) to Universities in Great Britain.

"That, in view of altered conditions, this Conference is of opinion

- (a) that public monies, upon the scale contemplated, ought not to be devoted to any British school which is not, or is not capable of becoming, a really efficient school; and
- (b) that while grants both of a capital and of a recurring nature might properly be made, as a provisional measure, with a view to bringing a school up to the required standard, the ultimate object should be the creation of autonomous

educational foundations, with adequate endowments, due regard being had to the purposes for which the school was originally founded.

"That this Conference would be glad to see the University of Hongkong placed in a position financially to meet the obligations likely to be placed upon it.

"That this Conference is satisfied that much of the work done by British agencies in "Union" institutions (under which heading there is included practically the whole of British medical educational work in China proper) is upon definitely British lines and is an almost necessary complement to the work done in British secondary schools, for both which reasons it is deserving of financial support under the proposed scheme.

"That this Conference would approve the giving of financial support to technical education in China on British lines, or the provision of scholarships tenable in England for the study of special processes in cases in which the provision of facilities on the spot would be impossible or would involve unreasonable expense.

"That this Conference regards the provision of facilities for the education of Chinese girls and women as an essential complement to the education of Chinese youths on Western lines.

"That, finally, this Conference would welcome the creation of machinery in China to aid in the distribution of the moies available, and regards it as essential that such machinery should make provision for the adequate representation of Chinese opinion

Whilst not going so far as many of us would have wished, it is a matter of sincere gratification that these actions leave the door open for Anglo-American co-operation in union institutions on the one hand, and for co-operation with Chinese in the assignment and administration of the funds, on the other. The original resolutions, as drafted by the Chamber of Commerce, made no reference to these fundamental points, but they were afterwards inserted as a result of representations made to the Associated Chambers of Commerce. The whole resolution has been cabled to London, and will doubtless have considerable influence with the British Government. No official news has, however, yet been received as to the course which the Government will adopt, though many are hoping that a special Commission will first be sent out from Gt. Britain upon which leading Chinese educationalists will be invited to serve, and who would not only survey the field, but would also set up a suitable Board of Trustees for the distribution and control of the money. The actual sum to be allotted, amounts to £11,186,547, which would normally be spread over 23 years.

It is interesting to note that just at the time when the British portion of the Boxer Indemnity Fund is being remitted, steps are also being taken in America, with a view to similar action with regard to the balance of the American share of the Indemnity Fund, and which amounts approximately to one-third of the British share. An interesting suggestion has been made that an International Board of Trustees of British, American and Chinese representatives should administer both funds, and thus prevent their possible use for solely nationalistic purposes.

NATIONAL CHRISTIAN COUNCIL

The National Christian Council had a full meeting of the Executive Committee last week, when for the first time Bishop Roots was present in his official capacity as secretary. It may not be generally known that in order to give himself wholly to the work of the Council, Bishop Roots has now resigned his diocese in Hankow. Hitherto the Council has been meeting some difficulty in getting started, and has been hesitant about rushing too fast into promotional activities. There is however good hope that a useful programme will be prepared for the first annual meeting of the Council which is to be held from May 10-15, and that as a result, the Council will speedily secure the confidence and support of the Missions and Churches. The greater part of its budget has already been under-written by the various Mission Boards, with the exception of \$10,000 which it is hoped to raise from the Chinese Church.

AUGUSTINE LIBRARY

We are greatly indebted to Dr. Neal for the efforts which he has been making in America to secure presentation copies of various medical books for our Library from the leading booksellers. It is doubtless as a result of those efforts that we now have to acknowledge with sincere thanks the receipt of the following volumes:-

From W. B. Saunders & Co., Philadelphia

Medical Clinics, 1920-21 (6 parts)  
 Surgical " 1922 " "  
 Mayo 1920  
 " 1921  
 Crile-Shock  
 Scudder's Fractures  
 Albee's Orthopedic Surgery  
 Moorhead's Traumatic Surgery  
 Musser & Kelly's Practical Treatment, 4 vols.  
 DaCosta's Surgery  
 Anders' Practice  
 Kolmer's Infection & Specific Therapy  
 Morrow's Diagnostic & Therapeutic Technic  
 Dorland's Illustrated Dictionary  
 DeLee's Obstetrics  
 Ashton's Gynecology  
 Bastedo's Materia Medica  
 Kerley's Pediatrics  
 Stelwagon's Diseases of the Skin  
 Stengel & Fox's Pathology  
 Rivas' Parasitology  
 Burton-Opitz's Physiology  
 Jordan's General Bacteriology  
 Prentiss' Embryology  
 Boyd's Preventive Medicine

From P. Blakiston's Son & Co.

Gould's Practitioner's Dictionary  
 Hawk's Practical Physiological Chemistry 8th. ed.  
 Morris' Human Anatomy  
 Greene's Medical Diagnosis  
 Deaver's Enlargement of the Prostate.  
 Brubaker's Textbook of Human Physiology  
 Hughes' Practice of Medicine  
 Pitfield's Compend of Bacteriology  
 Chamberlain's Organic Chemistry.

VOLUNTEERS WANTED

Miss Logan is appealing for two volunteers to assist daily in the teaching of English to the nurses during the present term. Mrs. Struthers and Mrs. Pailing have kindly been undertaking this work in the past, but will be unable to do so this semester, and Miss Logan would be most grateful to hear of any who could volunteer to take their places.

DR. & MRS. D.J. EVANS

It has been a great pleasure to welcome our newest recruits for the Medical School staff, Dr. & Mrs. David Evans, who reached Shanghai just in time for the C.M.M.A. Conference, travelling on the same boat which brought back Dr. Gillison. After spending a week in Shanghai attending the Conference, Dr. & Mrs. Evans came up to Tsinan, where several members of staff had the opportunity of meeting them. They have now proceeded to the Language School at Peking.

DR. C.T. MAITLAND

Dr. Maitland was among the Cheeloo representatives at the C.M.M.A. Conference (we made quite a good showing there!), and spent a day in Tsinan on his way back to the North. The Presbyterian Mission Station at Hwai Yuan have extended a very kind invitation to Dr. & Mrs. Maitland to spend some months there at the conclusion of their work at the Language School, so as to see something of the life and work of an ordinary mission station.

LETTERS TO THE EDITOR

Dear Bulletin,

Your previous excursions along the thorny paths of hymnology encourage me to submit the following weeds for your acceptance. Can any of your readers produce any ranker ones?

There is a young doctor of Ch'i-lu-ta-hsueh,  
And when you consult him, you feel-you-are-sure#  
He tries by a process  
Of wise diagnosis  
To spot what is what, and to heal-you-a-cure.#

# Yes, I know you don't pronounce it that way, but if you say it like old \_\_\_\_\_ does, it rhymes near enough. He comes from \_\_\_\_\_, you remember!

And here's a young minstrel of Ch'i-lu-ta-hsueh  
Who fancies himself a genteel-trubadour...  
He's singing FALSETTO- - - !!!!!!!  
Quick! Get a stiletto,  
Or snaffle a rifle, or steal-you-a-skewer!

No, I'm afraid that's not much better.

Yours sadly,

LI HAI.

.....

NEWS ITEMS

RECENT VISITORS

During the last week we have had interesting visits from Rev: & Mrs. Walter Friend, and from Dr. & Mrs. Shu Fan Lee.

Mr. Friend was an old fellow student of Dr. Bruce, and has since held important positions in the Congregational Ministry in New Zealand, South Africa and London. He is closely connected with the Colonial work of the Congregational Church, and with the London Missionary Society.

Dr. Shu Fan Lee, who received his medical education in Edinburgh, has been recently appointed principal of the Kung Yee Medical School and Hospital, Canton.

### FAREWELL TO MR. A. H. GEORGE

There have been few residents in Tsinan within recent years who have entered so fully into the life of the whole community as our Acting British Consul General, Mr. A.H. George. Although he has been with us but five months, Mr. George has become one of the most popular figures in the City, and it is with sincere regret that we see him go. He carries with him the warmest wishes of every member of the staff, and nothing would delight us more than to see him come back to take up a permanent appointment in Tsinan. A farewell tea party was held in McCormick Hall last Wednesday, in Mr. George's honour.

### MR. HAROLD BURT

The whole staff of the University has been profoundly shocked within these last few days to hear of the sudden death of Mr. Harold Burt, whose brilliant career at Oxford and Manchester, has been watched with the deepest interest and pride by all who knew him. Many of us had hoped and believed that within the next few years his influence as a teacher at Oxford University and his writings would have formed an invaluable contribution in the realm of Christian philosophy and religious thought. But God had other plans for him.

"He being made perfect in a short time  
Fulfilled a long time."

Our truest sympathy goes out to Mr. & Mrs. Burt in their bereavement.

### MEETING OF THE ADMINISTRATIVE COUNCIL

The Administrative Council meetings took place on March 1 & 2, and a considerable amount of important business was transacted. In the regrettable absence of Dr. Chang Po-ling who has recently lost his mother, Bishop Scott occupied the chair. From the Minutes which accompany this Bulletin, it will be noticed that the most important matters considered were the arrangements with the N.China Union Medical College for Women, the new recommendations for the School of Theology, the consideration of plans for securing a greater proportion of Chinese members of staff, and the endorsement of the Annual Budget.

With regard to the arrangement for the Women's Medical School, the Council are anxious that the transfer should be effected without undue delay, and it will be noticed that they have passed a Minute recommending that women medical students be admitted next September, provided the necessary accommodation can be secured. Unless the home boards object to this suggestion there should be no serious difficulty in carrying it out, and it is obvious that as the women medical students will in any case be coming to Tsinan within the next two years, the sooner we can make provision for women pre-medicals the better. We are still awaiting definite word from New York on the financial side, and are therefore at present unable to proceed with buildings, but it should not be difficult to arrange for the accommodation of a small group of women students in rented quarters, if dormitories cannot be provided in time.

The invitation which has been extended to Miss Miner will without doubt gain the warm approval of the whole staff. Since Miss Miner resigned the deanship of the Yenching Women's College,

her future work has been undecided, and it would be an immense gain to us if we could secure her wise counsel and unique experience in the organization of our women's unit in the University.

The matter of the Budget occupied a large amount of the Administrative Council's time, and it will be seen from the special Minute which was passed with reference to it, how reluctant they were to endorse it. In drawing attention, as they have done, to the serious curtailment of our present work, particularly in the School of Arts and Science, which the limitations of this budget involve, it was earnestly hoped that special means would be found for securing such extra funds as may make such curtailment unnecessary. One member of the Board has already guaranteed the sum of \$500 towards the amount that is necessary to retain the senior college work in science during the ensuing year. It would be most regrettable if in some way or other the further \$1000 could not also be found.

The facts disclosed by the present budget were regarded by the Administrative Council as of the most serious nature, and they have therefore decided that the question of the financial basis of the University, in its relation to educational policy, shall be made one of the chief items of business at the full meeting of the Field Board, which is called for June 6th. The President has been asked to prepare a special memorandum covering the main points affecting this question. This memorandum will be circulated amongst members of the Field Board and also amongst members of the University staff as soon as it can be got ready, so that all may have an opportunity of studying it, and suggesting methods for meeting the situation.

#### SUMMER SCHOOL

Now that the Administrative Council have endorsed the recommendations of the Senate for holding a Summer School this year, (if possible in union with the Yenching staff), it will be necessary to decide as soon as possible as to what courses can be offered, and what arrangements can be made to secure suitable students. There is a probability that the Council of Health Education may co-operate in this School and arrange for some courses for teachers and others, in such subjects as School Hygiene, etc. If Yenching is able to co-operate with us there should be every prospect of a most successful school, and in this way the University should be able to perform a real service to the Missions and Churches.

#### VISIT OF MISS DINGMAN AND MISS HARRISON

During the next few days we are to be favoured with a visit from Miss Dingman, industrial secretary of the World's Y.W.C.A., and Miss Agatha Harrison, National Industrial Y.W.C.A. Secretary for China. Their purpose in making this tour is to study at first hand the present industrial conditions in China, and to confer with Church leaders, missionaries and business men, etc., as to any steps that can be taken to protect the fast developing industrial system in China from the horrors of insanitation, injury to life and health, and the exploitation of cheap labour which unfortunately characterised the industrial system in the West in its early stages. Miss Dingman has kindly promised to address our students on Sunday morning, and also to speak at a meeting of the whole foreign community on Monday night.

### LITERARY SOCIETY

In consequence of the visit of Miss Dingman, the Officers of the Literary Society have asked us to announce that their usual meeting will be given up this month.

### AN EXPERIMENT IN WINTER VACATION SERVICE

At the University service last Sunday morning, a brief but interesting report was given by one of the students of the work carried on at Lung Shan during the winter vacation. Eight University students spent a month in that centre for the purpose of conducting an evangelistic and educational campaign. Every morning six of them went out in pairs to visit the surrounding villages, whilst two remained at the Lung Shan Preaching Hall to receive any visitors who might call. Every village within a 10-li radius (between 20 and 30 villages in all) was thus systematically visited during the month by these itinerating evangelists, who returned each afternoon to the Lung Shan centre, there to hold an afternoon school for the children of the district. All eight members of the band co-operated in conducting this school, the course of study being phonetic script, gwoh wen, simple Bible stories, etc. The evenings were devoted to preaching service, mainly with the Lantern, and to various forms of social entertainment. Sundays were given up to regular services, and to the holding of a Sunday school. As a result of this effort 47 names have already been entered for further study with a view to baptism. So keenly were the students efforts appreciated, that the chief people of the villages turned out to see them off when they had to return to Tsinan. This is the kind of vacation work which it is good to hear about, and those who took part in it shared to the full in the benefit that resulted. Five students are hoping to go out each week during the present term in order to follow up this effort.

### UNIVERSITY FIELD MEET

The University Tsing Ming Holidays take place this year on Thursday, Friday and Saturday, April 5-7, and either during that period, or possibly on the previous Saturday our annual Field Meet will take place. This Meet ought to be of far more importance than those previously held, not only because we now have our system of compulsory athletics for the raising of standards throughout the University, but also because these next few months will see three of the largest Athletic Meets taking place in the Far East, the N. China Meet, the Whole-China Meet, and the Far Eastern Olympic. It is certainly time that the University was represented these various athletic events, and any help which members of staff can give in the training of students, or in helping to make our own athletic festival a real success, will be greatly appreciated by the newly formed University Athletic Association. In this connection may we take the opportunity of reminding house holders, or those in charge of the various administrative buildings, that we are trying to make a good cinder track on the athletic field, and that any contributions in the form of ashes from furnaces, etc., will be most heartily welcomed.

### CONTRIBUTION FROM A FORMER GRADUATE

The letters which daily fill the boxes of the administrative offices are usually somewhat matter-of-fact in style, but every now and again we get one which cheers us for the whole week. Such a letter arrived a few days ago in the form of a simple communication from a former graduate now working in a Mission Hospital,

sending a cheque for \$13, \$3 in the form of a subscription for two copies of the Tsinan Medical Review, and the remaining \$10 as a contribution to the University Funds. Blessings on him!

#### MOVEMENTS OF STAFF

Dr. P.S. Evans. It is good to hear that Dr. Evans' health is sufficiently well established for him to make plans for his return to Tsinan. He and Mrs. Evans are hoping to sail in August, bringing with them their eldest son, Levering, who will be graduating at Yale this summer, and who will probably be coming out to China for at least two years.

Dr. Wheeler writes from America that he expects to come back with Bobbie in time for the beginning of the September term, but that Mrs. Wheeler and the two youngest children will be following in the autumn; Marjorie and Winnifred will be left at school in England.

Dr. Moorshead writes that Dr. Ellis has been set aside by his Mission for six months special promotion work on behalf of our University. This will delay his return, as he is anxious to take out some post-graduate work in radiology before starting back. He does not therefore expect to be with us until the Spring of 1924.

Dr. Li Tien Lu is expecting to finish up his work in Peking Academy about the middle of June, so as to be able to spend the summer vacation in Tsinan, making preparation for taking over the full work of the Deanship at the beginning of the next semester.

It was a very great pleasure to see Dr. Gillison back amongst us last week, and much as we sympathise with the needs and opportunities of the work in Hankow, we certainly hated to see him go. His work here will never be forgotten, and we should all rejoice if it were possible for him and Mrs. Gillison to come back among us. Meanwhile we shall follow Dr. Gillison's work in Hankow with warm interest and earnest intercession. Interesting rumours have reached us as to Dr. Gillison's journey to Hankow, and the very noisy companions with whom he travelled! Is it a fact that he is planning to start a new poultry farm in the L.M.S. compound?

Dr. & Mrs. Maitland will probably be leaving Peking very shortly for Hwai Yuan, where they are hoping to spend a few months, at the invitation of the Presbyterian Mission station there.

#### PROMOTION WORK IN ENGLAND

Cheering letters have been received from Dr. Moorshead with regard to the promotion work that is being carried on in England during the present months. Meetings have been arranged at a number of different centres, in which the local Churches and representatives of the various Missionary Societies are co-operating. Dr. Wheeler, Dr. Ellis, Dr. Han Chung-Hsin, and Mr. Drake have all done splendid work in connection with these meetings, and Dr. Moorshead has asked that Dr. Han should be allowed to delay his return to Tsinan by three months in order to help forward this campaign during the summer. The Medical

Faculty have agreed to this suggestion. It is probably, therefore, that Dr. Han will not be back until the end of the present year. The special object of the present promotion campaign is not to secure large gifts for capital expenditure, but rather to augment our general income. It is only necessary to look through the recent Minutes of our Administrative Council, or to study our budget, to realise how opportune this is, and we cannot be too grateful to Dr. Moorshead and those associated with him for putting forth this effort at a time of such serious financial difficulties.

#### FINANCIAL ASSISTANCE FOR STUDENTS

Every term we are receiving appeals from students who are finding it difficult to secure the necessary funds for their study, and who are seeking some means of earning a little money to enable them to continue in the University. Mr. Donald Parker is able to utilise the services of such students in the Library if means can be found to compensate them for their services there. Last term we had three or four students at work in this way, who were paid at a uniform rate of \$3.50 per month for an hour's work daily. There are still 3 or 4 students who are anxious to secure similar advantages, and who otherwise may be forced to leave us. If any members of staff, through their personal friends or otherwise, could guarantee the necessary funds, we should be most thankful. Apart altogether from the assistance it will give to students in difficulties, the practice of such forms of self-help is worthy of every encouragement.

VISIT OF MISS DINGMAN AND MISS HARRISON

The recent visit of Miss Dingman and Miss Harrison to Tsinan made a deep impression upon all who heard them, and the addresses given by Miss Dingman to the University students last Sunday morning, and to the English speaking community on Monday night, will not easily be forgotten. Her Sunday morning address

was mainly occupied with an appeal for an adequate consideration of the human factor in industrial development, and a reminder of the large place which that factor takes in true religion. Her descriptions of the serious international, political, and social problems which are at present engaging the attention of the world, and which arise from an attempt to apply organized methods of industry to conditions which make no due regard for the welfare of the workers, was most impressive, and the students followed the whole address with close attention. Her address on Monday evening was a challenge to all Christian men and women to recognise the great mistake which organized Christianity had made in the past by its reluctance to appreciate its responsibility to apply the teaching of Jesus Christ to social and industrial conditions.

At the close of the meetings it was decided to form a special committee in Tsinan for the purpose of making a survey of local industrial conditions, and of co-operating with similar groups in other parts of the country. It will be the object of these groups to attempt to educate the consciousness of the Christian Church and of the missionary force on the necessity for concerted action to improve the conditions of the industrial system worker, and thus to save the rapidly growing industrial system of China from passing through the perils which accompanied that system in the West. Mr. Todmen was elected as convener of the proposed Committee.

#### TSINAN FOREIGN SCHOOL

An important meeting of all interested in the development of the Tsinan Foreign School is to be held on Tuesday next, when the proposed new constitution of the Association will be considered, and final arrangements made for the issue of the Debenture Bonds. A large number of these bonds have already been provisionally taken up, but if the full amount needed, (\$10,000) is to be secured, so as to make possible the erection of the very attractive building which is planned for, we shall need the help of every friend of the School within these next two or three weeks.

#### MR. CHANG PEI HWAI

Cheering news reaches us from time to time from Mr. Chang Pei Hwai, who is thoroughly enjoying his course of study in Toronto University. The following extracts of a letter kindly lent by Mr. MacRae will be of interest to all:-

"Toronto University is one of the best on this continent so far as I could have learnt from all quarters. This University is unique in its system, being an Americanized British type. It has the advantages of the English and American systems.

For College life no students could have a better life than we fellows living in Knox College. The buildings are most conveniently arranged. All accommodations are up-to-date. Boys of all faculties are grouping together, which gives one the greatest opportunity to make friends and to understand the University life as a whole. Our morning and evening services are peculiar in the whole University, men and women students coming from outside to attend our service too. In fact this is the most enviable institution in Toronto. Candidates are always too many for the capacity of the College.

.....

Professors in Theology are the leading men in the Church. Principal Gandier is nominate as moderator of the Canadian Presbyterian General Assembly. He is a strong advocate for Union Church - Union between Methodist and Presbyterian, possibly Baptist. This union is likely to be carried out next year. Co-operation between Knox College and Victoria is actually carried on, students of either faculty attending lectures in both. I am very glad that I have come to this College.

I have not yet quite decided what to do in the summer; Dr. Gandier the other day told me that he will see Dr. MacKay about my work in the summer. So far as I could make out from his words, he has not got any idea of my work at all. Preaching in the mission field in the west is most attractive to me, but I do think they will send me this year. For the sake of improving my language and knowing the real life here, I'd prefer to work here as a labourer in some of the factories or on the farms. Most probably I will find some job in Toronto so that when you come I may be able to meet you and go up to your home.

REV. F. S. DRAKE

In a long letter just to hand, Mr. Drake writes enthusiastically of the experience which he is having at the London Day Training College and its associated practice schools. These schools are working out educational experiments on very similar lines to those organized at the Teachers Training College of Columbia University, and the Horace Mann School. In view of the Normal Training work which we hope to do in this University in the future, it will be interesting to read what Mr. Drake has to say on this subject. He writes as follows:-

"A new type of school is now just coming into use in the States and in England, organised on the "Dalton Plan" - a most inspiring arrangement, without regular classes, without time-table (except under special circumstances), the children largely working together in groups, at their own pace and in their own time. There is a separate room for each subject, supplied with books, magazines, pictures etc. dealing with that subject. Here the children work, digging out their own information and bringing difficulties to the teacher, who sits in the appropriate room and acts as friend and adviser. Each pupil has a certain amount of work to get through in the year, called the Contract. This is divided into assignments, one for each month, and this again into allotments, one for each week. This is done for each subject. So the child then goes ahead in whatever order it likes working at its "job". The plan is at present only being practised by a few schools in England in its entirety, though it is being practised by many in a partial or modified way. I have seen something of the thing at work, and cannot but regard this as the right and sound thing. At the same time the actual practice I am getting is in the old method, the argument being that a grasp of the old method is the best foundation for the new.

It seems to me that our school practice in Tsinan, must be on the Dalton Plan, or some similar method. We must not start the ball rolling in the ruts of an old regime which is gradually passing away in the West. But the new is still largely experimental. And in any case it will be experimental as applied to China. Only to mention one thing, we have not yet the right kind or the right number of text-books to carry out the plan in its entirety in China. It is for this reason that I advocate a small practising school at first, - one that can be run by the Training College staff and students, without having suddenly to create a

large staff of people trained in the old regime. We had I think far better build up our school on each of the new principles as we teach and prove it. For the rest I would advocate an arrangement with other schools in Tsinan, e.g. East Suburb School, Y.M.C.A. School, and even Government Schools, whereby the students can go there to observe and to teach. I think there would be no difficulty in arranging for teaching on certain days, and supervision of that teaching, much as it is done in London. For Secondary School work I would even suggest some arrangement with the other Mission Middle Schools in Shantung, e.g. Taian, Tsingchow etc. by which students could put in perhaps a whole term's teaching under the supervision of the Headmasters there, with occasional visits from the College Supervisor. There would be considerable value to the students in thus seeing different schools actually at work, while the experimental work with which they would be associated in Tsinan would provide them with the latest thing, with they could compare the other methods, and so find their own line. This plan would have the further advantage of no great immediate expense, and of giving the opportunity for making it from the beginning dependent upon local support. Of course even if the Practising School commenced as a Day School, the aim must be to make it a Boarding School."

#### DR. W.M. SCHULTZ

For the last 7 years every former colleague and friend of Dr. W.M. Schultz has been looking forward with keen anticipation to the hope of his return to China. On various occasions those hopes have been dashed to the ground at the very moment when they appeared to be at the point of consummation. Within the last few months three seemed every probability of his re-appointment to the Presbyterian Mission in Shantung, and it is therefore with deep regret that we have just heard the news of his brother's death, which will necessitate his remaining in the United States. All who knew him unite in sincere sympathy at this disappointment and loss.

#### PROFESSOR ADOLPH

During the present week Dr. Adolph has been paying an important visit to Tientsin and Peking, where he has been addressing the students of Nankai University, giving a lecture before the Peking Chemical Society, and conferring with the Faculty of Pei Yang University with regard to a joint inspection trip which is to be undertaken by science students from that institution and from our own School of Arts and Science during the Tsing-ming holidays. He will be returning to Tsinan on Sunday night.

#### UNIVERSITY ATHLETICS

Dr. Shields, Chairman of the University Athletic Association appeals for the help of members of staff in the supervising of athletics on Monday, Wednesday and Saturday afternoons. There is at present a real danger of our compulsory athletic system breaking down for lack of better assistance on the part of members of faculty, as unfortunately the number of students who have learnt to value athletics for their own sake and can make good use of the time set apart for the purpose, is still very limited. Dr. Shields would be very grateful for offers of help.

C.M.M.A.

.....

NEWS ITEMSUNIVERSITY LECTURES

A revised list of the Lectures for this term has been circulated during the past week, and it will be noticed that various changes have been made. Any members of staff who have not seen the revised list can secure copies from the President's Office.

All who were present at the Lecture last week will certainly agree that Mr. MacRae gave one of the most delightful and interesting papers that we have yet had since this Lecture Course was first started. We hope it may appear in some more permanent form.

We are greatly indebted to Mr. Tang En-liang for his kindness in paying a special visit to Tsinan in order to give us his lecture on "Good Roads in Shantung". Members of staff will be interested to know that Mr. Tang has accepted the position of honorary assistant director to our Extension Department.

HOSPITAL BOARD

An encouraging meeting of the newly formed Hospital Board was held on the 15th inst. Amongst other matters that were discussed was a proposal to start a hostel on the premises immediately opposite our present hospital, fitted up for the accommodation of patients awaiting admission to the wards, and also for convalescent patients who have left the wards but are not yet sufficiently well to return home, and for the friends of patients from a distance. This hostel will be administered by the Hospital authorities and be subject to their supervision; but in this way it is hoped that at a comparatively small expense comfortable quarters can be secured for at least 25 or 26 men. This will extend the usefulness of the hospital, and thus make some small provision for those who at present suffer owing to the limitation of hospital beds. A small charge will be made for board and lodging sufficient to make the hostel self-supporting, and even to pay back a small sum annually towards the initial expense of fitting up the premises. It is estimated that a sum of about \$500 will be needed for this purpose, towards which Mr. Che, the Vice-chairman of the Hospital Board, has kindly promised \$100.

CONFERENCE ON RELIGIOUS EDUCATION AND SUNDAY SCHOOL WORK

A Round Table Conference on Religious Education will be held in Tsinan from April 3 to April 5 inclusive. The Conference will be in charge of Rev. J.S. Armentrout B.D., Director of Teacher Training and Daily Vacation Bible Schools, in connexion with the Presbyterian Board of Publication and

Sabbath School Work, Philadelphia and Rev. E.G. Tewksbury, General Secretary China Sunday School Union, Shanghai. A limited number of delegates from outside Tsinan will be invited. The aim of the Conference is to discuss with Sunday School workers and leaders in Religious Education, the main problems of Religious Education in Sunday School, Church and Educational institutions generally.

#### UNIVERSITY CHOIR

What are we going to do about a choir? We all so much appreciate having special music on those occasions when groups of students are able to take part at our Sunday services that everybody will agree that by the time our new Church is open we must if possible have a regular choir. How is it to be got together, and who will train it for us? It has been suggested that it might be better to have a joint choir consisting both of students and faculty members. We should be grateful for any suggestions along these lines, and better still for offers of help.

#### SHANTUNG BRANCH OF C.M.M.A.

A very attractive programme is offered for the Spring Meeting of the Shantung Branch of the C.M.M.A. which it is planned to hold on Wednesday, 11th April. In addition to papers by three members of our own staff, it is also hoped to have the assistance of some of the other physicians in the Province. The full programme is as follows:-

##### Morning Session, 9.30

1. Lethargic Encephalitis .....Dr. Lois Pendleton
2. Pyelitis, - its Guises and Disguises...Dr. H.W.S. Wright
3. Some Problems in Diphtheria.....Dr. F. H. Mosse

##### Afternoon Session, 2.30

5. Some Hints in Hospital Administration..Mr. F.H.B. Harmon
6. Hospital Evangelism.....Dr. W. Fleming
7. Election of Officers for 1923-1924.

#### AU REVOIR TO MRS. FORSYTH

There can be but few residents in China who have spent so long a time in the country without returning to their native land as Mrs. Forsyth who left us last Thursday for Scotland. It is 19 years since Mrs. Forsyth last left China, and her many friends in the City unite in wishing here a happy trip home and the pleasure of welcoming her back again next year.

.....

travelled down to Shantung from Peking, a journey of 10 days. From his present position as secretary of the China Christian Educational Association, he is in a peculiar position to appraise the value of the various educational institutions in the country, and it was very gratifying to hear his warm and unqualified commendation of the work which Cheeloo is attempting to do.

It is always heartening to see our Sunday morning service well-filled, and it is doubtful whether it has ever been filled during this present term by so appreciative and attentive an audience as those who had the privilege of listening to Miss S. C. Ting last Sunday morning. It is not generally known that Miss Ting, who for many years has been secretary of the Peking Y.W.C.A., and is now loaned to the National Office for the present year, is herself a native of Shantung. Her fearless remarks on the position which should be accorded to women and of the place which woman needs to occupy and is called by God to fill in China to-day, are not likely soon to be forgotten by the students who listened to them.

#### DEPARTURE OF MR. & MRS. WHITEWRIGHT

Mr. & Mrs. Whitewright are expecting to leave Tsinan for Shanghai next Wednesday evening, and to sail in "The City of Poona" on the 24th inst. It is quite impossible to imagine the Extension Department, or even Tsinan itself, without the Whitewrights, and what we are to do in the University without someone to manage our land purchase propositions, it is hard to say! The whole staff, however, unites in wishing them both a very happy furlough, and a most profitable time at home. Wherever they go we are very certain that the interests of the University, and of union work in general, will be in very safe hands, and that they will gather together many new friends for the institution in the course of their travels. Meanwhile it is good to think that Mr. Payne will be keeping the Institute flag flying, and helping to take full advantage of these boundless opportunities for social and evangelistic work.

#### THE EXTENSION DEPARTMENT'S LATEST VISITOR

A somewhat novel, but extraordinarily popular visitor arrived at the Extension Department at the beginning of this week in the shape of a large and somewhat disintegrating sturgeon, which had been caught in the north of the Province. His appearance and odour were neither of them exactly prepossessing, but already fabulous stories have been circulated to the effect that he has dropped down directly from heaven - whether for the improved - feng-shui of Shantung, or the increased popularity of the Extension Department, the story-tellers do not relate! Suffice it to say that over 8000 visitors have already appeared at the Institute within the last two or three days, with the express purpose of inspecting this heaven-sent visitor. Rumour has it that the actual fish has been tucked away in some quiet corner, where he can exude his unpleasant odours without disturbing the community, and that some highly respectable and well-stuffed occupant of the Natural History section is doing "t'i-kung" in his place!

#### CONGRATULATIONS

Our warm congratulations to Dr. & Mrs. Wright on the birth of their infant son on Tuesday last.

AUGUSTINE LIBRARY

Reference has already been made in another paragraph to the fine gift which has arrived for the maintenance of the Library. Meantime the success and popularity of the Library increase with each successive month, the latest statistics from Mr. Parker shewing that the books borrowed during March amounted to a total of 695, or more than 2 per student. The following volumes have been added recently:-

- Beard, Charles A., and Bagley, William C. Our Old World Background.  
 Bell, Kenneth (compiler) Puritanism and Liberty. (1603-1660).  
 Bewsher, Fred.W. (compiler) The Reformation and the Renaissance. (1485-1547).  
 Bourne, Henry Eldridge. The Revolutionary Period in Europe. (1763-1815).  
 Esdaille, Arundell. The Age of Elizabeth. (1547-1603).  
 Ford, Henry Jones. The Rise and Growth of American Politics.  
 Gettell, Raymond Carfield. Problems in Political Evolution.  
 Hearnshaw, F.J.C. (editor) Mediaeval Contributions to Modern Civilization.  
 Lowell, A. Lawrence. Governments and Parties in Continental Europe.  
 McBain, Howard Lee, and Rogers, Lindsay. The New Constitutions of Europe.  
 Merniam, Charles Edward. The American Party System.  
 Myers, Philip Van Ness. Mediaeval and Modern History.  
 Leadbetter, Florence E. Outlines and studies to accompany Myers' Mediaeval and modern History.  
 Ogg, Frederic Austin. The Governments of Europe.  
 Ogg, Frederic, A.  
 Perrett, G.B. (compiler) A Constitution in the Making. (1660-1714).  
 Pierson, Charles W. Our Changing Constitution.  
 Porter, Robert P. Japan: The rise of a modern Power.  
 Ray, P. Orman.  
 Rose, J. Holland. Nationality in Modern History.  
 Schaff, Philip. The Progress of Religious Freedom as shown in the Toleration Acts.  
 Smith, Vincent, A. The Oxford Student's History of India.  
 Van Dyke, John C. A Text-book of the History of Painting.  
 Willoughby, Westel Woodbury. The American Constitutional System.

PRESIDENT'S VISIT TO SHANGHAI

Dr. Balme will be away from Tsinan from Tuesday evening next until the following Sunday morning, on a visit to Shanghai, having been asked by the National Y.M.C.A. to serve on a special Commission which is considering the re-organization of student Y.M.C.A. work throughout China, and the development of a Student Christian Movement.

THRIFT WEEK

A special attempt is being made next week by the Y.M.C.A. and Y.W.C.A. to bring the subject of "Thrift" before the people of China, by means of special lectures, etc. in all of the big

Cities. A "Thrift" Programme will be held at the Institute for our own students and for students of the City, on Saturday evening, 31st March at 7 p.m., when short speeches will be made on the different phases of individual and national thrift. Some of our students will also take part in a procession on Saturday afternoon, 31st March in the interests of this campaign. Banners with special slogans will be carried round, and printed material prepared by the different schools and by the Y.M.C.A. will be distributed.

### RELIGIOUS EDUCATION CONFERENCE

The following is the special programme for the Conference on Religious Education, arranged in connection with the approaching visit of Dr. J.S. Armentrout and Rev: E.G. Tewkesbury:-

		<u>Programme of Conference</u>
		<u>Religious Education in the Church</u>
Tuesday, 3rd April.	9-10.30	Sunday School Organization
	10.45-12	The Sunday School, a Training Ground
	3.30-5.30	for Christian Service.
	3.30-5.30	A Church Programme of Religious Education
		<u>Teaching and Leadership Training</u>
Wednesday, 4th April.	9-12	Methods of Teaching, Problems. Discussion, Projects, etc.
	3.30-5.30	Applied Bible Study. How to make more Social, Individual and Spiritual the Work of the Bible Class
		<u>The Literature of Religious Education</u>
Thursday, 5th April.	9-12	The Uniform and Graded Lessons The Curriculum in Religious Education Teacher Training Literature
	3.30-5.30	Religious Education in School & College Voluntary Bible Study Groups Daily Vacation Bible Schools.

### WORLD CONFERENCE ON FAITH AND ORDER

An interesting series of pamphlets and other papers have just reached us, dealing with the extensive preparations being made by N. America and Gt. Britain for the World Conference on Faith and Order, to be held in Washington in May, 1925. These papers are mainly occupied with the encouraging attempts which have been made in various centres to draw different sections of the Christian Church together for a frank discussion of matters affecting our common faith, and the organization of the Christian Church. The President will be delighted to lend copies of these pamphlets to any who would care to read them, if they will send in their names to his office. Is it possible for us in Tsinan to get together an informal group of representatives of various denominations for the consideration of the topics that are to be discussed at the Conference in Washington? Our whole University system is a great experiment in spiritual fellowship. Is it possible to make the fruits of this experiment available to others who are also groping their way after a closer spiritual rapprochement within the various sections of the Christian Church?

### VISIT OF BOY SCOUTS

Those of us who were present at the World Student Christian Federation Conference at Tsing-Hua last year, will never forget the splendid troop of boy scouts who performed so many useful services there. We are delighted to hear that Professor Chau is bringing 60 of them to Shantung during the Tsing-Ming Holidays for a visit to Tai Shan and Chufou, and is hoping to spend the greater part of Saturday, 7th April in Tsinan.

### UNIVERSITY ATHLETIC MEET

Will everybody please note that Saturday, 14th April is the day fixed for our Athletic Meet. The University Athletic Association have decided to invite representatives of other colleges in Tsinan to share this Meet with us. It will not, however be organized on an intercollegiate basis. In view of the approaching N.China Athletic Meet, which is to be held in Tientsin on May 3 & 4, we hope that we shall be able, as a result of our own Meet, to pick out some promising delegates to take part in the N.China contest. This will be the first time that we have sent an official delegation, but it is hoped that in future we shall not only be able to have Cheefoo represented every year, but also to secure some trophies for our University.

### MEETING OF N. AMERICAN JOINT BOARD

The Minutes of the Executive Committee of the N.American Joint Board have just come to hand, and are being circulated. If any members of staff have not seen them, will they please send in their names. Action on most of the more important matters was deferred by the Executive Committee until the Annual Meeting of the N.American Joint Board on 10th April, when it is expected that at least two representatives of the British Joint Board will also be present.

### MOVEMENTS OF STAFF

A long and cheery letter from Dr. Neal has been received during the past week, in which he sends his warm wishes to everyone. He speaks of his own health as being well maintained, and of being kept busy in various ways.

A letter has also been received from Dr. Wheeler written from Rochester, Minn., where he was much enjoying the Mayo clinic. He only expected to remain about a month in the States, dividing his time between Rochester, Baltimore, and New York. He expected to sail again for England on March 10 in the "Majestic", and to put in two or three months in special surgical work in London during the summer.

### VISIT OF SCIENCE STUDENTS TO INDUSTRIAL CENTRES

A joint tour to the industrial centres in Tzuchuan, Poshan and Tiehshan by our own Senior Science Students, and by a party from Pei Yang University, has been planned during the coming Tsing-Ming Holidays, commencing on Wednesday, 4th April. Professor Adolph will be in charge of our own group of students, and a very strenuous and interesting programme has been prepared.

### LECTURERS FOR THE THEOLOGICAL SCHOOL

During the coming week the students of the Theological School will be privileged to hear a course of lectures which are to be delivered by Rev: Pao Kwang-Lin of Peking, who is hoping to spend 4 days in the University.

Rev: F. Rawlinson, whose approaching visit has already been alluded to in the Bulletin, is expected on Tuesday night, and has promised to give a course of three lectures to the Theological students and Senior Arts students on the subjects:- "Some Starting Points in Thinking"; "The Starting Point in Living", or "The Significance of Jesus Christ for To-day"; and "The Starting Point for Work", or "The Church as an Instrument of Service". It is hoped that arrangements can be made by which one of these lectures will be delivered on Thursday morning to the whole student body.

Rev: Yee Hsing-Lin, a former member of our staff, has kindly consented to deliver a short course of lectures in the Theological School in the near future.

### SUMMER SCHOOL

Arrangements for the Summer School are proceeding apace, and there is every cause for expecting a very successful outcome to this initial effort. The Council on Health Education for China have accepted an invitation from the University to co-operate with us this year, and are planning to give special courses in school hygiene, physical training and other allied subjects; whilst we have every reason to hope that Yenching University will also share in this joint effort, and will be able to send down some instructors and Students for the various courses that are to be offered. All three schools of our own University are co-operating in the plan, so that it should be possible to offer post-graduate instruction to graduates from all the various departments. As Professor Adolph has found himself unable to undertake the Directorate of the School, Professor Heeren has been invited by the Senate to take over this duty and has kindly agreed to do so. Full particulars will be published in future issues of the Bulletin, but it is of special interest to note that the school will probably be run on co-educational lines, the S.P.G. Hostel having been kindly offered to us for the accommodation of women students, whilst others will probably be housed in the Nurses' Home.

### DR. HAN CHUNG-HSIN

An interesting letter has just come to hand from Dr. Han Chung-hsin, bringing the good news that he has been appointed to a Fellowship by the Inter-national Health Board, which will enable him to take 3 or 4 months special study in the United States before returning to China. He also tells us that that extremely conservative body, the Conjoint Board of the College of Physicians and Surgeons of Great Britain, having carefully scrutinized the courses of study which he had to take as a medical student in our University, have decided to recognise his medical diploma, and allow him to sit for the Diploma of Tropical Medicine and Hygiene in London. He was hoping to take the examination this month, though with his characteristic modesty, he expresses grave doubts as to whether he will succeed. He writes "The more I learn, the more I am interested in medicine, especially how the infection of all diseases takes place. I am very fond of entomology, protozoology, but sorry to say that there is but little time to spend on these things in the School (that is the School of Tropical Medicine). I cannot possibly hope to remember even their names; in fact the names of

These things are really the worst part of the whole body." He continues, "Thanks very much for sending me the Weekly Bulletin. There are lots of things in it. I notice the University Athletic Association is formed. That is great. I hope colours will be awarded to distinguished athletes".

#### STUDENT SELF-HELP

In response to the notice inserted in the Bulletin two or three weeks ago, we have already received two or three kind offers of help for students anxious to earn money during their College course. The fact of such self-help being possible has brought a number of applications from students anxious to relieve their parents or friends from part of the financial burden which University study represents, and we shall be grateful at any time to hear from other members of staff who can secure through their friends special funds for assisting such students.

#### DEVELOPMENT OF PUBLIC SPIRIT

Of the many needs which we speak from time to time in connection with our University, there is perhaps none which is more serious than the development of a deeper spirit of public service. We are continually meeting this need in connection with student activities, where the lack of whole-hearted team work, and of loyalty to leaders, and an unwillingness to serve in popular or difficult causes, are only too apparent. We meet it also in the relationship of the staff to the student body, and most of all amongst many of our graduates. It is easy to ascribe the blame for such a lack of public spirit to our students. Perhaps the chief blame lies in ourselves, in our failure to develop a better corporate sense and a deeper realization of the privilege and responsibility of public spirited service. Our University will fail in its object unless it relates itself to the vast needs of the community outside us; but we can never hope to project ourselves as an educational unit into the life of the community at large unless we first succeed in developing a deeper college spirit within. Shall we keep this subject much in our thoughts and prayers.

#### IMITATION THE SINCEREST FORM OF FLATTERY

Four years ago one of our medical graduates from the far South, having completed his course at the Medical School, took up a position as assistant in a Mission Hospital in the Yangtzu Valley, where we have had very encouraging reports of him from time to time. Leaving there last year he went back to the south, and an interesting letter has just arrived from him, mentioning the fact that he has been made Hospital Superintendent of a Mission Hospital in Kwangtung, where they are planning to erect an entirely new In-Patient Department, and asking if he might borrow the plans of our own University Hospital as a model to work from.

#### HOUSING ARRANGEMENTS FOR NEXT WINTER

The Housing Committee have made the following recommendations with regard to the accommodation of members of staff for our next scholastic year. These may not necessarily be final, but members of staff will probably be glad to hear of what is proposed.

Dr. & Mrs. Li Tien lu	in the house occupied by Mr. & Mrs. Harmon
Mrs. Chalfant	" " " " " Mr. Ch'eng
Mr. & Mrs. Parker	" " new A.P.M. House

-----  
NEWS ITEMS

The cable service and mails have been very kind to us this last week, and we have received information on three items of a particularly cheering character.

The first came in the form of a cable from New York, afterwards amplified by letters from Shanghai, telling us that an appropriation of \$7000 Gold has been made for a residence for Mr. & Mrs. Parker, and a further \$3000 Gold for "property" - presumably the purchase of land. These sums are in addition to the appropriation of \$6000 Gold for another A.P.M. house, of which we received notice a month ago. These two new residences will help materially towards the solution of our housing problem for this next winter, and we are indeed grateful to the Presbyterian Mission Board and those friends who have secured these appropriations for us.

Our second source of cheer has reached us from Canada, in a very kind letter addressed to Mr. MacRae from the Augustine Church, Winnipeg. Although that Church is loaded with heavy financial responsibilities, which as made it seem unwise to their Board of Managers to assume, for the present, the full support of the Augustine Library, a group of interested friends in the Church have most generously undertaken to send us \$100 Gold per month for the next 18 months, commencing with June of the present year; and, in addition, have forwarded a sum of \$250 gold to help out with our expenses for April and May. It was only last month that we were writing to the Home Boards of the serious possibility of having to close down the Library after the end of 1923. This gift, therefore, is peculiarly opportune and welcome, and our very sincere thanks are extended to those who have undertaken this responsibility. We only wish it were possible for them to send some representative of the Church to come and visit us, and see for themselves how large a contribution they are making to this University and to the development of our students by the gift and maintenance of this splendid Library.

We could hardly expect to receive still further good news on top of two such matters for encouragement, but this time the unexpected has happened in the most delightful way, for we have just had a cablegram from the Secretary of the Lutheran Mission, informing us that Dr. Braafladt is hoping to return to us this autumn. It seems but yesterday that we first received the disappointing news of Dr. Braafladt's resignation, and it is almost too good to be true that after all he has seen his way to return. He can certainly be assured of a very warm and hearty welcome when he arrives back among us.

#### ATHLETIC MEET

The University Athletic Meet which was arranged for Saturday, 14th inst. is to be postponed until next week, owing to a request from the Government Schools in the City, that they be allowed to join with us in a united meet for the purpose of choosing Shantung delegates to the N. China Athletic Festival. The date chosen for this event is Friday, 20th April, so that unless circumstances occur which make it impossible to carry it out on a joint basis, a University holiday will be granted that day for the purpose.

#### RECENT VISITORS

The visit of the Rev: Pao Kwang-lin to the University was greatly appreciated, and the lectures which he gave to theological students upon the place which the Chinese Church of the future should occupy, left a deep impression. The whole student body were privileged to hear an address from Mr. Pao on Thursday last, and we hope it may not be long before he is able to come again and take a Sunday service.

It was a disappointment to us that the Rev. F. Rawlinson, to whose visit we have so much looked forward, was unable, for domestic reasons, to give us more than a single day. We much appreciated the fact that in spite of circumstances urging his immediate return to Shanghai, he was at any rate able to spend 24 hours in Tsinan, and his three lectures in the University were greatly appreciated.

We also had the pleasure during the last weekend of a visit from the Rev: & Mrs. Frank D. Gamewell. Dr. Gamewell's first visit to Tsinan was made no less than 41 years ago, when he

had a splendid attendance for the gathering, and the University had no difficulty in taking first place in the Upper Division. The fact, however, that we were not able to make a better showing in this qualifying competition, and that such a comparatively small number of the students contested the various events, should lead us to think of some new step for stimulating a keener athletic spirit amongst all the departments. Perhaps the newly formed Athletic Association, whose constitution has now been ratified, will have some startling recommendation to bring before us before long.

#### THEOLOGICAL SCHOOL STAFF

It is probably known to all by this time that owing to his recent sad bereavement, Mr. Burt will be leaving us for England at the end of May. We had hoped that it might be possible to secure someone to take his place in the Theological School during the coming year, but in this respect we have been disappointed. Mr. MacRae has, therefore, generously offered to remain here until the end of 1923, by which time it is hoped that special help will be available for the following year. Mrs. MacRae and the children will be leaving for Canada at the time originally planned (early in June). We all sympathise with them in the separation which this involves, and much appreciate their willingness to make this sacrifice for the sake of the School.

#### UNIVERSITY LECTURES

As announced last week, our Lecture Course for this session will terminate on May 3rd, with a special lecture which Mr. Burt is kindly giving, and which is to be at 8.30 instead of the usual time. We shall probably all agree that these Lecture Courses have been thoroughly worth while, and our thanks are certainly due to Prof. Heeren for the strenuous work that he has done in arranging them. It is hoped that it may be possible to preserve at least some of the Lectures in permanent form, and the Publicity Committee will shortly have an announcement to make with regard to them.

UNIVERSITY CHAPEL

Preparations are going forward for the completion of the interior of the new Chapel and there is every hope that this will be finished in time to have the opening on Friday, 8th June, our next Commencement Day. The only students who will be graduating at that time are from the Theological School, so that it would seem peculiarly fitting for their Commencement Exercises to take the form of a special religious ceremony, and be connected with the opening of our fine new Chapel. Many important questions will arise as to the conduct of the services in the Church in the future, and amongst others there will be the important matter of the musical arrangements. The small pipe organ which was presented some years ago to the Theological School when it was still at Tsing Chow Fu has now been brought up here, and Mr. B.G. Tours is kindly investigating it, and will advise as to whether it is worth being put in

order for use in the Chapel. Most members of staff will also have heard by this time of Mr. Tours' great kindness in agreeing to organize a University choir. It is proposed that the Choir should be limited in numbers for the present, probably to include not more than 20 voices. This will be picked from members of staff and from the students of the three schools. In preparation for the special service at the opening of the Church Mr. Tours has kindly offered to come over twice a week for practices, so that if the students respond well to the proposals we ought to have a splendid musical service on June 8, and have every hope of good music for our Sunday Services next term.

#### GIFT OF BOOKS FOR UNIVERSITY CHAPEL

Through the kindness of a friend in England 300 nicely covered Chinese Bibles have been presented to the University for use in our new Chapel, and a similar number of copies of the new R.T.S. (Hankow) Hymnal. These will all be stamped with the name of the Chapel, and will be in use at the time of the opening.

We have also heard of a further gift which is coming out from England from a large Brotherhood Meeting held at Portsmouth, and which is usually attended by nearly 2000 men. They are most generously sending out 500 copies of the Fellowship Hymn Book (some 50 of the volumes to contain music also) for the use of our students on those occasions when they learn to sing English hymns. This kind token of friendly interest in the work of the University on the part of this large Brotherhood Meeting is very warmly appreciated.

#### UNIVERSITY ATHLETICS

The Provincial Meet which is to take place at the University on Friday of this week will be arranged by several of the Government Schools, and will take the form of a qualifying competition for such Shantung athletes as hope to compete in the N. China Athletic Meet at Tientsin on May 3 and 4. By the terms of that Meet no competitors enter unless they have already attained to a fixed minimum standard at a properly adjudicated qualifying competition. We hope that a few of our Cheeloo men will be able at least to qualify on Friday, and thus join the team which is to represent Shantung at the N. China Meet. Colleges are divided for the purposes of the Meet into two sections Junior (Middle Schools and Normal Schools) and Senior (Universities and Technical Colleges, etc.).

#### REPORT OF SENIOR SCIENCE STUDENTS' TRIP

The biennial field trip to the industrial centres of Shantung with the senior science students during the Tsing Ming Holidays was a complete success. Fifteen made the trip, covering four days. For the last two days the S.C.U. party and the Pei-Yang University mining party, which was working through Shantung that week, joined forces making a total of forty. This opportunity of having the two student groups work together proved a valuable one. Tsuchuen Colliery, Poshan and Tiehshan were visited in turn. The new railway authorities were especially courteous and in addition to special fares did much to facilitate transportation, at one place making up a special train where branch line connections failed.

The sensation to most of the students was the half day spent underground at the modern colliery at Tsuchuen. Many of them were tramped underground to coal galleries where coal digging was done

by 13 year old boys who were to be preferred because of the narrow  $2\frac{1}{2}$  foot coal seams. Professor G.E. Barbour gave a number of simple field talks on geology which were keenly appreciated by the S.C.U. students.

AUGUSTINE LIBRARY

The following books have been received:-

Flattely -- The Biology of the Sea-Shore  
Rose and Carless -- Manual of Surgery.

AN EXTRA NUMBER IN THE UNIVERSITY COURSE OF LECTURES

Mr. Burt has kindly consented to give his lecture on "The Birth and Growth of the Modern University" on 3rd May, instead of next term. Since Mr. Burt goes home at the end of this term, it seemed desirable to hear this address before his departure. In order to enable as many as possible to hear a lecture on this most absorbing subject, the hour will be 8.30 instead of 6.30 p.m. THURSDAY, 3rd MAY, at 8.30 p.m. in the Library.

.....

We are much looking forward to the visit of Professor T.C. Chao during this coming weekend, and in addition to having the opportunity of hearing him address our University Service, arrangements are also being made for him to speak to the theological students, and be present at the Conference for Y.M.C.A. leaders at Kai Yuan Ssu on Sunday.

During the following weekend we are to have another very welcome visitor in the person of our new Dean of the School of Arts & Science, Dr. Li Tien Lu. He is expecting to arrive on Saturday, 5th May, and has promised to take the University service on the 6th.

Dr. & Mrs. Cochran will be leaving us for their summer trip to the States during the coming week; Mrs. Cochran starting on Monday evening, and Dr. Cochran on Thursday. They carry with them the warmest wishes of the whole campus for a very happy voyage, and a safe return.

#### OPENING OF UNIVERSITY CHAPEL

At the meeting of Senate held last Monday, it was definitely decided to combine the opening of the University Chapel with the Theological Graduation on Friday, 8th June, and Dr. Chang Po-Ling has been invited to preach on that occasion. A Committee on arrangements has been elected, of which Mr. MacRae is chairman, and we are hoping to see our beautiful new Chapel crowded out for the occasion. Meanwhile a very encouraging start has been made with the organization of the choir. Nineteen students and eight members of staff have already joined, and choir practices will now be held each week under Mr. Tours' guidance. Mr. Tours is hoping that the choir will be able to render the Te Deum, and a suitable anthem, in addition to leading the special hymns that will be chosen for the service.

#### THE COMING OF THE LADIES

They are really coming, or at least it looks very much like it! The long-awaited-for cablegram has at least reached us from New York, authorizing us to draw the sum of Gold \$32,500 for the erection of a women's dormitory unit, and one staff residence. The Building Committee is hard at work getting together the necessary plans and contracts, and within this next week we are hoping to have a visit from a representative of the N. China Union Medical College for Women in order to fix upon the site and general arrangement. The Building Committee is proposing that the North West corner of the Campus be suitably levelled and raised in height, and that the women's dormitory unit be erected there. This would enable the unit to be self-contained, with its own special entrance from the road outside the suburb wall, whilst at the same time still forming part of the general University grounds. The staff residence for women would be built close to the dormitories, so that there could be thorough control and supervision.

Meanwhile, in the absence of any cablegram from New York, vetoing the recommendation of the Field Board, announcements are being put out for the admission of the first class of women pre-medical students this coming autumn. Temporary arrangements will necessarily have to be made for them, as well as for the entering class of women medicals (if it is decided that they should come in September), but this should not be a serious difficulty. There is, therefore, a splendid prospect of having our first group of women students with us this coming September, and being ready for the whole student body and staff of the Women's Medical College by January next. If suitable provision can be made for their accommodation, etc., we may also be seeing a few women students in the Theological School, taking special classes in preparation for religious work.

### STUDENT CHRISTIAN MOVEMENT

A very interesting two-day conference was held at Woosung last week, at which representatives of Student Christian work from all parts of China were present. The object of the conference was to endeavour to promote plans looking to the development of a real National Student Christian Movement. It has long been felt that the Student Y.M.C.A.s in the different Colleges and Schools are greatly limited in their outlook, owing to the lack of any well developed group-consciousness thinking in terms of the whole student Christian body of China. Chinese delegates to the World Student Christian Federation Conference in Tsinghua last year suddenly awoke to the fact that whereas in other countries there had grown up a nation-wide Christian Student Movement, articulate and influential, in China there was little more than a loosely related collection of individual Student Y.M.C.A.s, lacking both in cohesion and in means of self-expression. This led to an enquiry which has been carried on in various student centres during the past two months, and which paved the way for the Commission at Shanghai last week. The recommendations of the Commission will be laid before the various student conferences this summer, and will in turn be submitted by them to the Triennial National Convention of the Y.M.C.A. in the autumn. Speaking generally, the Commission is recommending the formation within the Y.M.C.A. of a real Student Movement, largely controlled by student delegates themselves, and by those who are holding positions of importance in student work. This Movement will not only be a national organization, but it is hoped that there will also be branches in the various student centres and districts, which will gather together all Christian student forces in that particular area in a well organized and influential Christian Students Union.

There is a real danger to-day of Christian students losing their own souls for want of something to do. Most of them undertake certain activities within the confines of their own School or College, but very few have yet got the vision of a great body of organized Christian student opinion expressing itself in aggressive community service and in an earliest endeavour to influence anti-Christian feeling, and to win non-Christian students to Christ. It is this vision that we want to see our own Cheeloo students catching. There is, it is true, a considerable amount of valuable work being done by individuals, particularly at the Social Centre, at Lung Shan, at the Institute, and in the Hospital Wards. This is splendid, so far as it goes; but no-one can pretend that our student Y.M.C.A.s have yet developed a keen corporate consciousness or a sense of responsibility to act as a strong Christian unit in influencing public opinion of the students of this great City. Let us work and pray that this may be the outcome, and meanwhile do anything in our power to help the Y.M.C.A.s to get together and to put through a real aggressive programme.

### NATIONAL CHRISTIAN COUNCIL

The first annual meeting of the National Christian Council is to be held in Shanghai from May 10-16, inclusive. It is not proposed that there should be a long or elaborate programme. The suggestion is that those days should specially be spent in an unhurried study of the functions which the Council should attempt to fulfil in China, and, in particular, of the methods by which the Churches of town and country can be strengthened and a stronger evangelistic note struck in all forms of Christian activity. All four secretaries of the Council are now working together in Shanghai, and are giving promise of very effective team work. A special meeting of the Executive of the N.C.C. will meet in Shanghai prior to the Council meetings. Dr. Balme expects to have to leave Tsinan on Friday, 4th May, in order to be present at these various gatherings, and also at the meeting of the Associated Christian Colleges and Universities, and of the Advisory Council of the China Christian Educational Association.

NEWS FROM DR. ELLIS.

The following is an extract of a delightful letter just received from Dr. Ellis.

"You will know from your own experience how difficult it is to get time to write long letters and how useless it seems to write anything short of a long letter to one's comrades in the fighting line, and when I tell you that I have addressed fourteen meetings and travelled twice up to the North in the last fortnight you will see that no matter how willing the spirit may be the flesh craves sleep more than anything else.

But it is all abundantly worth while. Even if it were only from the point of view of keeping up and creating fresh interest till someone else can reap where we have sown its a great work. But in addition to that small sums come trickling in and these have a way of mounting up in the long run. And speaking generally its these small sums that are keeping us going still. Trade is not much better than it was, and any small improvement has been stultified by the uncertainty of what will happen now that France has started the dismemberment of Germany.

You will be intersted to know that I was succesful in getting that £1100 (eleven hundred pounds) from Southport for my new Electro-therapeutic department after an exciting week of meetings. It says a good deal for the "exclusive" spirit of Methodism that they voted this gift to a comparative stranger, for a co-operative scheme, instead of giving it to the son of a man whose name is a household word in Methodism and who pleaded for the money to establish \_ not a "luxury" department, but a school for nurses.

That is characteristic of the way in which Methodism has received me everywhere. A further instance of this spirit is seen in the invitation of the Mission House to address the Annual Conference at Bristol in the Colston Hall (which holds about 400 people). They have invited Gipsy Smith to draw the people But the missionary talk is left to another missionary and myself. Of course my theme will be the S.C.U. That is the biggest thing that any of the co-operating societies have done, for most of them seem literally afraid to mention the S.C.U."

The reference to the £1100 which Dr. Ellis has secured for his Department, needs a little explanation. This money was offered by some friend of the Wesleyan Missionary Society in Southport, but as there were two or three conflicting claims for the grant, the Society decided upon the rather novel plan of asking those who were appealing for the money to address a series of meetings in the Southport area, describing the needs of the work in which they were engaged. At the conclusion of these meetings those who had been present were asked to vote as to which of these various appeals was the most urgent, or was likely to represent the best use of the gift. We should certainly have liked to have an opportunity to "listen in" while Dr. Ellis was putting forth that fervid appeal for the X-Ray Department! We warmly congratulate him upon his success, and agree with him that it speaks well for the generous spirit of Methodism in the North of England that they were willing to devote this sum of money to a union enterprise.

UNIVERSITY ATHLETIC MEET

The elements were not a bit kind to us at our Athletic Meet last week, and perhaps it was to that fact, as well as to the lack of adequate preparation that only one of our students succeeded in qualifying for the N.China Meet on May 3 & 4. We certainly

WELCOME TO DEAN-ELECT

It is with very great pleasure that we shall have the opportunity of welcoming our new Arts Dean, Dr. Li Tien-lu during the approaching weekend. Unfortunately Dr. Li's duties at Peking will not allow him to be with us for more than the Sunday, but it is hoped there may be an opportunity for members of staff who have not already made his acquaintance to meet him during the time that he is here. As already announced, Dr. Li will be conducting the University Service on Sunday morning.

OTHER VISITORS

During the week just passed, we have had a very interesting visit from Mr. and Mrs. Franklin Warner. Mr and Mrs. Warner are both prominent member of the American Board, and Mr. Warner is also Chairman of the Board of Trustees of Peking University.

Dr. Luella Miner, formerly Dean of the Yenching Women's College, has also been a very welcome visitor this week, and has most kindly promised to come back again in June in order to help at the Joint Summer School, both by teaching some of the special courses, and by taking general charge of the women students who attend the school. We are peculiarly fortunate in having Dr. Miner's kind services for that occasion.

A third visitor of note has been Mr. Sydney Clerke who has for several years been making an intimate study of the relationship of business methods to the missionary enterprise. Members of our community may possibly remember a striking pamphlet which he issued on the subject a few years ago. Since that time he has been specially taking up the question of the village Church, and has spent many months in the villages of China in an attempt to get closer to the heart of the problem.

#### Y.M.C.A. LEADERS' TRAINING CONFERENCE

A very successful Conference for Y.M.C.A. Leaders was held at Kai Yuan Ssu during the last weekend, at which a number of Cheeloo representatives were present. Coming as it did at the end of the special week on behalf of the Student Volunteer Movement, it helped to emphasize the urgent need for devoted service on the part of Christian students. The presence of Professor Chao of Soochow, and Mr. Ch'en of Shanghai helped greatly in the conference, and the students who attended it received real inspiration.

#### STUDENT VOLUNTEER MOVEMENT

It is very encouraging to record that as a result of the week of special effort to secure new volunteers for the ministry, no less than 30 recruits have been obtained in this City; 21 from the East Suburb Middle School, and 9 men from our own School of Arts. With these nine new volunteers, we now have a total of 35 students in the Arts School who are hoping eventually to train for the ministry.

It may not be generally known that these volunteers have a special meeting in one of the rooms in the Administration Hall every Sunday evening for prayer and inspiration. They need all the support that we can give them in view of the great opportunity that lies before them.

#### STAFF RETREAT

During the next two or three weeks members of staff will be making arrangements for their summer vacation. Will everyone try to bear in mind that we are hoping to plan for a staff retreat at Hsing Lung Shan during the weekend immediately preceding the opening of term? It will probably be held from Friday evening, 7th September, until Monday morning, 10th September, and we hope that as many as possible will be able to join with us at that time.

#### OPENING OF HOSPITAL ANNEXE

Reference was made a few weeks ago to the project that was on foot to extend the accommodation and usefulness of the hospital, by fitting up some rooms in the small courtyard immediately north of the In-Patient Department, for the accommodation of semi-convalescent patients or those awaiting admission to the wards.

This has now been accomplished and the rooms are already much in demand. They look very clean and comfortable, and are entirely under the control of the hospital and nursing staff. The patients who will be accommodated there offer a unique opportunity for evangelistic work, and Mr. Pailing will be only too glad to hear of any voluntary workers who can assist in this way, in addition to the ladies who are regularly visiting the hospital wards.

#### CROWDS AT THE INSTITUTE

Readers of the Bulletin will be interested to learn of the remarkable number of visitors who have passed through the Institute during this past month. No less than 112,604 passed through the ordinary turnstile, whilst a further 6,886 attended the Sunday services, making in all a total of 119,490, or an average of practically 4000 per day. No less than 263 addresses and lectures were delivered during the month. May gives promise of even greater records, for the first two days each saw over 6000 visitors. It is probable that this rush will continue at least until May 13, the date of the great Annual Fair. Mr. Payne is arranging to pass the crowds through in batches, thus having an opportunity to address each batch as it waits its turn in the large Lecture Hall. In this way 20 addresses were given on one single day this week to over 6000 listeners. An urgent appeal is issued to all who are prepared to help in this unique opportunity, by giving a 15 minutes address. Arrangements can be made for such addresses any time during the next 10 days between 8 a.m. and 6 p.m.

#### MOTHERS' CLUB

The Secretary of the Mothers' Club asks us to announce that the meeting on Monday next will take the form of the Annual Meeting for the year. There will be reports of Committees, and election of Officers for 1923-4, to be followed by a Sale of Mis-Fits. We are not entirely clear whether the latter refers only to articles of clothing, or to domestic pets, administrative offers, housing committees, etc. etc.! A special Tea will be given on the Tennis-Courts at 4.45 p.m. to which all members of the Community, male and female, are cordially invited.

#### LIBRARY

The following books have been received at the library:-

Chaefer -- Satan  
 Bounds -- Satan: Personality, Power, Overthrow  
 Jennings-- Satan: His Person, Work, Place and Destiny  
 The Art of Dispensing  
 Porter and Turner -- Diseases of the Throat, Nose & Ear  
 Progressive Medicine -- March, 1923.

#### VISIT TO SHANGHAI

The President expects to be leaving Tsinan on Friday evening, 4th May, in order to attend the meetings of the National Christian Council, China Christian Educational Association, and Association of Christian Colleges. He hopes to be returning on Saturday, 19th May. During his absence Mr. MacRae will take charge of the President's Office.

.....

DR. HAN CHUNG HSIN.

The latest news from England tells us that Dr. Han was expecting to leave there at the end of April in order to take up the Fellowship which had been granted him by the International Health Board. By this time, therefore, he is probably in America, though we have not yet learnt where he will be making his headquarters. He expects to remain there about 4 months, studying Public Health Administration, Industrial Hygiene, etc., and should be back with us in Tsinan during the coming autumn. It will be a very great pleasure to welcome him here again.

REVISED HOUSING ARRANGEMENTS

The Conference of the Foreign Staff, which was held last Tuesday, produced a number of interesting and varied opinions on the problem of house assignment! So long as there is a shortage of foreign houses that problem will always be with us, but while it can be met in the spirit of good-will and friendship that was shewn last Tuesday, we certainly need not be scared of it. In the end the meeting referred the question of the new assignments back to the Housing Committee, whose recommendations are as follows:-

The 2 small A.P.M. houses to be erected this year to be assigned to Dr. & Mrs. Li Tien-lu, and Mrs. Chalfant.

The house previously occupied by Mr. Burt to be assigned to Mr. & Mrs. McHardy

The house	previously	occupied	by	Dr. McClure	to	Dr. & Mrs. Heimburger
"	"	"	"	"	"	Mr. Payne to Dr. & Mrs. Maitland.
"	"	"	"	"	"	Mr. McHardy" Mr. & Mrs. Pailing
"	"	"	"	"	"	Mr. Ch'eng " Mr. & Mrs. Ozorio

Accommodation for Mr. & Mrs. Harold Smith will be found in Mr. MacRae's house, which will be assigned to them during his furlough.

It is further proposed that Mr. & Mrs. Garside should spend the remainder of this year at Weihsien, to which they have been invited by the Weihsien Station. This will give them an opportunity of getting into touch with the splendid system of schools carried out in that district before commencing their teacher-training work. In that case they would return to Tsinan next January, and would occupy the house then vacated by Dr. & Mrs. Heeren.

Accommodation for Dr. & Mrs D. J. Eyans will be available in the house vacated by Mr. & Mrs Harmon at the conclusion of their period in the Language School, unless it is decided to recommend that they should first spend a few months at one of the country stations, as Dr. & Mrs Maitland are now doing.

THE HOSPITAL CAMPAIGN FOR SUBSCRIPTIONS

The financial campaign for the Hospital which has been made during the last few months, commencing with the special effort of last summer, has now been completed and the books audited, shewing total receipts amounting to \$3,581.61. Dr. Stearns and Mr. Ch'eng are to be congratulated on this excellent result of their strenuous efforts, and our special thanks are due to Mrs Li for the large and generous part which she took in making this campaign so successful.

DR. HAN CHUNG HSIN.

NEWS ITEMSVISITORS

The weeks never pass now without the arrival of some distinguished visitor, and during the past few days we have had the pleasure of a most interesting visit from Dr. Van Hoosen of Chicago.

Dr. Van Hoosen is one of the leading Gynaecologists in America, and her advice and help in our Medical School and Hospital have been greatly valued. She is keenly interested in women's medical education, and the transfer of the Peking Women's Medical College to Tsinan has her fullest approval.

During the coming week-end we are looking forward to the visit of Prof. R. D. Wilson, D. D., a well-known Semitic Scholar and professor of Hebrew in Princeton Theological Seminary. We are hoping that Dr. Wilson may be able to address both the University service and also the English service on Sunday, in addition to meeting our Theological Students.

Women's Medical School

The long waited-for details with reference to the financial position of the Women's Medical School have at last come to hand. Apparently the School did not benefit as fully from the Joint Women's College Drive as was confidently expected, but will probably receive Gold \$35,000 from that source. A similar sum is promised from the Sage Legacy (Presbyterian Board) whilst the Methodist Women's Board have guaranteed \$25,000 in 1924. If these sums are all forthcoming, it probably means that with money already in hand there will be a little over Gold \$100,000 available by next year, including the sum that is being expended on the Women's Dormitory Unit and Staff Residence. This sum is still considerably short of the amount needed for the erection of the Women's Hospital etc., but it is hoped that by next year the amount required may be secured from other sources.

Meanwhile revised plans have been drawn up by the Staff of the Women's Medical College for the Dormitory block, which will probably be started within the next month. One residence will also be erected at the same time, whilst a suite of rooms for a foreign member of staff will be reserved in the Dormitory Building itself.

In connection with the transfer of the Women's Medical College it is most gratifying to hear the encouraging news which reaches us from New York with reference to Dr. Leonard's health. She is fully hoping to be well enough to return in the Summer, and we trust it may be possible for her to take up her residence in Tsinan in the early autumn, when we expect the first class of women medical students will be arriving. The N. American Joint Board at their recent meeting have endorsed our proposal to take in women pre-medical students this autumn, and these will also probably be living with the women medical fresh-men.

WOMEN'S COMMITTEES

In accordance with the recommendation of the Joint Conference, held some months ago, between our Medical School and the Women's Medical College, a Women's Committee has now been formed in China consisting of representatives of the co-operating Women's

Boards, and some co-opted members. It is hoped that all societies that will share in the training of women students in the University will eventually have their representatives upon this Committee, which will act as the advisory body in matters affecting women students, and will also be entitled to appoint three members of the Field Board. We have just received news of the formation of a similar Committee in New York, consisting of:-

Methodist Episcopal:- Mrs W. F. McDowell, Mrs. J. M. Avann  
Mrs W. L. Haven, Miss Elizabeth R.  
Bender

Presbyterian:- Miss Margaret E. Hodge, Mrs. O. R.  
Williamson, Mrs. Chas. K. Roys, Miss Lucy  
Lepper.

#### CO-OPERATION OF A. B. C. F. M.

Ever since the news reached Tsinan that the Grinnell College was finding it necessary to withdraw its support from Cheeloo in order to concentrate upon the work at Tehchow, there has been a considerable feeling of anxiety as to the position of Mr. & Mrs. Cady. It is with a deep feeling of relief and gratitude that we have just learnt that the A. B. C. F. M., have assumed responsibility for their return to Tsinan, and for the financial contribution to the University recently borne by Grinnell C College. Although the Board has so far only taken action for the ensuing 12 months, we earnestly hope that at the conclusion of that time they may see their way to make their co-operation permanent.

Mr. & Mrs. Cady are hoping to sail from Vancouver on July 26, together with Mrs. Harkness and her family. They will be warmly welcomed when they come amongst us once more.

#### ANNUAL MEETING OF N. AMERICAN JOINT BOARD

The Minutes of the Annual Meeting of the N. American Joint Board, held on April 10th, have just come to hand, and reveal the fact that in addition to the ordinary members of the Board, the meeting was also attended by Mr. F. H. Hawkins and Dr. Cochran of the British Joint Board, Mr. Roger S. Greene of the C. M. B., Mrs. Roys, Miss Bender and Miss Lepper, representing the Peking Women's Medical School, Dr. C. Y. Cheng of our own Field Board, and Dr. P. S. Evans, Rev. L. V. Cady and Mr. H. Smith of our staff.

The following is a brief summary of the general actions taken at the meeting:-

- (1) A recommendation that a Charter for our University be sought from the Canadian Government, instead of from the Regents of New York.
- (2) An alteration in the constitution of the N. American Joint Boards by which membership on that Board should depend in future upon the number of units of co-operation assumed by the various co-operating Mission Boards.
- (3) The admission of women students to pre-medical courses was approved, but "the Board does not yet feel able to undertake the responsibilities involved in educating women in other departments than Medicine".

- (4) The needs of the Middle School were discussed, but no action was taken looking towards the securing of the sum needed for the erection of the necessary dormitories, etc.
- (5) The Board deprecated any attempt to develop post-graduate courses in the Theology on the ground that provision for such courses should be obtainable at Peking and Nanking.
- (6) The Board had a full discussion of possible uses of the Boxer indemnity Fund, but no definite action was taken.

#### CHEELOO ATHLETIC SUCCESSES

Mention was made a fortnight ago of the fine doings of our Cheeloo representatives at the N. China Athletic Meet. Since then still further success has attended our men, for at the All-China Meet held in Shanghai, Chang Chi Cheng secured 3rd place both in the mile and 5-mile, whilst Lin Ting Shui was first in the Hop-skip-and-jump. Both of these students have now gone on to Japan with the Chinese Athletic team, in order to represent China in the Far Eastern Olympic at Osaka. Considering that this is the first time that Cheeloo has taken part in these big Inter-collegiate Athletic Meets, we all have good reason to be proud of our success. Our special congratulations are due to Mr. Li Wen-chang, and to those who have assisted in the training of these men. Next year we shall hope to do even better!

#### NATIONAL CHRISTIAN COUNCIL

The first Annual Meeting of the National Christian Council, which was held in Shanghai from May 10-16, was of more than ordinary importance. Ever since the Council was formed a year ago, its development has been anxiously watched by all friends of China, and the question has been asked as to whether the Council would ever function as the real co-ordinating agency between the Churches and the Missions. If we may judge by the splendid spirit of fellowship and co-operation which was manifested during the recent meetings, or by the active and influential share which the Chinese delegates took in the discussions, we certainly have good reason for hopefulness. Although it is quite true that the Chinese Church as a whole has not yet learnt to understand what the National Christian Council is, nor to appreciate the intimate relationship which should exist between the Churches and the Council, those who were present at the Annual Meeting cannot fail to carry back to their various districts a message of inspiration and hope, and there is every reason to believe that the work of the Council will become increasingly appreciated by all the various Christian forces at work in China. Dr. David Yui was in the Chair throughout our sessions, and kept splendid control of the meetings from first to last. The following were the main items in the programme:-

1. A long and careful discussion as to the Functions and Sphere of National Christian Council, which were defined as including the following:-
  - a. A means for the deepening of spiritual fellowship between all engaged in Christian work in China.
  - b. A central bureau of information
  - c. ~~A base for progressive research, and a clearing house of new ideas.~~
  - d. ~~A means for helping forward the promotion of the indigenous church of China.~~

- c. c. A base for progressive research, and a clearing house for new ideas.
- d. A means for helping forward the promotion of the indigenous Church of China.
- e. An agency for expressing a common Christian witness on all great public and moral questions upon which the Christian Church is united.

This statement of functions, together with suggestions as to the immediate task of the Council, is to be circulated amongst all the Churches of China within the next few months.

2. A discussion as to better methods for increasing the evangelistic efficiency of all branches of work.
3. The building up of the rural Church as an essential element in the indigenous Christian Church of China.
4. The problems of the City Church
5. The contribution of the Chinese Christian Church to the Church Universal
6. The Church in relation to industry and moral questions.
7. Education in relation to the programme of Christianity.

As a result of the meetings it has been decided that the secretaries of the Council should spend the greater part of the ensuing year in the Field, in an attempt to get into close touch with the various Churches, particularly in country districts, in order to understand their problems and to receive suggestions as to better means by which they can be served. One secretary will probably visit West China, whilst another will be specially set apart for rural itineration.

In addition to the above, four standing committees have been set up, as follows:-

- (1) A Committee on Retreats and Evangelistic Work, the object of which will be to arrange Conferences and Retreats in various centres for the study of various problems affecting evangelism.
- (2) A Committee on rural problems of the Country Church, including such questions as agricultural education, the rural Church as a community centre, the Christian primary School, etc.
- (3) A Committee on Industrial and Moral Problems.
- (4) A Committee on International Relations.

The other Committees which formerly worked under the China Continuation Committee will probably be linked on to existing organizations, or else be developed as affiliated bodies.

The officers of the Council for the ensuing year are as follows:-

Chairman..... Dr. David Yui  
 Vice Chairmen..... Rev: Z. T. Kaung and Dr. H. Balme  
 Secretaries..... Miss Y. J. Fan, Rev: K. T. Chung, Bishop  
 Roots Dr. H. T. Hodgkin  
 Honorary Secretaries..Dr. C.Y. Cheng and Rev:E.C. Lobenstine.

DR. HAN ADDS MORE LETTERS TO HIS NAME.

Once again we have to record our warm congratulations to Dr. C.H. Han for a further success in his post-graduate course. Not only has he passed the examination of the London School of Tropical Medicine, missing distinction by only two marks, but he was also one of the 10 (out of 28) who successfully secured the Diploma of Tropical Medicine and Hygiene of the Royal College of Physicians of England. Considering the extent to which Dr. Han has been handicapped by his limitations in the English language, his success during these last two years has been a notable one, and the whole staff unites in offering their congratulations. Dr. Han is at present in America, having received a fellowship from the International Health Board, but is hoping to be with us again in time for the autumn term, when we shall be having a great time of welcome to numerous members of the staff.

MESSAGE FROM MRS BURT

The following kind message has just been received in a letter from Mrs Burt.

"Dear Dr. Balme,

I was deeply touched by the cable message forwarded to me from the B. M. S., London, in which you expressed the sincere and profound sympathy of the University staff and yourself with us in our overwhelming sorrow. Will you please thank the staff or me, and say that I value greatly their expressions of sympathy. #

STAFF NEWS

Two letters have come to hand from Dr. Neal during this past week. He wrote in very good spirits, in spite of the fact that, as he says, Philadelphia does not provide half as much sunshine as the good old Shantung climate, for which he and Mrs Neal have such a tender spot. He had recently seen Dr. Wheeler, and was hoping to see other members of the staff.

A very cheerful letter has just come to hand from Dr. Braafladt, announcing his delight at being able to return to Tsinan. That delight is shared by everyone, and we cannot refrain from expressing our special sense of gratitude to Mrs. Harkness whose most generous offer to help look after Dr. Braafladt's children has been the deciding factor in enabling him to return among us. Dr. Braafladt is hoping to sail for China in September.

Dr. Ellis writes from England that he has now received in all the sum of £2,500 towards the equipment of the X-ray and ~~Electro-Therapeutic Department, and that the Women's Auxiliary of~~

Electro-Therapeutic Department, and that the Women's Auxiliary of the Wesleyan Methodist Missionary Society have also undertaken to find the support of a specially trained masseuse for work in electro-therapeutics. Dr. Ellis has been busily engaged on promotion work, and has been addressing meetings in various parts of the country, but at the time of writing was hoping to be able to settle down to some post-graduate study. He does not expect to be able to leave England until January.

#### CHILDREN'S CORNER

A cablegram from England, dated May 19th, announces the safe arrival of Mr. George and David Balme in England, after their long and interesting tour through the States.

Amongst the new patients admitted to University Hospital during the past week has been Burgess Boone, who had the misfortune to break both arms as the result of a fall from a verandah. Our sympathy goes out to Mr. & Mrs. Boone in their anxiety. Burgess is making an excellent recovery.

Graduation of Theological Students

DEDICATION OF UNIVERSITY CHAPEL

The arrangements for the opening of our new Chapel are now almost completed, and we hope that everything will be in readiness for 8th June. Invitations have been sent out to the various mission stations and Churches, and our own Alumni have been specially asked to send delegates from the various branch centres. We are hoping that the Chapel will be well filled, and that it will be a service which we shall all be able to look back upon with deep gratitude. The chief arrangements that have been made are as follows:-

(1) Academic Procession, The new Choir, the Graduating Students and all members of staff, are asked to assemble at McCormick Hall not later than 9.30 a.m., in order to put on their academic dress and prepare for the procession to the Church. The procession will be led by the Choir, and will be immediately followed by the graduating students, the faculties and administrative officers bringing up the rear. Mr. Lair is acting as marshal for the occasion, and it is hoped that the procession will be ready to leave McCormick Hall shortly before 10 o'clock. They will proceed up the central road of the campus to the Church which, however, they will enter by the east door, the choir will start singing the first hymn, the whole congregation being asked to stand and join in the singing. We shall then march slowly into the Church, the Choir and officers proceeding to their seats in the chancel, whilst the rest of the faculty will sit in the seats specially assigned to them in the body of the Church. After the benediction at the close of the service, the Choir will be the first to leave the Church, to be followed immediately by the graduates and faculty, as on entering. There will be no official procession from the Church back to McCormick Hall.

(2) Dress. The members of the choir, both Chinese and foreign, are asked to dress wholly in white. The remainder of the staff are also asked to wear light clothes underneath their academic costumes. Academic hats will be worn on entering the Church until the conclusion of the processional hymn. This is to be followed by a time of silent prayer when hats will be removed, and not again replaced until the conclusion of the service.

(3) Order of Service, Printed orders of service, including extracts from Scripture, special prayers, and hymns that are to be used, will be ready before the commencement of the service, and will be in everyone's hands. In order to avoid confusion, and to help towards the reverence of our gathering, it might be as well to give early information with regard to these matters. The following is the order that will be observed:-

Processional hymn	-----	congregation	standing
Silent prayer	-----	"	kneeling
Reading of Scripture sentences	---	"	sitting
Special words of salutation	-----	"	standing
Te Deum, sung by the choir	-----	"	sitting
Responsive reading	-----	"	"
Words of Consecration	-----	"	"
Prayer	-----	"	kneeling
Anthem by the Choir	-----	"	sitting
Address by Dr. Chang Po-ling	----	"	"
Hymn	-----	"	standing
Presentation of Diplomas	-----		
Special Prayer of Dedication to be offered by Rev. Ting Li Mei	-----	"	kneeling
Hymn	-----	"	standing
Benediction	-----	"	"

It will be noticed that during this service the practice of kneeling in prayer will be observed. We hope that ~~this will train our students~~ this will meet with the approval of the whole staff, and may be a means of training our student body in habits of reverent worship, and silent meditation. Our new Church has a great opportunity in this direction of which we need to avail ourselves to the full. With its fine Gothic architecture and appropriate furnishings it ought to represent to all of us a true embodiment of the House of God. We want from the outset to make it a place of quiet reverence, and to instill into our students habits of silence and of intercession. It is hoped that arrangements can be made by which special ushers will be in charge during the assembly of the congregation, both at the Opening and at our future services, so as to prevent any tendency on the part of the students to engage in conversation etc. before the beginning of service.

### AN REVOIR TO MEMBERS OF STAFF

During the week that has just passed our friends, Rev. E.W. Burt and Mrs. MacRae and family have left for home, carrying with them the affectionate good wishes of everyone connected with the University. An informal farewell party was held last Wednesday in the home of Mr. & Mrs. Lair, when the opportunity was taken of meeting with our friends before they left us. The following kind letter has been received from Mr. Burt for publication in the Bulletin:-

May 30th, 1923.

"To the Editor of Bulletin, S. C. U.

Dear Mr. Editor,

In taking farewell of the University, I wish to place on record my grateful appreciation of the delicate consideration and sympathy I have received from all my colleagues during a time of deep sorrow.

As senior member of the staff and the only man who has been in University since its beginning in 1904, I wish further to place on record my conviction that the infant institution has before it a splendid opportunity of service. I regret sincerely to be leaving at such a time - just on the eve of the Dedication of the University Chapel which so beautifully crowns the Campus - and also on the eve of important developments, particularly the coming of the Women, and the founding of the Teachers' training Department. I shall do my utmost to promote S.C.U. interests at home; and finally I would urge every one of my colleagues to maintain the present spirit of harmony and good will and loyally support the President in the heavy burdens he has been called to bear.

I was pleasantly surprised to receive a very handsome present from many of our alumni in different parts of China and through the Bulletin desire to convey my thanks to them all.

If God opens the way I hope to return in due course to the land of my adoption, and to the people I love.

Affectionately yours,

(signed) ERNEST W. BURT."

Although it is impossible for Mr. Burt to give any guarantee of his future movements, we rejoice to know that he still entertains the hope of returning to Tsinan, together with Mrs. Burt. The long service which they have rendered to the University, both in the Arts and Theological Schools, ever since the union was first brought into existence in 1904, will always be remembered with deep appreciation and gratitude, both by those who have had the privilege of being associated with them as colleagues, and by the many students upon whose lives Mr. & Mrs. Burt have left a permanent influence.

### OPENING OF SUMMER SCHOOL

Although the Joint Summer School between Cheeloo and Peking does not open for another month, the special classes for medical graduates which have been arranged by the Faculty of the School of Medicine, and which really form a part of our Summer School programme, have already commenced. It is very gratifying to be able to record that 12 former graduates of Tsinan, Peking, and Hankow, and ranking, have entered their names for this special course, coming to us from places as far distant as Shanghaikuan, Peking and Hankow. A full programme of courses and laboratory work has been arranged for them, in which almost every member of the staff of the Medical School is taking a share. There is every prospect that this first experiment

in post-graduate classes will be abundantly successful. Judging by the numerous enquiries with reference to the General Summer School Programme, it certainly appears safe to prophecy that that also will more than fulfil our expectations. It is very clear that the Summer School provide a long-felt want, and one of the means by which the teaching power of the University can be made available for a wide community.

#### A GREAT OPPORTUNITY

A very interesting request has been received from two Chinese gentlemen who are editing local newspapers, and who paid a visit to the University last week on purpose to ask for a series of articles on Christianity for publication in their papers. One of the two was a patient in our hospital wards three or four years ago, suffering from an acute attack of appendicitis, and it was through that time that his interest in Christianity was first aroused. His friendship for the hospital has never waned since then and he and his friend are now offering us a unique opportunity for reaching a large audience with a series of articles illustrating the programme of Christianity.

#### SPECIAL COURSES IN LAW AND SOCIOLOGY

We have been asked to draw attention to the fact that the Comparative Law School of China, which is a department of Soochow University, situated in Shanghai, is now in a position to offer a full three-year course to all students who have graduated from Junior College, and are anxious to enter upon legal studies. At Yenching University the Department of Sociology is also offering a special course of practical work for full college graduates, commencing next autumn. As the training is to be largely practical, and to consist of special field work in hospital social service, public health, and various forms of social welfare, the department find it necessary to limit the entering class of september next to 8 students

#### AUGUSTINE LIBRARY

Our grateful thanks are due to Mr. Burt for his kind gift of the following books for use in the Library:-

Price - Q. E. D. or New light on the Doctrin of Creation  
 Truett-- A Quest for Souls  
 Harper -- The Year of our Lord  
 Efficient Church Tinance  
 Gilman -- Women and Economics  
 Benson -- Crescent and Iron Cross  
 Paley -- Evidences of Christianity  
 Mathews -- Christ; and the World at War  
 The Unveiling of Jesus Christ, or The Great and Perfect

Essays by John Foster  
 Fitch -- Lectures on Teaching  
 Stuart -- The Essentials of New Testament Creek in Chinese  
 Burtin -- The Records and Letters of the Apostolic Age  
 Bosworth -- Studies in the Acts and the Epistles  
 Wayland -- The Elements of Moral Science  
 Paley and Birks -- Horae Paulinae Et Apostolicae  
 Fielde -- Pagoda Shadows  
 Oldham -- The Resurrection of the Dead  
 Milligan -- The World and The Gospel  
 Lilley -- The Principles of Protestantism  
 Nelson's History of the War (12 volumes)  
 Chu Hsi - The Chu Tsze  
 Henry -- The Exposition of the Old and the New Testament (6 Vol)  
 In addition to the above, the following books have also been received during the past week in the Medical Library:-

Quick Reference Book, Medicine and Surgery  
 Emerson -- Essentials of Medicine  
 Cooke -- A Nurse's Handbook of Obstetrics.  
 Ashurst -- Surgery, Principles and Practice.  
 Simon -- Clinical Diagnosis  
 Stimson -- Fractures and Dislocations  
 Hare -- Practical Therapeutics  
 International Clinics. Vol. 1.

#### RECENT PUBLICATIONS.

We have just received from England a few copies of the interesting pamphlets which the British Joint Board has issued for publicity purposes. They include the following:-

1. An attractive booklet of pictures of the University on somewhat similar lines to those previously adopted for the large Brochures, but on a less ambitious scale.
2. A very interesting leaflet by Mr. Drake, entitled "Shantung Christian University and its Place in Chinese Life"
3. The Annual Report for last year of the Work of the Extension Dept.

We have also received from Dr. P.S. Evans a copy of a very useful little folder which he has had printed in America with the object of interesting Yale alumni and others in the work of the School of Medicine.

The last issue of the Chinese Journal of Science and Arts contains another interesting article from the pen of Mr. A. P. Jacot, entitled: "Shantung Herpetology" (The Editor of the Bulletin earnestly hopes that all readers of the Bulletin understand what this means. He does not!)

#### SCIENCE LETTERS FOR MIDDLE SCHOOL TEACHERS

It may not be generally known that during this last year the chemistry department has been issuing a Science Letter each term for the sake particularly of old graduates and others who are now employed as science teachers in Middle Schools. Judging by the enquiries and applications for these letters addressed to the Registrar's Office, they are filling a real need and are greatly appreciated. Five hundred copies of the second letter which was printed both in English and Chinese have been circulated.

#### NOTICE RE SANITATION.

We would like, to draw the attention of the residents in the Wei-tzu-wai foreign houses to a practice which seems to be common among some of the servants, of dumping rubbish on the ground immediately north of the first row of houses. We are endeavouring gradually to get the whole campus cleaned up and put in a sanitary condition, and would be grateful if the heads of households would kindly help us by forbidding their servants to follow this practice.

Leader:- Miss Swann

COMING EVENTES

June 29. Summer School  
September 7-10 Staff Retreat  
" 13 Registration of Students  
" 14 New Term opens.

NEWS ITEMS

PUBLICATION OF BULLETIN

This will be the last regular appearance of the Cheeloo Weekly Bulletin for the present, but it is possible that one or two occasional numbers may be issued during the vacation, in the event of there being important or interesting information to publish. The producing of this little paper has been quite an experiment, but it appears to have justified itself, and we are hoping that it may be possible to continue it during the coming Academic Year.

### Meeting of Field Board.

The Field Board of Managers opened their Annual Meeting on Wednesday afternoon last at 2.30. The following members were present:- Dr. Chang Po-ling, Rev: P.R. Abbott, Dr. H. Balme, Dr. Crawford, Rev: A.J. Garnier, Rev: A.D. Heininger, Mr. D.D. Lien, Rev: R.A. Mitchell, Rev: L.T.N. Thompson, Rev: C.G. Sparham and Rev: H.R. Williamson.

Amongst the more important matters of consideration at this meeting have been the following:-

- (1) University Charter and Incorporation of the Institution.
- (2) Policy of the School of Arts and Science
- (3) Organization of the University Middle School.
- (4) The institution of the new 6-6-4 System.
- (5) The return of the Boxer Indemnity Funds to China.
- (6) The position of Alumni of the Tengchow, Weihsien and Tsingchowful Colleges.

### OPENING OF UNIVERSITY CHAPEL

The Bulletin has to go to the press too early to include any account of the opening of the University Chapel, but it is hoped to make some reference to this important event in the next issue of Occasional Notes. Great interest has been taken in the Chapel, and we believe that our Opening Service will be a time of great helpfulness and blessing, and one that will long be remembered among us.

### UNITED COMMUNION SERVICE

Our first Sunday Service in our new Chapel is to take the form of a United Communion Service, to which all members of the staff and of the student body are warmly invited. Mr. MacRae will conduct the service for us, and it should prove to be a special opportunity for drawing us together before we separate for the summer vacation, and of teaching us afresh something of what true communion really means. We hope that all members of the University staff, and all Christian students will make a special effort to attend this gathering.

### GRADUATION OF THEOLOGICAL STUDENTS

Readers of the Bulletin may be interested to know who are the five Theological students who have just graduated, and of the work which they are now undertaking.

Wang Hsi-Ch'ang, of the American Board Mission Tehchow, Shantung, will take the position of teacher of Religious Education in the Middle School connected with his own Mission.

Wang Ling-ts'ai, of the English Baptist Mission, Tsingchowfu, Shantung, will remain in the University for a half-year of post-graduate work.

Chi Hwa-yuan, of Yunch'eng, Shensi - Swedish Mission - will probably spend a year in Honan with the Canadian Presbyterian Mission, and then return to his own Mission.

Li T'ing Hsiu, of the English Baptist Mission, Chowts'un, will take up the work of hospital evangelist with the Church of the Brethren Mission in Ping-ting-hsien, Shansi.

Yue Yu-ch'ao, of the American Southern Baptist Mission, Kaifeng, will return to his own Mission for evangelistic work.

#### STAFF RETREAT

May we again remind members of the staff that we are hoping to have a special Retreat at Hsing Lung Shan before the commencement of next term. Full details will be circulated during the vacation, but the general proposal is that we should go up the mountain on Friday afternoon, 7th September, and give the whole of Saturday and Sunday to a time of quiet conference and prayer, returning to the City early on Monday morning, 9th September.

#### WELCOME TO MISS LUELLA MENER, LITT.D.

During the past week the gratifying news has reached us that the Women's Board of Missions of the Interior, Chicago, has generously agreed to the proposal that Miss L. Miner, Litt.D. formerly Dean of Yenching Women's College, be transferred to Tsinan for the next few years, in order to help in the organization and care of our women students, and to assist in the teaching of Religious Education in the University. Miss Miner's long experience in Christian Educational work and in the spiritual oversight of women and girl students, has fitted her to make a contribution of peculiar value, and the University is greatly to be congratulated on thus having the promise of her services. We deeply appreciate Miss Miner's willingness to pull up her roots from the City in which she has so long laboured, and can promise her the warmest of welcomes when she comes to take up her residence among us.

#### ANOTHER STUDENT TO GO TO ENGLAND

A cablegram has been received from the Rev. C.E. Wilson, Foreign Secretary of the English Baptist Mission, authorizing the sending of two students of to Great Britain for two years post-graduate study. One of these is our recent theological graduate, Mr. Li Yung-chuan, who is so well-known and popular among everybody. Mr. Li and Mr. Wang Ping-heng of Tsingchowfu will probably be leaving for England within the next month. We extend to them both our very hearty congratulations and good wishes.

#### DR. LI TIEN-LU.

Recent news from Dr. Li Tien-lu brings the interesting information that he is hoping to come amongst us early in July, and that Mrs Li and her family will be following at the end of August, or the beginning of September. Dr. Li is hoping to spend some time in Tsinan during the vacation, so as to familiarize himself with the University, and particularly with the affairs of the School of Arts and Science.

#### MOVEMENTS OF STAFF

A recent letter from Dr. Wheeler tells us that he has taken his passage on P. & O. S.S. "Kalvan" due to leave London on August 17, and to reach Shanghai on September 26. He is bringing Bobbie with him at that time. Mrs Wheeler and the other children will not be sailing from England until October 16.

Dr. Han Chung-Hsien writes from America, where he is spending the next four months under the auspices of the International Health Board of the Rockefeller Foundation. He also is hoping to reach Tsinan in September.

4-

Our friends Dr. & Mrs & Miss McClure will be leaving Tsinan on Tuesday morning next in order to take passage on the "Empress of Russia" sailing June 16. Mr. & Mrs F.H.B. Harmon and their family who leave on the same day, will be travelling across the Pacific by the same boat. We all wish them a very pleasant voyage and thoroughly good furlough.

UNIVERSITY ATHLETIC ASSOCIATION.

The Association is just completing a term's life in which it has realized the hopes of its friends, and given promise of still better things in the future. The formation of the Association at the beginning of the Spring Term is in itself a significant indication of the beginning of a genuine University corporate life. Five years ago the establishment of such an Association would have been impossible, but now the venture has become a practicable proposition. That the Association has at last come into being is due very largely to the work of Dr. Shields and Mr. Cassat. That the Association has had a prosperous term is in no small degree due to the Athletic Director, Mr. Li Wen-chang whose training of the men in field and track, has seen such happy results as the successes of Li T'ing Jwei, and Chang Chi Cheng, at Tientsin and Shanghai.

The Tennis Club is easily the most popular Club in the Association. It is already in the position which we hope the other Clubs will reach. It is the sport of many of all kinds of players, good and indifferent, sally forth to the courts and find real recreation there. In the case of the other Clubs, poor and indifferent players are reluctant to take part, preferring to stand around and watch the others. Signs, however, are not wanting to show that this is but a temporary phase. The registration of students in the various Clubs for next term is as follows:-  
Tennis 189; Basket-ball 43; Foot-ball 36; Base-ball 17;  
Gymnastics 45; Field and Track 53; Volley-ball 35.

According to the Constitution the various Clubs of the Association should have at the close of this term elected their respective vice-captains. Only the Tennis and Foot-ball Clubs have done this; the other Clubs twice being called to general meetings which failed to materialize. The students' lack of enthusiasm for representative institutions is fortunately no criterion of their sportsmanship.

The officers of the various Clubs for the Autumn Term are as follows:-

<u>Tennis</u>	Captain:-	Ch'en Kung -li
<u>Foot-ball</u>	"	Yiu Hsue-chih; Vice-Captain, Chang Hwei-chuan
<u>Basket-ball</u>	"	Keng Te-i
<u>Base-ball</u>	"	Chin Te-feng
<u>Gymnastics</u>	"	(not yet elected)
<u>Field &amp; Tract</u>	"	Chin Te-feng
<u>Volley-ball</u>	"	Kwan Lien-hsi.

The General Committee of the Association for the Autumn Term is as follows:-

Staff Members:-	Messrs. Shields, McHardy, Cady, Parker.
Student "	Messrs. Kao Kwang-ta, Li T'ing-Jwei, Wang Li-chien Ch'een Ching-shang
Ex-officio member:-	Mr. Li Wen-chang.

The Budget for the Autumn Term, as passed at the General Meeting of the Association last month, is as follows:-

In addition to the books mentioned in the previous paragraph Dr. Russell Watson has also kindly presented to the School of Medicine a very useful ophthalmic instrument which we have not previously possessed.

#### UNIVERSITY LECTURE COURSE

It has been decided that if our Publicity Budget will permit, a selection of the valuable Lectures delivered during our recent University Lecture Course should be printed for preservation in permanent form. It is a little difficult to make the necessary selection and it would be of great assistance to the Publicity Committee to get the opinion of members of staff. With this copy of the Bulletin, a separate paper is issued, giving the titles of the Lectures which have been given during the past year. We shall be grateful if members of staff would mark with the letter "A" the 4 lectures which, in their opinion, are best suited for permanent preservation, and with the letter "B" the next 2 lectures which they would place on the list in the event of our being able to print as many as 6. These papers should be returned to the President's Office not later than Tuesday Next.

CHEELoo BULLETIN

Ans'd \_\_\_\_\_

SUMMER VACATION NUMBERS

August, 1923.

Although the Cheeloo Bulletin has officially suspended publication until the commencement of term, there are so many interesting items of news to be reported to the staff that it seems worth while to issue an occasional number. It will probably be full of grammatical errors, typographical mistakes and other blemishes, but kindly-disposed readers will readily put those down to the super-heated atmosphere, and to that peculiar form of complex which results from feeling that it is barely decent to be working during the holiday season.

SUMMER SCHOOL.

The Joint Summer School conducted by Cheeloo and Yen-ching, with the cooperation of the Council on Health Education, has been a most splendid success, and it is a question whether any effort put forth by the University during recent years has been so much appreciated, or has made so great a contribution towards the constituency which we are trying to serve. All thanks are due to the worthy Director, Dr. Heeren, (who, it is credibly reported, took neither food nor sleep, during the first hectic days of registration) and to his Associates, Dr. Galt and Mr. G.D. Wang; to the hard-worked Faculty, who lost many good pounds weight during those perspiring weeks; and to Miss Dingman, Miss Zung, Professor Robertson, Professor Chase and the other visitors whose lectures added so greatly to the value of the School.

Now for a few statistics, for the sake of those who are interested in cold figures.

The total enrolment consisted of 263 students, (198 men and 65 women), divided as follows:

Cheeloo-Yenching School	173 men	48 women
Health Education School	25 men	17 women

Those attending the Cheeloo-Yenching School may be classified thus:

Provinces represented 9 -	Shantung	171	{ 131 men, 40 women }
	Chihli	25	
	Honan	11	
	Anhwei	7	
	Kiangsu	3	
	Fengtien	1	
	Shansi	1	
	Kwangtung	1	
	Szechuan	1	

Missions represented 11 -	A.P.M.	71	(50 men, 21 women)
	E.B.M.	30	(23 ... 7 ..)
	S.B.M.	25	(20 ... 5 ..)
	Congregational	22	(20 ... 2..)
	M.E.M.	16	(13 ... 3 ..)
	S.P.G.	11	(6..11. 5 ..)
	Swed, Bapt	5	( 2 ... 3 ..)
	Can. Pres.	4	( 4 ... 0 ..)
	Lutheran	3	( 3 ... 0 ..)
	So. Pres.	2	( 2 ... 0 ..)
	Y.M.C.A. & Y.W.C.A.	6	( 4 ... 2 ..)

Non-Christian students ... 28 (26 ... 2 .. )

Professions represented -	Teachers	156	(114... 42 ..)
	Pastors	12	( 12... 0 ..)
	Evangelists	18	( 13... 5 ..)
	Y.M.C.A. & Y.W.C.A. Secs.	7	( 4... 3 ..)
	Students	16	( 14... 2 ...)
	School Inspectors	5	( 5... 0 ...)
	Doctors	3	( 2... 1 ..)
	School Principals	2	( 2... 0 ..)
	Commercial	2	( 2... 0 ..)

The total Faculty consisted of 42, 35 being connected with the General School and 7 with that of the School of Health Education.

52 Courses were offered in all, inclusive of the 6 courses of the School of Health Education. In addition to these general courses, which covered wide range of subjects in Arts, Science and Theology, Lectures were given on such subjects as "The Western and Chinese Attitude towards War", "The Requisites of Leadership", "Problems of School Administration", "The Chemistry of Foods", "Personal Hygiene", "Heredity, Education and Eugenics", "Educational and Intelligence Measurements", "Problems of Rural Education" and "The teaching of Agriculture in Rural School."

Various excursions were made to local factories and other industrial plants, whilst Professor Robertson gave a most interesting exhibition of Wireless Telephony, illustrated by special apparatus.

All teachers speak most appreciatively of the excellent work done by the students, and of their serious attitude towards their studies. It was interesting to notice how quickly they found out when there was something specially good. Thus Miss Dingman, whose name was quite unfamiliar to most of them, had eight students only enrolled for her course on Industrialism; by the second day the number had increased to 25, and by the third day to over 50!

This first experiment of ours in coeducation was certainly a most encouraging one. Men and women students mixed in a most natural way in their classes, whilst the joint student choir of male and female voices added immensely to the singing in Chapel. It did one good to see those nicely dressed girls about the campus, and ought to prove a most augury for our new coeducational efforts next term.

The following kind letter has recently been received from Dr. W.W. Peter, Director has of the Council on Health Education:

"At the suggestion of Dr. Fred J. Wampler, and on behalf of the Executive Committed of the Council on Health Education, I have to thank you for the use of the University dormitories and athletic grounds by the students of the Summer School for Physical and Health Education, as well as for taking care of the

administrative work connected with the dining room and kitchen.

Of the three summer schools held this summer, the one at Tsinan was the largest and undoubtedly the most successful. In no small measure this was due to the assistance rendered by members of several departments of the University staff."

#### STAFF RETREAT AND CONFERENCE.

May we remind all members of Staff of our Retreat and Conference, the general programme for which will be as follows:

Friday evening,	Sept. 7th	Meet at Hsing Lung Shan.
Saturday,	Sept. 8th	General Conference.
Sunday,	Sept. 9th	Retreat and Devotional meetings.
Monday morning,	Sept. 10th	Return to Tsinan.

There are many very important matters for us to think and pray about this year, amongst which may be mentioned the following:

The development of a corporate Christian consciousness amongst our students.

The reasons for spiritual apathy, slackness and factional feeling in the Schools.

How can we, as staff members, associate ourselves more closely with the students in the preservation of devotional life, and in aggressive evangelistic effort both within and without the University?

How can the University better serve the community? Can we do more to get into close touch with the Chinese church, both in Tsinan and throughout our constituency? Can we better serve the Missions? Can we be of greater assistance spiritually to our graduates, especially to those who are in danger of dropping out of Christian service? Can we do more than we are at present doing for the evangelization of our city?

How can we more effectually deepen, and give better expression to, a sense of real Christian fellowship, - inter-racial, international, interdenominational? In particular, how can East and West draw more effectively together, in a spirit of mutual confidence and affection? What are the hindrances which tend to keep us apart?

If this Conference and Retreat are to mean all that we hope and believe they will, it is essential that as many of us as possible should make a point of being present, and of arranging to stay the whole time. At the very latest, all who attend should be on the mountain by Saturday morning. As arrangements for hospitality and catering must be made at once, it would be a great help if all would sign the accompanying slips, and return them without delay. The total expense of the Conference this year will be one dollar each.

Meantime, let us all be praying that it may be a most helpful and inspiring time for us all.

#### THE DEATH OF DR. MERWIN.

It was a great shock to the whole community last month, and one which brought with it a keen sense of loss, to learn of the death at Tsingtao of Dr. Caroline Merwin, whose splendid work in the East Suburb Women's Hospital has been the admiration of all of us for so many years. Dr. Merwin's career as a missionary physician has followed lines that have been quite unique, but it is doubtful whether any medical missionary in this city has ever been so beloved, or has entered so deeply into the lives and interests of the Chinese ladies. She had a remarkable genius for sympathy and for friendship, and no considerations of time or of trouble were ever allowed to

interfere with her care for those who wanted her. She was never in a hurry, and her patient, confident, affectionate manner would accomplish cures, and make lasting friendships, where the most rapid and brilliant diagnosis and treatment would signally have failed. Her memory will never be forgotten in Tsinan.

#### WOMEN'S DORMITORY UNIT.

Final plans for the new Women's Dormitory and Staff Residence have now been passed by the University Building Committee, contracts signed, and a start made with the building. The Dormitory is to be erected close to the new North-west wall of the campus, with its centre facing the new road which extends east and west in front of the Anglican Hostel. It will be a two-storey block, almost covering the four sides of a square, with a quad garden within. The centre wing (facing East) will contain Reception rooms, large Y.W.C.A. room, and Reading Room, and, on the second floor, four large common studies in which the women students can work during the evening. The north and south wings will contain bedroom accommodation for sixty students (two to each room), and also a commodious suite of rooms for three foreign or Chinese members of staff - this suite having its special entrance, and including office, sittingroom, dining room, bathroom and four bedrooms. The whole dormitory will be centrally heated and lighted with electricity, and there will be ample bathtubs and sanitary installations. On the fourth side of the square there will be a large diningroom, pantry and kitchen, connected with the corridor on the north wing. This diningroom etc will be only one storey, but is being built with sufficiently strong walls and foundations to allow of a second storey being added at any time, which could serve as an indoor gymnasium or sports room.

In addition to the Dormitory Unit, a separate residence is also being built close to it (at the west extremity of the field in front of the Anglican Hostel), which will provide accommodation for three further members of the women's staff.

The remainder of the north-western corner of the campus is being levelled off so as to provide tennis courts and other places of recreation for the women students, together with servants' quarters, laundry etc. This ground is sufficiently large to allow of an extension of the dormitories whenever the number of women students makes it necessary. This Women's Corner, whilst being of course part of the general campus, will also have its own separate entrance on the north.

But where did the money for all this come from, will naturally be asked. We owe it in the first place to a splendid Women's Committee which has recently been formed in New York, and which is looking after the interests of the Women's Medical College in most encouraging fashion; and secondly to the indefatigable efforts of Dr. Leonard and Dr. Cochran, whose presence in the United States during these past few months has been of the greatest value. Within the last month, the Women's Committee has generously appropriated a further Gold \$12,500 (in addition to the Gold \$32,500 previously granted) for the Dormitory Unit and residence. Apart from these sums, the Women's Committee will probably have a further G.\$50,000 for \$60,000 by next January, towards the Women's Hospital; and the China Medical Board are sympathetically considering an appeal for the balance of the amount that will be needed for next year's building programme, which it is hoped may include the extension of the Out-patient Department, building of Women's Hospital, and erection of a Pavilion for Private Patients. Meanwhile, the sum necessary for the extra running expenses of the Women's Unit has also been guaranteed for the coming year, and there is good reason to hope that the increased appropriation required on that account in 1924-5 will also be forthcoming. We certainly have immense cause for gratitude and courage.

X-RAY DEPARTMENT.

Interesting news has reached us from Dr. Ellis, who has now secured the sum needed for the proper equipment of the X-Ray and Electro-Therapeutic Department, and has also received a kind undertaking from the Women's Auxiliary of the Wesleyan Missionary Society to support a trained nurse-masseuse to assist him in his work. Miss Gladys V.L. Nunn has already been selected for this post and expects to sail for China this coming autumn. It will be a great pleasure to welcome her to our staff.

Meanwhile Dr. Ellis was expecting to attend an important conference in Switzerland during August, organized by Sir Henry Tu at which he was to be given the opportunity of pressing the claims of Cheeloo. Immediately after the conference he was planning to leave for America, to attend the Roentgenological Conference at Chicago and to see something of X-Ray work in the States. Dr. Ellis is hoping to be back with us in December, but we regret to learn that Mrs. Ellis will not be able to accompany him at present. A cablegram from England brings the good news that the Wesleyan Society has made an appropriation for the building of a house for Dr. & Mrs. Ellis, which will be commenced as soon as he is back.

STAFF MOVEMENTS.

It was with a very keen sense of disappointment and regret that we saw Mr. & Mrs. Cassat leave us at the beginning of August. Although we cannot believe that it will be more than a temporary absence, for the purpose of recuperating Mr. Cassat's health, his loss will be keenly felt in the University, where he has proved such an able and indefatigable worker. Our best wishes go with them for a complete recovery and speedy return.

It is a great joy to welcome Mr. & Mrs. Cady and their children, and Mrs. Harkness and her two boys, back to Tsinan, and before long we also hope to welcome their fellow-passenger, Mr. Elliot Parker, who will be helping us in the teaching of English in the Arts School for the next year.

Dr. Li Tier-lu was with us for a fortnight's valuable work during July, and is hoping to bring Mrs. Li and the family, and to settle in his new home, at the end of August.

Our new Assistant Librarian, Mr. John Kuei, commenced his work on August 1st, and we are delighted to see him amongst us. He brings a valuable experience of Library technique acquired at Boone University and in the P.U.M.C. Library.

Dr. C.H. Han writes cheerily from America, where he is having a most interesting and varied experience, studying Anti-hookworm and Anti-malarial campaigns, Tuberculosis hospitals, Industrial Hygiene, etc etc. He expects to sail in the "Taiyo Maru" and to be back with us by the middle of September.

We are delighted to hear that Dr. P.C. Hou has made a good recovery at Kuling, and will probably be well enough to rejoin the Pathological Department in September, where Dr. Braafladt hopes to join him in October.

Dr. & Mrs. P.S. Evans are now on their way across the Pacific, on the "President Pierce" (due in Shanghai) whilst Dr. & Mrs. Cochran and Sammie will be sailing from Vancouver on August 23rd in the "Empress of Canada" (due in Shanghai Sept. 7th), and Dr. Wheeler and Robbie leave London in the P. & O. "Kalyan" on August 17th, due Shanghai September 26th. We are also hoping to have Dr. & Mrs. Maitland in residence in Tsinan next month, on their return from Hwaiyuan and Kuling.

Good news have reached us of the safe arrival of Mrs. MacRae and her family in Vancouver; of Mr. & Mrs. and Miss Whitewright in England; and of Mr. Burt. Mr. Whitewright was leaving for Stockholm as a delegate to the Worlds Baptist Congress there.

It is with very great sympathy that we have heard of Mrs. Chalfant's serious illness, which resulted from a fall at Tsingtao on June 21st, and has incapacitated her for the whole summer. We sincerely hope she will soon be quite restored to health and able to be back amongst us.

#### CONGRATULATIONS.

We remove the editorial hat, and make a profound know-  
tow to

Dr. Wheeler, for his splendid success in forming one of the very small company that successfully passed the last examination for the F.R.C.S., England;

Dr. Lair, for the honour of D.D. conferred upon him by his old College of Emporia - likewise to Emporia College, for possessing such a distinguished alumnus;

Mr. B.A. Garside, for his striking debut as an editor, in producing "The Peking Mandarin";

Drs M and H, for their success in inveigling half the foreign community to line up on the Tsinpu platform on a hot afternoon, and watch a train come in;

The Chemistry and Medical Departments, on the recent arrival of two new science students, Ernest Harold Adolph and David Thornton Stearns by name, both of whom appear to be taking the liveliest interest in Cheeloo and its staff. Both have registered for courses in Dietetics.

#### FUTILE QUESTIONS

- Where is the "small" A.P.M. house they talk about?
- Who does own these elongated terriers that dig up the campus by day and practise choral effects by night?
- Are they purchased by the metre? And are they being kept for the Museum, or as an example of neomissionary altruism?
- When does a tennis court become a grass plot?
- Why is a policeman?
- Is it permissible to stable elephants in the jungle grass of the campus?
- What is the opposite to "hibernate"? Is it what the University coillies do during the summer?
- Is it true that half a telegram is better than no news?

CHEELOO WEEKLY BULLETIN

No: -25

Saturday, 1st September, 1923.

WEEKLY CALENDER

STAFF RETREAT AND CONFERENCE.

Up to the present time we have received acceptances from twentyfive members of staff who hope to be present at the Retreat and Conference, but there are still a few members who have not yet sent in their replies. It would be of great service if these could be received within the next two days, so that final arrangements can be made.

Accommodation for ladies

As Mr. Parker and Dr. Mosse have kindly placed their bungalows at our disposal, it will be very easy to arrange suitable accommodation for any ladies who would care to join us, and they will be most warmly welcomed. We are hoping in any case to have Miss Miner at the Conference and if any other ladies would be able to come also, we should be glad to hear from them without delay.

Programme

The following programme must be regarded as provisional but will give a general idea as to the suggested arrangements.

Friday, 7th September

7.00 p.m. Supper

Saturday, 8th September

7.30 a.m. Breakfast

8.45-10.15 a.m. First Meeting of Conference. - General Topic:- "The Spiritual Life of our Students" - ~~how~~ to develop a stronger corporate spirit among them; the cultivation of their devotional life; causes of lack of keenness, factional feeling, etc.

10.30-12.00 noon Conference resumed.- Topic:- "The Staff in Relation to the Student Body"-, Practical suggestions for drawing the students together in aggressive Christian work, and in mutual understanding.

12.30 p.m. Dinner

4.00 p.m. Afternoon Tea

4.30- 6.00 p.m. Conference - Topic:- "The University in Relation to the Chinese Church and to the General Community"-, How can the University become more closely linked with other

Christian Organizations in the City and District? Is it possible to undertake any new evangelistic work?

6.30 p.m. Supper

7.30 - 9.00 p.m. Evening Meeting - Topic:- "How Can We Give More Practical Expression to our Spiritual Fellowship?"- The obstacles to truer understanding between Chinese and foreign members of staff.

Sunday, 9th September.

7.00 a.m. Communion Service  
8.00 a.m. Breakfast  
10.00 a.m. Devotional Service  
12.30 p.m. Dinner  
Afternoon - Left free for informal group meeting, etc.  
6.00 p.m. Supper  
7.00-8.30 p.m. Closing Devotional Meeting.

Monday, 10th September

Breakfast will be served from 6. a.m. onwards to enable those who wish to do so to return early to Tsinan.

Chinese will be mainly employed throughout our Conference, and all who are able to express themselves freely in that language are asked to do so. Each topic for our general conference will be briefly introduced by one of the members, and will be thrown open for general discussion, which it is hoped will be as full and frank as possible. Time will be given at each session for special prayer on the leading problems arising out of our conference.

Meals

Arrangements will be made as last year for both Chinese and foreign food to be served, so that those present at the Conference can take whichever they prefer.

Luggage and Transport

Every member is asked to provide himself with sufficient bedding, and it would be a great convenience if those who have camp-beds will also arrange to take them. There are a few available on the mountain for those who do not possess them. All luggage and bedding, clearly marked with the owners' name, should be at McCormick Hall not later than 9 a.m. on Friday morning. Arrangements will then be made for it to be transported to Hsing Lung Shan.

Members of Conference are asked to make their own arrangements for reaching the hill. For those who do not wish to walk, mountain chairs can be secured, or it is possible to go by ricksha, donkey, or wheel-barrow to the foot of the mountain.

STAFF MOVEMENTS

Within the past week we have had the great pleasure of welcoming to Tsinanfu the wife of our new Arts Dean, Mrs Li Tien-lu, and her family. Dr. Li is at present detained in Peking, but is hoping to join us within a week.

It has also been a great pleasure to welcome back from furlough Dr. & Mrs. P.S. Evans, with Isabel and Harriet, all of whom arrived safely on August 22. Dr. & Mrs. Evans had met the Cassats at Yokohama and brought a good report of them both. Since then

### STAFF MOVEMENTS

An interesting letter has been received from Mr. Burt, who was spending the summer vacation with Mrs. Burt and his daughters in a beautiful spot in N. Wales. He sends his good wishes to all members of Chedloo staff, and asks us to note that his address in future will be 19, Park Street, St. James Square, Bath.

Dr. Bradfladt writes that he is to sail on the S.S. "president Cleveland" on September 20, and is hoping to be with us early in October.

Dr. Ellis is planning to leave San Francisco in a Japanese Steamer, the name of which he has not given us, on 10th November.

### DR. ANNIE SCOTT

It is a great pleasure to be able to announce that the first member of the Peking Women's Medical College staff who is to take up her residence among us will be arriving during the coming week. Dr. Annie Scott is hoping to reach Tsinan on September 13. It is not yet certain whether Dr. Scott will be able to stay through the whole term, but in the event of her having to go back to Peking for teaching purposes, another member of the staff will take her place.

### DR. LI TIEN LU.

During this past week our new Dean of the School of Arts and Science, Dr. Li Tien-lu, has moved down from Peking, and is now settling into his house in Tsinan. We have waited for so many months for Dr. Li, that it seems almost too good to be true that he is now really among us. The whole staff unite in offering him a very warm welcome. Dr. Li will be entering on his new duties from the commencement of this term, and will have his office in the north-east room on the upper floor of McCormick Hall.

### STUDENT RETREAT

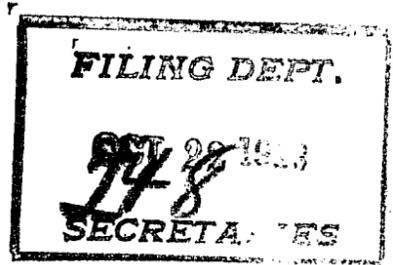

The Student Retreat, of which notice was given in the last Bulletin, has been postponed, as it was found impossible to arrange for a satisfactory meeting so close to the commencement of term. It is hoped that it may be held after classes have been properly started, and the work of the term is under way

CHEELOO WEEKLY BULLETIN

Ans'd

No: 26

Saturday, 8th September.

WEEKLY CALENDER

abridged

This week's Bulletin is necessarily somewhat as it has to be written on the eve of our Staff Conference. There are, however, a few important notices for circulation amongst the members of the University.

SUNDAY SERVICES IN UNIVERSITY CHAPEL

At a meeting of the Senate held on 6th September, the question of the future services in our University Chapel was carefully discussed.

Now that our new building is completed, and available for our weekly worship, it is the desire of everyone that these Sunday services should make a real contribution to the building up of the devotional life of our students, and in particular to the formation of habits of reverent worship. We are specially anxious that all students should feel that they have a real part in the Church life of the institution. With this in view the following recommendations were adopted by the Senate, and will be put in practice during the coming term:-

(1) Definite seats will be assigned to students and staff, the staff taking their places as worshippers amongst the student body.

(2) The leader of the devotional part of the service, the preacher for the day, and the President, will have special seats allotted to them in the chancel, and will wear suitable gowns.

Mr. MacRae has been asked to take responsibility for the conduct of the devotional part of the service, except on occasions when the preacher prefers to take the whole service himself.

(3) It is suggested that a simple uniform dress be prepared for the use of the choir.

(4) An offering is to be taken at each service.

(5) The following will be the general order of service:-

- |                               |   |
|-------------------------------|---|
| 1. Organ Voluntary            | 8. Praise                               |
| 2. Silent Prayer              | 9. Prayer - Thanksgiving, Intercession. |
| 3. Invocation & Lord's Prayer | 10. Scripture                           |
| 4. Praise                     | 11. Praise                              |
| 5. Responsive Reading         | 12. Sermon                              |
| 6. Prayer - General           | 13. Praise                              |
| 7. Offering                   | 14. Benediction.                        |

Note. In the above Order of Service, "praise" indicates either congregational singing, or special music by the choir.

- (6) Competent ushers are to be appointed, and all late-comers will be directed to enter by the East Door.

A Committee of six, consisting of Mr. Cady, Chairman, Mr. Ch'in, and Dr. Mosse, together with three student representatives to be elected by the student body, will form the Chapel Committee, and make necessary arrangements. This Committee, with the cooperation of Dr. Li Tien-lu and Mr. MacRae, will apportion out the seats in the Church, reserving certain of them for guests.

Notice will be given within the following week as to where each section of the University will find their seats.

#### UNITED WEEKLY CHAPEL SERVICE

The Senate has also decided that there shall be at least one united Chapel service for the whole student body each week. For the present term this service will be held every Wednesday morning at 8:30, concluding shortly before 9 o'clock. All students will be expected to attend and it is earnestly hoped that the whole staff will make a point of being present.

#### OPENING MEETING OF TERM.

A special meeting of the University, to mark the opening of the new term, will be held in the Institute on Thursday evening next, 13th September. The object of this meeting is to give the University staff an opportunity of meeting the whole student body, and welcoming the new students, and of introducing our new members of staff. Advantage will be taken on this occasion to offer our congratulations to our athletic representatives who did such splendid things for Cheeloo in Tientsin and Shanghai last term. The meeting will also afford an opportunity to encourage the students in the conduct of their various societies and religious organizations, and to try to develop a stronger, corporate spirit amongst them. At the conclusion of the more formal part of the gathering, refreshments will be served, and there will be an opportunity for social intercourse. A Committee composed of Mr. G.D. Wang, Mr. Payne and the President, will make the necessary arrangements, of which full notice will be given before the 13th inst, but it is hoped that all will make a special note of the date, and try to be present.

#### MORE CONGRATULATIONS

Still more honours are coming to members of the Cheeloo staff, and we have just heard with great satisfaction that the University of Chicago have conferred the degree of Doctor of Philosophy upon Dr. L.H. Braafladt in recognition of the researches which he has been carrying out during the last three years in Gastro Intestinal Disorders. Our Warmest congratulations to our Professor of Pathology!

we have had a very cheering cablegram from Mr. Cassat announcing their safe arrival in Seattle, and bringing the good news that both he and Mrs. Cassat had enjoyed the journey and were feeling in excellent form.

A cablegram from Dr. Cochran states that he has been delayed in America on important business, and instead of travelling on "The Empress of Canada" as previously planned, he will be leaving on "President McKinley" (Admiral Line) which is due in Shanghai from Seattle about September 18.

A letter just to hand from Dr. Wheeler mentions that he has had the misfortune to break his right wrist as a result of a backfire on the part of his Ford car. It was slowly improving at the time of writing, but was still stiff. The boat by which he had intended to return has been changed to that of the "Nellore", but is following the same schedule and will be due in Shanghai on September 26.

#### WOMEN'S MEDICAL SCHOOL

Once again we have good news to report with regard to the Women's Medical School, as the China Medical Board have very generously given a donation of Gold \$50,000 towards the new buildings and equipment. This gift is contingent upon the Women's Board providing a total sum of Gold \$115,000. Towards this amount the following gifts are already available or promised:-

From the Presbyterian Board, through the Sage Legacy..	\$35,000
" " " " Jubilee Fund .....	7,310
Designated Gifts from the Union Christian College Camp	16,994. <sup>38</sup>
Undesignated " " " " " " " "	17,500
From Methodist Board for 1924-1925	25,000
	<hr/>
	\$101,804. <sup>38</sup>
	<hr/>

It is hoped that further sums may be available from the balance of the Joint Women's College Drive, which will bring this total up to the figure of Gold \$115,000 specified.

#### STUDENT CHRISTIAN LEADERS' CONFERENCE.

After our staff Retreat and prior to the opening of the new term, it is hoped to have a two-day Conference on Hsing Lung Shan for some of the former student Y.M.C.A. leaders in the University, when the whole question of our University Y.M.C.A. and other Christian organizations will be fully discussed, and plans thought over for the coming session. Members of the staff are asked to remember these meetings specially in prayer.

8.15 p.m.	Prayer Meeting	Theological School
Leader:-	Rev. R.S. McHardy.	

OPENING MEETING OF TERM

A very interesting gathering was held at the Institute on Thursday evening last in order to mark the opening of our new term. The whole student body, together with most of the staff and several ladies, all united in a social reception. The lecture hall was most attractively decorated- thanks to Mr. Payne and Mr. G.D. Wang, who were responsible for the arrangements- and during the middle of the meeting light refreshments were served out to all present. Speeches of welcome to new members of staff, to new students and to our athletic representatives in the China and Far Eastern Meets were given by the Administrative Officers, replies being made by Dr. Luella Miner, Dr. Annie Scott, Dr. Li Tien-lu, Dr. Hou Pao-chang, and Mr. Li Wen-chang. It is hoped that it may be possible to arrange similar united gatherings in the future.

It is impossible at present to give exact statistics as to the enrolment of new students this year, but judging from the figures before us, it looks as if the entering-class will certainly not be less than 100, of whom nearly 30 will be women students. This will be the largest class that we have had for several years.

### STAFF CONFERENCE AND RETREAT.

THE conditions under which the staff Retreat was held this year were as nearly ideal as they could possibly be. The weather was delightful, and no less than 30 members of staff were able to be present, the majority of whom were with us for the whole time. The indefatigable efforts of the "quartermaster's staff" - to say nothing of those who made provision for the wants of the inner man - were simply beyond praise, and resulted in our conference being carried through without a hitch of any sort. Our warmest thanks are due to these workers behind the scenes.

On arrival on the hill we found elaborate directions awaiting us as to where we were to sleep, and where we were to secure any necessary domestic articles which we had not already brought, whilst an artistic map, unhampered by any of the ordinary rules which govern the compass, guided newcomers to their temporary residence. All four cottages which now form part of the Hsing Lung Shan colony were put into use, and the spacious porch in Dr. Mosse's bungalow proved the most perfect place for meetings that one could possibly desire.

The whole of Saturday was given up to frank and informal discussions on the four topics suggested in last week's Bulletin, these four forming closely-linked parts of the one great subject of our Retreat, namely, The Spiritual Output of the University. There was hardly a single member of staff, if indeed there was one, who did not take part in the discussions, and the various suggestions which were made deserve our closest attention.

We spent our Sunday in devotional meetings, commencing with a United Communion Service at 7.30, conducted by Dr. Lair, and continuing after breakfast with a morning service, of which Rev. L.V. Cady took charge most helpfully. The afternoon was given up to informal group meetings, whilst our final gathering of the Retreat was held in the evening, when we thought and prayed together about the vital subject of The Price of True Discipleship, and of Spiritual Fellowship. It was the feeling of all who had been present that the whole Conference was most valuable and inspiring, not merely because of the value of our united discussions, but even more because of the whole atmosphere of friendship and good feeling which pervaded the Retreat.

The following is a brief resume of the leading points in our discussion. They have been gathered together without regard to the order in which they were presented, or the particular speaker who suggested them.

#### I - THE SPIRITUAL LIFE OF OUR STUDENTS.

The difficulties and disappointments which we meet from time to time at Cheeloo with regard to the spiritual life of our students, are not peculiar to our College, but they demand our constant thought and prayers. As a Christian Institution, staffed by Chinese and foreigners whose sense of vocation is primarily a spiritual one, the tone of the Institution and the strength of Christian character with which our graduates leave us, must necessarily form the main criterion of our success or failure. We need therefore continually to examine the causes for spiritual apathy or factional feeling, and to try to adopt suitable methods to counteract this tendency.

Suggested Causes for Lack of Keen Spiritual Life.

- (1) Students from Christian homes often owe their faith almost entirely to the influence of their parents, and have never really faced problems for themselves before their collegiate days.
- (2) Insufficient personal contact between members of staff and the student body, due partly to difficulties of language, and partly to lack of leisure. Several speakers referred to the fact that our students are still relatively immature in judgment and experience, and that in our desire to develop a spirit of independence and self-expression we have been apt to remain too much aloof from actual participation in their religious and social activities.
- (3) A tendency on the part of the student body to remain divided in small groups, this tendency being due on the one hand to Provincial differences, and on the other to differences of economic status.
- (4) An inherited tradition in the student body tending to perpetuate factional feeling.
- (5) The temptations and distractions of a busy Capital city.
- (6) The influence of the New Thought Movement upon immature minds, (Reference was made to the dangerous influence of one former student, who had been infected with agnostic and immoral views).
- (7) A failure on the part of the part of the staff to present a strong example of personal evangelistic zeal.
- (8) An over-full timetable, combined with high educational standards, crowding out opportunities for close personal intercourse on the part of the staff.

Suggested Methods for Strengthening the Spiritual Life of the Student.

- (1) The staff should take an active part in collaborating with the students in reviving and maintaining their religious organizations, social activities, etc.
- (2) Special attention should be directed each year to the new students, who should be divided into groups, each group being placed under the supervision and guidance of members of staff. The senior classes in the University should similarly have teachers specially assigned to them, with a view to cultivating closer personal contact and watching over their spiritual progress.
- (3) Better use should be made of Sunday afternoons and evenings as a time for cultivating contact with the students, and seeking to organize them into Bible-classes, Sunday School, or direct forms of Christian service.
- (4) Advantage should be taken of the students' keen interest in the speaking of English. A simple English service for students for the practising of English hymns, etc., might well be held every Sunday evening. English Bible-classes or Religious Conversation groups might similarly be arranged.

- (5) An attempt should be made to develop a stronger college spirit among the students, and the formation of a University band was suggested as one means to this end.
- (6) Careful note should be kept of students absenting themselves from Sunday services. These students should be followed up, and an attempt made to induce them to become regular attendants.
- (7) Above all, each member of the staff should seek so to apportion his time that a definite part of it is regularly given to evangelistic work and definite Christian service. In this way alone can students be brought to realise that the primary objective of the institution is not the educational standards that are secured, but the spiritual welfare of every student and graduate.

#### 11 - THE RELATIONSHIP OF THE STAFF TO THE STUDENT BODY

The discussions of this topic followed a very similar line to those on the subject which preceded it, and suggestions which have already been recorded under the former heading will not be repeated here. It was felt by all that the whole question of the spiritual life of the students was intimately bound up with that of the relationship between the staff and those whom they seek to teach. The following suggestions were made as to the difficulties of cultivating close personal relations between faculties and students.

- (1) Difference of status between teachers and students makes it difficult to steer a middle course between an attitude of apparent aloofness on the one hand, and an undue familiarity, subversive of discipline, on the other. The staff does not really know the student life, nor do the students really know the staff.
- (2) The making of artificial points of contact is always apt to defeat its own object.
- (3) An over anxiety on the part of the staff to preserve independence of thought and action of the students, frequently leads to undue isolation.
- (4) No real unity can be maintained except that which is based upon a common purpose.
- (5) It is impossible to find any method which will automatically work. It will always depend upon members of staff to make any particular method successful.
- (6) Our present organization tends to be far too complex, with the result that the multiplicity of committees, meetings, and social engagements crowd out opportunities for personal contact. At the same time foreigners are apt to give an impression of rush and bustle, and even of irritability of temper, with a result that students are reluctant to approach them freely.

#### Suggested Methods of Helping Student Body.

- (1) Our chief hope must always lie in the exerting of an unconscious influence, depending upon the depth and reality of our own personal spiritual life.
- (2) We need to seek and utilize opportunities for making natural contacts with individual students.

DR. HAN CHUNG-HSIN

It was with much pleasure that on Wednesday we welcomed Dr. Han Chung-hsin, D.P.H. D.T.M.& H., back again to Tsinan after his two years of special study in England and America.

Dr. Han has made very good use of his time abroad and has returned with an excellent knowledge of English, we heartily congratulate him on his notable success in securing the Diplomas of Public Health and Tropical Medicine in so short a time. His last four months have been spent in America where he has visited a number of cities in an investigation of Public Health methods.

After a few days at his home in Weihsien, Dr. Han is hoping to return with Mrs. Han next week to take up his work in the Department of Preventive Medicine.

BOOK EXCHANGE

Whilst our Library appropriation is very limited so that the purchase of new books is almost impossible, it has been suggested that members of staff possessing new books of their own might be willing to lend them to others. Space will be allotted in the Bulletin each week to give notice of any who have books or periodicals which they would be willing thus to lend, and it would probably be possible for arrangements to be made by which this matter could be handled through the Library. The following is the first instalments-

Dr. Balme will be glad to lend any of the books mentioned below.

"The Pomp of Power"	Anonymous
"Painted Windows"	Man with Duster
"Bolingbroke and Walpole"	J.M. Robertson
"The Lord of Thought"	Dougall & Emmet
"Progress in Religion"	T.R. Glover
"Alexander Duff"	W. Paton
"Recent Advances in Medical Education in England"	G. Newman
"Queen Victoria"	Strachey
"Life of Pasteur"	Descour

LANGUAGE TEACHER

Mr. Chen of the Translation Bureau has a friend who comes from Peking who is anxious to have some language pupils. He is not experienced in the Language School methods, and therefore will make a charge of \$4 an hour. If anyone desires such a teacher, please communicate with Dr. Ingle, who will let him know.

apart in the University for those who wish to come together for intercession, or for silent meditation and prayer.

A special responsibility rests upon our University, as being a great experiment in spiritual fellowship. If we succeed others will be encouraged to make a similar trial, - but what if we fail? We shall not succeed unless we realise the dangers and make a special fight for success.

The great difficulty of to-day arises from the fact that Christians do not regard great problems primarily from the Christian standpoint, but rather from the standpoint of nationality, of race, of class, or of some sectional affiliation. We need to learn to understand and maintain the viewpoint of Christ, remembering that true fellowship depends in the last analysis upon the intimacy of our relationship with Him.

Among other practical suggestions that were put forward were:-

- (1) The possibility of a regular staff prayer meeting.
- (2) The setting aside of a time, possibly once or twice a month when members of staff should take a simple meal together, followed by free discussion on any vital topic.

value of the Conference will be largely lost unless it issues in some

The leading suggestions which were made during the conference have been chronicled in the Bulletin in order to give members of staff an opportunity of reviewing them, and of suggesting practical means by which we may put some at least into effect. The whole definite results. It is hoped that before long a meeting can be arranged at which we can definitely discuss what can be attempted during this present term.

REGISTRATION OF STUDENTS

Friends will be interested to learn that the total number of students in the University this term is 348, there being 45 students in the School of Theology, 61 in Senior Arts, 45 in Junior Arts, 97 in the Pre-Medical Department, and 94 in the School of Medicine. Of this total number 124 are new students, and are distributed in the different Schools as follows

School of Arts & Science

Senior		5
Junior II. Yr. 1st Sem.	2 Men	
" 1. " 1st "	18 Men	
" 1. " 1st "	1 Woman - Theol. Sp. Arrangemt.	

21

Pre-Med. II. " 1st "	2 Women
" " II. " 1st "	3 Men
" " 1. " 1st "	44 Men
" " 1. " 1st "	20 Women

69

- (3) We must try to associate ourselves more closely with the students in the carrying out of common tasks.
- (4) Members of staff should be encouraged to visit the students in their own quarters for friendly intercourse. Contacts so formed are comparatively easy to follow up, but unless friendly relations of this nature are established, the inevitable tendency will be for teachers and students to keep apart and meet only in class.
- (5) The students absolutely need our help, and at all costs we must find a means of offering it, and of impressing them with the fact that our first purpose is to be friend and assist them.
- (6) Regular intercession must be promoted, possibly by means of a staff prayer-meeting.

(The remainder of the Report of the Retreat & Conference is held over next week.)

#### ARRANGEMENTS FOR SEATING IN CHAPEL

The Chapel Committee have made the following arrangements with regard to the seating in the University Chapel:

- (1) Side transepts to be reserved for women students, female nurses, women members of staff, and other ladies who may attend the services. For the present the women students will occupy the southern transept, leaving the northern transept for the nurses and for wives of faculty, etc.
- (2) Male members of staff not taking part in the conduct of the service are asked to sit in the side aisles at Sunday morning service. During the week the front 2 seats of the central section will be reserved for them.
- (3) The central section of the Church will be divided as follows:-
  - (a) First two seats on each side reserved for guests
  - (b) Junior College students on both sides of middle aisle, commencing from third pew.
  - (c) Medical students on north side of middle aisle, immediately behind Junior College.
  - (d) Senior Arts students on south side of middle aisle, immediately behind Junior College.
  - (e) Theological students on south side of middle aisle, immediately behind Senior Arts.
  - (f) Male nurses on north side of middle aisle, behind medical students.

Ushers will be provided who will direct students and visitors to their allotted seats.

Women students are asked to enter by the north door, except in the case of late comers, who are requested to enter from the south.

All men students, and any members of staff who arrive late, are asked to enter by the East Door.

### MEETINGS OF NATIONAL CHRISTIAN COUNCIL

Owing to the Meetings of the National Christian Council Executive and other Committees, Dr. Balme and Miss Miner will probably both be away from Tsinan next week. Dr. Balme is also visiting Nanking, and will probably be away from Tuesday next, 18th inst. until September 25th.

### STAFF MOVEMENTS.

During the past week we have had the pleasure of welcoming back Dr. Hou Pao Chang after his year of sanatorium treatment in Kuling, and Dr. C.T. Maitland, who is now taking up his residence in Tsinan whilst continuing his Chinese studies. As soon as Dr. C.H. Han returns, it is hoped that Dr. Maitland and Dr. Han will be able to organize our new Department of Preventive Medicine.

### EDUCATIONAL BOOKS FOR CLASS USE AND FOR REFERENCE.

Arrangements have recently been made with Mr. H.B. Saxton, King Street, Nottingham, England, a prominent English bookseller and a good friend of this institution, by which all orders for educational and other books can be handled at his office. Mr. Saxton has kindly circularised the leading British booksellers, all of whom have now promised to send out full announcements of their various publications. A large number of these have already been received, including also some specimen copies, and these are now being classified and stored in the Library. Any teacher who wishes to purchase books for his Department will be able to find particulars of the latest works published in Great Britain, and it is hoped that very shortly a similar arrangement may be made with announcements of American publications. All British books can be ordered direct from Mr. Saxton, who has kindly promised to give us the lowest terms available.

### AUGUSTINE LIBRARY.

The following books have been received:-

Medical Services Surgery of the War. Two Volumes.  
Fifteenth, Sixteenth, and Seventeenth Report of the Henry Phipps Institute.

Conn and Conn -- Bacteriology

Robertson -- Principles of Bio-Chemistry

Hohns Hopkins University -- School of Hygiene and Public Health.

Standard Nomenclature of Diseases and Pathological Conditions,  
Injuries and Poisonings.

U.S. Government Public Health Reports.

In addition to the above a recent shipment of pamphlets has been received from the Smithsonian Institution.

### PICTURE POSTCARDS.

A series of ten picture postcards, illustrating different views of the University, have been prepared in America, and will be on sale shortly, at the cost of 10 cents for 2. They represent the following views:-

General View of the University  
Bergen Hall  
Mateer Science Hall  
Kumler Memorial Chapel

McCormick Hall  
Augustine Library  
Gotch-Robinson School of Theology  
School of Medicine  
~~SSSSSSSSSSSSSSSSSSSSSS~~  
University Hospital  
Extension Department, exterior.

CATASTROPHE IN JAPAN

The terrible tragedy which has recently taken place in Japan has called out deep sympathy in all parts of the world. As soon as the news reached us, an official visit was paid to the Japanese Consul General to express the sympathy of the whole staff. Funds are also being collected to assist in the relief work. In this connection we would like to remind members of staff of the Exhibition of Pictures by a Japanese Artist which to take place at the Japanese Club on Saturday afternoon at 2 p.m. The painter will be glad to take orders for any further pictures which may be required.

Mrs. Balme will be glad to receive any gifts of clothing for despatch to Japan. Any articles of apparel which are ready for wear should be forwarded to Mrs. Balme's house, where they will be made up into parcels for shipment.

TSINAN MOTHERS' CLUB

The meetings of the Club will be held on the first Monday of every month in McCormick Hall, at 4.30 p.m. First meeting, 1st October.  
Members' subscription - \$1 per member, payable at first meeting.  
Books taken from Library for holiday use to be returned at first meeting.

NEWS ITEMS

UNIVERSITY CHAPEL SERVICES.

It certainly was an inspiring sight to see the fine gathering of students and others at the opening Sunday Service of this new term, and we must congratulate the Chapel Committee on the success of their arrangements, which assisted so greatly in enabling the service to pass off smoothly. If only we can keep up a similar attendance throughout the term, and the same quiet spirit of devotion, our University Chapel will be taking a very large place in the life of the Institution. Changes will have to be made from time to time in the seating arrangements, etc. to accommodate the increasing number of women students, etc.

CHAPEL SEATS.

The committee in charge has decided to have the entire staff of teachers take their places on the platform in the choir seats every Wednesday morning at University prayers when the whole student body comes together for united worship. Members of staff are requested to assemble in the small room behind the chancel at 8:30 A.M. on Wednesday, in order to enter together.

Further provision is planned for the accommodation of women students and guests at the University Sunday morning Service. Chairs will be added behind the present seats in the two transepts, and the two front rows on the north side of the centre aisle of the main body of the church which have been set aside for guests will be reserved for women. Our students will retain their present seats, the new seats to be given to other women attending the service.

STAFF RETREAT AND CONFERENCE (continued from last week)

The following is a summary of some of the main points raised at our Conference in connection with the last two topics discussed on Saturday afternoon, 8th September.

III. - RELATIONSHIP OF THE UNIVERSITY TO THE COMMUNITY.

Mr. MacRae, in opening this discussion, reminded us that our first responsibility must always be towards our own students, but that this fact must not make us forget the claims of the community in which we live. Already a great amount of service has been rendered, particularly through the agency of the Institute, the Hospital, Social and Religious Centres, the work undertaken at Lung Shan, and the assistance rendered from time to time to the various Chinese Churches. Our problem must be to think of very practical means of extending our service. Amongst the many valuable suggestions which were made, the following claim particular attentions:-

- (1) Participation in the work of community Sunday Schools, conducted both by members of staff and of the student body. This form of service has already been carried out with great success in Nanking, and Sunday afternoons could well be employed in this way.
- (2) The organization of an evangelistic band, possibly with a definite station or stations in the City. Students at present are apt to be more ready to lecture<sup>m</sup> on education, hygiene, social welfare, etc., than to engage in simple forms of direct preaching. The assistance of the staff would form an excellent opportunity of co-operation.
- (3) A Teachers' Association, getting into touch with teachers of Government Schools, and providing suitable lectures on scientific and other subjects, might form a helpful link with the educational forces of the city. Such an Association was previously in existence, but has fallen into abeyance.
- (4) Greater attention should be paid to social duties, to the paying of regular calls upon Chinese officials, and to the cultivation of Chinese friends in the City. In this connection some of the Chinese members of staff pointed out the great importance of providing better menas for receiving visitors from Chinese officials and others.
- (5) An attempt should be made to cultivate greater intimacy with the local Chinese Churches, and it was suggested that all Chinese members of staff should become regular members of one or other of these Churches.
- (6) The promising contacts with hospital patients which are made during their residence in the wards, should if possible, be followed up. The possibility of developing a Medical Social Service in the City, for the purpose of helping old

patients to carry out necessary treatment at home, and at the same time to assist them to learn more fully the true meaning of the Christian Gospel, was suggested.

- (7) As opportunity offers, members of staff should seek to visit ~~centres~~ in the district, particularly where old graduates are working, or where there is a good opening for giving lectures, and undertaking evangelistic services. Reference was made to the proposal which Professor Robertson put forward last summer, urging the formation of Science Lecture bands for the visitation of large centres. Mr. Ch'in also brought to our attention the unique opportunity for work of this nature, which now offers itself in an important village near Ming Shui.
- (8) Every kind of assistance and encouragement should be given to our own graduates, both by means of personal visitation, by correspondence, and by the use of such Bulletins as the Department of Science is now issuing.
- (9) An attempt should be made to foster the work of rural evangelisation by the opening up, where possible, of centres such as that of Lung Shan.
- (10) All members of staff were urged to assist in the preparation of articles illustrating various phases of Christianity for publication in the local Chinese newspapers.
- (11) The possibility of helping the Government Middle Schools was referred to, and also the advisability of arranging regular times for the reception of invited Chinese guests.
- (12) Reference was made to the danger of dissipating our energies amongst too many claims, thereby risking the efficient carrying out of any one of them.

#### IV. THE DEVELOPMENT OF THE SPIRIT OF FELLOWSHIP WITHIN THE UNIVERSITY.

The opener of the discussion on this topic, Miss Miner, drew attention to the fact that our spiritual relations are largely dependent upon our spirit of unity and true fellowship. Such unity is specially needed in a College. It is natural to all to wish to share their joys and pleasures with others, whilst any common disaster, such as has recently happened in Japan, always calls out a feeling of generosity and true sympathy. There is, however, always a danger of the spirit of fellowship being broken, the chief causes probably being:-

- (1) Suspicion of the motives and actions of others.
- (2) Fear, leading to unwillingness to speak out frankly where we disagree. To this may be added
- (3) Jealousy, which is probably of all others the most perilous and subtle sin to which Christians are subject.

We need to remember that if only we are intirely frank with one another and free from all feeling of suspicion and enmity, our fellowship will be enriched by the very divergence of views which we may personally hold.

Fellowship is impossible unless we deliberately make time for it, as was done through the Retreat. In this connection the suggestion was made that a special time and place should be set

NEWS ITEMS

ANNUAL STAFF RECEPTION

The Annual Reception for Members of Staff and their wives, which was initiated last year, will be held on Thursday evening next in the Assembly Hall of the School of Medicine, when all connected with the University are warmly invited to be present. An informal conversazione will be held from 8-9 p.m., interspersed with musical selections. This will be followed by a few brief speeches and by light refreshments, the whole reception concluding with "family prayers" at about 10.30. Judging by the encouraging precedent of last year, we hope that there may be a large attendance and that it may afford an opportunity for happy social intercourse.

### UNITED CHAPEL SERVICE

All members of Faculty are asked to remember the new arrangements which have been made by the Chapel Committee for the Wednesday morning service., and to assemble in the room behind the Chancel before 8.30 a.m., so as to be able to enter the Church together at that hour. The north side of the Chancel is reserved for members of the Medical Faculty, and the south side for Theological and Arts Faculties, respectively, the former being asked to occupy the front seat. May we put in a special plea that all members of staff would attempt to make a point of being present in good time on Wednesday mornings? We are particularly anxious that this united service should be one which draws together the whole staff and student body.

### MEETINGS OF NATIONAL CHRISTIAN COUNCIL

An interesting series of meetings was held in Shanghai last week in connection with the National Christian Council. The first two days were devoted to the special Standing Committees which the Council organized in May last, and which have to deal respectively with Retreats and Evangelism; Industrial and Social Problems (now divided into three Commissions, namely Industry, The Christian Home, and the Opium Menace); International Relations; and Rural Problems and the Country Church. For each of these Committees there have been co-opted a number of Christian Chinese and missionaries who were giving special attention to the particular problem. The Committee meetings were well attended and very helpful.

On the third day a Retreat was held, when several of the matters which were coming before the Executive Committee were freely discussed, and considerable time spent in mutual Conference and prayer. At this meeting K.T. Chung gave a most encouraging account of a visit which he has paid during the summer to Fukien and Kwangtung. In Kwangtung especially, remarkable progress is being made by the Chinese United Church, which now appears to be taking the initiative in a large number of co-operative efforts, though, as Mr. Chung expressed it, the missionaries are still giving invaluable support "from behind the curtain". The work of the National Christian Council seemed to be well received both in Fukien and Kwangtung, and important steps are being taken to develop and extend its influence.

During the afternoon of the Retreat a very interesting discussion took place upon the attitude of the foreign missionary towards the special problems recently raised in China by the outbreak of lawlessness and banditry. A very thoughtful paper had been written on this subject by Mr. S.T. Wen, Commissioner of Foreign Affairs at Nanking, who spent over a month amongst the bandits whilst negotiating with them over the Lincheng affair. He gives it as his profound conviction that the outbreak of banditry in that region is a natural and inevitable result of the extreme poverty and terrible ignorance of the people. Mr. Wen appeals to the Christian forces for a widespread development of rural evangelisation and popular education, and raises the suggestive question as to whether the present emphasis of missionary and church activity is not directed too exclusively to the cities and large centres, to the neglect of these vast country districts.

The attitude which missionaries should adopt to the claiming of Treaty Rights was also frankly discussed, and a very interesting statement was made by Mr. D.E. Hoste, regarding the attitude adopted by the C.I.M. on that matter. It is probably well known that the C.I.M. have always made it a principle never to claim nor to receive indemnity for loss of life or of property.

Mr. Hoste told of a striking incident which occurred some 30 years ago when he and pastor Hsi were deliberately shut out of a large centre for a whole year, because of their refusal to apply for protection from the Civil authorities in a time of persecution and riot. At the end of that year, however, not only were they invited back, but were specially welcomed by the heads of the city, who had been greatly touched by their attitude of forbearance and patience.

In the discussion which followed, it was pointed out that whilst missionaries might be prepared to adopt such an attitude for themselves, it does not at all follow that their Governments would be willing to take a similar position. No decision was reached, nor indeed was any attempted, but the discussion brought out a number of very interesting suggestions on a problem of peculiar difficulty, and one which the Christian forces are likely to be facing for many years to come.

Following upon the Retreat, the Executive Committee were in session for two days, dealing for the most part with routine matters arising out of the Reports of the various Committees. Special reference was made to the conditions in Japan, and a very interesting address was given by Mr. Frank Price, who had just arrived after a fortnight's relief work in Tokyo and Yokohama. He told us among other things that 53 of the 120 Churches in Tokyo, and all the Yokohama Churches are entirely destroyed; that 10,000 Japanese Christians are now without a spiritual home, whilst many have lost their lives; but that in spite of this appalling calamity the Japanese Churches are setting to work at once on the problem of re-construction. One Church which had a fund of Yen 100,000 for the building of large Sunday School premises, etc. is devoting the whole sum to the erection of huts for refugees, etc; whilst all the Churches have adopted the following programme:-

- (a) To undertake the care of all Japanese Christians rendered destitute by the tragedy
- (b) To keep their Churches and other buildings open for refugees so long as they are needed.
- (c) To carry on regular religious services.
- (d) To organise their forces in an attempt to prevent the re-building of that section of the city hitherto devoted to prostitution.

The Japanese have been touched to the heart by the world-wide sympathy which has been showered upon them, and not least by the gifts which have been coming from Chinese sources. The National Christian Council are themselves raising a fund for the aid of the Japanese Churches, and are planning to send a "deputation of comfort" as soon as a suitable time can be arranged.

#### INTERNATIONAL MISSIONARY COUNCIL

The Minutes of the International Missionary Council, held at Oxford, July 9-16, have just arrived, and are very interesting reading. Unfortunately only one copy has yet reached us, but it can be seen by any who would care to read it. Amongst the many important actions taken by the Council, the following are of peculiar interest to us:-

##### (a) Christian Education.

The International Missionary Council is convinced that whatever changes or developments may take place in the field of general education, Christian Education must always

remain an integral part of the Church's work. Christian education emphasizes that full development not only of intellect but also of will and of spirit which is necessary to a complete Christian life. It aims to train the faculties to serve the community, the state and the church through the home, industry, business or the professions. An education which is constantly striving to fulfil this Christian conception is ever needed. Not only does it help to prepare the way for conversion but without it the fullest Christian nurture of disciples is impossible. Pupils find in the truth of Christ as presented through it, both by words and life, His call to faith and service. It is indispensable for the proper equipment of the teachers, preachers and leaders among the laity without whom the Kingdom of God cannot be established. Clearly, then, it is not to be set over against evangelism but is to be regarded as evangelism in one of its truest manifestations. To be fully effective it should be in the hands of Christian men and women. Where education is not making all possible effort to reach this ideal, it is doubtful whether it is the business of missionary societies to help to carry it on.

(b) Missionary Co-operation in View of Doctrinal Differences

The International Council has never sought nor is it its function to work out a body of doctrinal opinions of its own. The only doctrinal opinions in the Council are those which the various members bring with them into it from the Churches and Missionary Boards to which they belong. It is no part of the duty of the Council to discuss the merits of those opinions, still less to determine doctrinal questions.

But it has never been found in practice that in consequence of this the Council is left with nothing but an uncertain mass of conflicting opinions. The Council is conscious of a great measure of agreement which centres in a common obligation to proclaim the Gospel of Christ in all the world, obligation and a common loyalty. We are conscious of a common obligation to proclaim the Gospel of Christ in all the world, and this sense of obligation is made rich and deep because of our knowledge of the havoc wrought by sin and of the efficacy of the salvation offered by Christ. We are bound together further by a common loyalty to Jesus Himself, and this loyalty is deep and fruitful because we rejoice to share the confessions of St Peter, "Thou art the Christ, the Son of the Living God," and of St Thomas, "My Lord and my God." The secret of our co-operation is the presence with us of Jesus Christ, Human Friend and Divine Helper. From this common obligation and this common loyalty flow many other points of agreement, and our differences in doctrine, great though in some instances they are, have not hindered us from profitable co-operation in counsel. When we have gathered together, we have experienced a growing unity among ourselves, in which we recognize the influence of the Holy Spirit. At these meetings we have come to a common mind on many matters and been able to frame recommendations and statements. These have never had the character of command or direction, and it has always rested with the Churches or Missions to give them, if they would, authority by adopting them or carrying them into action.

MEETINGS WITH NANKING ALUMNI

On the way back from Shanghai Dr. Balme spent two days in Nanking, as the guest of the Nanking branch of the Cheeloo Alumni Association. Nothing could have exceeded the kindness and hospitality which was shown by the Nanking Branch, which now numbers nearly 20 of our old graduates, most of whom are employed

in important teaching posts in the city. A special meeting was held with the whole branch, and after partaking of a delicious Chinese meal, a most interesting conference took place with regard to newer developments at Cheeloo. The following are some of the practical suggestions which were urged by the graduates:-

- (1) They begged that far more attention be given to the teaching of English than has previously been the case. Every one of them mentioned the fact that they found themselves seriously handicapped by their comparative inability to use English freely, and appealed that the University would not only continue its present practice of maintaining English as a required subject throughout the curriculum, but would also definitely plan for certain courses to be given solely in the English language.
- (2) They drew attention to the further handicap under which they are suffering, owing to their lack of academic degrees, and begged for speedy action in this direction, for the sake of future students.
- (3) They accused us of being far too modest in the matter of publicity(&), and suggested that the name of Cheeloo is still largely unknown in the Yang-tze valley. To remedy this lamentable defect, they urged the immediate publication of a University Magazine; the employment of a Chinese journalist who should continually send news items concerning the University to Chinese newspapers and magazines; and the sending out of representatives of the University staff and student body to visit the more important educational centres for purposes of social intercourse, etc.
- (4) They appealed that steps should be taken by which graduates of Cheeloo should be admitted without condition to post-graduate work in other China universities. This at present is impossible owing to the lower standard of English at Cheeloo.
- (5) They strongly pressed for the establishment of a University Middle School.

It was most encouraging to note the loyalty of these alumni to their alma mater, and their gratification at hearing of the progress which the University has made within recent years.

#### MIDDLE SCHOOL ATHLETIC MEET

Will everybody please keep in mind the Inter-High School Athletic Meet which is to take place at the University next month? The Preliminary heats will be run off on Tuesday afternoon, 9th October; the Meet itself being held on the 10th prox. A large number of schools have already signified their intention of sending athletes and there is every reason to expect a most successful gathering. Full details will be given in next week's Bulletin.

#### RETREAT FOR STUDENT CHRISTIAN LEADERS.

The Student Retreat which had been planned for September 11 & 12 will be held at Hsing Lung Shan on October 6 & 7, when we are to have the pleasure of a special visit from Mr. T. Z. Koo. It is hoped to arrange for representatives of the three Y.M.C.A.'s, the Social and Religious Centre, and the Student Volunteer Movement to come together for this Retreat and Conference, which it is hoped may result in the forming of a strong Christian movement throughout our student body. We shall be very grateful for the prayers of the staff for this important gathering.

WELCOME TO THE COCHRANS

It has been a very great pleasure to see Dr. & Mrs. Cochran and Samuel, Junior, back in Tsinan again, and to hear of their happy and successful visit to the United States. From the point of view of the University, this visit, brief though it was, has been of very great importance, and we are much indebted to Dr. Cochran for all that he has been able to do on behalf, not only of the Women's Medical School, but of the whole Institution.

WELCOME TO MISS LUCE

It is with peculiar pleasure that we offer, in the name of the whole staff, a most hearty welcome to Miss Luce, who has just arrived in Tsinan as one of the secretaries of the Y.W.C.A., and who thus returns to the province in which she was brought up, and where the name of her parents will be for ever held dear. None of us can cross the University campus without being constantly reminded of the enormous debt which we owe to the indefatigable labours of our first Vice-President, the Rev. Henry W. Luce M.A., and it is a great source of gratification to know that we are now to have his eldest daughter amongst us, helping to mould the lives of the women students in our University and in the various Government schools in the city.

MEDICAL TRANSLATION BUREAU

The following interesting Report of the Medical Translation Bureau has been received from Mr. T.C. Leo:

Medical Books just out, or nearly so:

- |  |                             |
|--|-----------------------------|
| 1. English-Chinese Medical Lexicon               | (New official terms)        |
| 2. May's Eye Diseases                            | (New translation)           |
| 3. Gray's Anatomy                                | { " " }                     |
| 4. Clinical Methods                              | (Re-translated)             |
| 5. Evans' Obstetrics                             | (Revised)                   |
| 6. Porter's Diseases of Ear,<br>Nose and Throat. | (New translation; in press) |

Books in Preparation

- |   |                   |
|---|-------------------|
| 1. Graves' Gynaecology                          | (New translation) |
| 2. Stitt's Practical Bacteriology,              | { " " }           |
| 3. Blood Work & Parasitology                    | { " " }           |
| 4. Hiss & Zinsser's Bacteriology                | { " " }           |
| 5. Rosenau's Preventive Medicine                | { " " }           |
| 6. Edward & Cushny's Pharmacology               | { " " }           |
| 7. Gushue-Taylor's Nursing Book                 | { " " }           |
| 7. Osler's Principles & Practice<br>of Medicine | (Revised)         |

Besides the above mentioned books we are also working on the Scientific Terminology, and helping the bringing out of the "Tsinan Medical Review" quarterly.

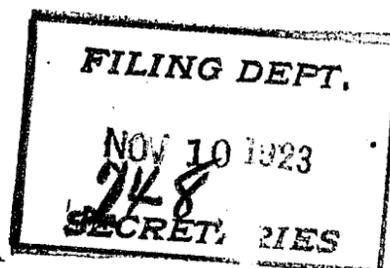

Re-inforcement of Staff of Translation Bureau.

Mr. Huang Yi-ch'ing, formerly a teacher of a Normal School in Kiangsu, and who used to help Dr. S.M. Woo of the Council on Health Education in Shanghai, has now joined us here. Mr. Huang is working on Rosenau's preventive Medicine, which we hope to bring out some time next year.

UNIVERSITY HOLIDAYS

As the birthday of Confucius, which is always kept as a University Holiday, falls this year on Sunday, 7th October, the Senate has decided to observe it on the following day, together with two further holidays on the 9th and 10th in commemoration of the Republic's Festival. The usual patriotic ceremonies will take place on the morning of the 10th, immediately preceding the Athletic Meet.

INTER-HIGH SCHOOL ATHLETIC MEET.

Arrangements have now been completed for the holding of our second Annual Inter-High School Meet. The preliminary heats will be decided on the afternoon of the 9th, whilst the programme on the 10th will be as follows:-

MORNING PROGRAMME

8:30 Address of Welcome.  
Parade of Contesting Schools.  
Salute to the Flag.

1. 9.00 100 yards semi-finals, 3 heats.
2. 9.15 1 mile run final.
3. 9.30 Shot put finals.
4. 9.45 220 yards semi-finals, 3 heats.
5. 10.00 Tennis doubles finals.
6. 10.00 Broad jump finals.
7. 10.20 440 yards finals.
8. 10.30 Discus finals.
9. 10.50 Low hurdles semifinals, 2 heats.
10. 11.00 Basketball semi-finals.
11. 11.00 Hop, step and jump finals.
12. 11.30 Half-mile relay semi-finals, 2 heats.

AFTERNOON PROGRAMME

13. 2.00 100 yards finals.
14. 2.05 880 yards finals.
15. 2.15 Javelin finals.
16. 2.30 Tennis singles finals.
17. 2.40 Low hurdles finals.
18. 2.50 High jump finals.
19. 3.00 Basketball finals.
20. 3.15 220 yards finals.
21. 3.20 Two mile finals.
22. 3.30 Pole vault finals.
23. 4.00 Half mile relay finals.

4.15 Distribution of Prizes.

Up to the present we have received notice of 12 schools which are expecting to send 150 delegates in all to the Meet, so that the competition bids fair to be even more keen than last year. If the same splendid sporting spirit is also evinced as was the case in 1922, it should prove to be a most successful and interesting event.

CONFERENCE OF CHRISTIAN COLLEGES.

At a meeting of the Executive Committee of the Association of Christian Colleges and Universities held recently in Shanghai, the following important details were decided upon with regard to the Conference of Christian Colleges which has been planned for February next.

Date. Tuesday, Wednesday and Thursday, February 5-7, 1924.  
Place Ginling Women's College, Nanking.  
Daily Sessions 9-12 a.m. 2-4 p.m. and 5-7 p.m.

General Meetings. The General Meetings will be held daily from 11-12 noon and from 5-7 p.m., when open discussions will be held on the following, or similar topics:-

- "The Place of Religious Instruction in the College Curriculum."
- "The Voluntary Principle in Attendance at Religious Worship."
- "The Next Steps to be Taken in Carrying Out the Report of the Educational Commission."
- "The Relationship of Government Education to the Programme of the Christian College."
- "The Securing of Closer Correlation between Secondary and Higher Education."
- "Facilities for the Transfer of Students." (System of credits; groups, etc.)
- "Entrance Standards and Intelligence Tests."
- "The Future Organization and Policy of the Association."

Sectional Meetings. The leading feature of the Conference will be the sectional meetings which will be held daily from 9-11 a.m., and from 2-4 p.m., the last afternoon period taking the form of a joint meeting of the united sections for purposes of report, etc. At each section there will not only be present those who are regular members of the Association, but also specially invited guests who are interested in the particular subject under discussion, these including teachers of such subjects in Government Colleges, representatives of Mission Middle Schools, visitors to China, etc. The following is a list of the sections which are planned for, together with the name and address of the secretary who is making arrangements for the matters discussed by a particular group, and also an indication as to the number of sectional sessions which will be allotted to the subject. (If the time allotted proves insufficient, those in charge of the section will have full liberty to arrange further meetings outside the official hours of the Conference, but an attempt has been made to prevent too much overlapping on the official time-table.)

3 Sessions each

Administration & Curriculum	Secy. Mr. G.W. Sarvis, Nanking.
Chemistry	" Dr. E.V. Jones, "
Education & Psychology (to be held conjointly or separately as members to wish)	Educa. Secy. Miss Vautrin, Ginling. Psychology Sec. Dr. Li Tien-lu, Tsinan.
English Language and Literature	Secy. Prof. J.G. Griggs, Canton.
History & Political Science	" Prof. H.F. McNair, Shanghai.
Physics	" Prof. Ch. Corbett, Peking.
Religious Education	" Dr. T.T. Lew "
Sociology & Economics	" Prof. J.B. Tayler, "

2 Sessions each

Agriculture	Secy. Mr. J.L. Buck, Nanking.
Biology	" Dr. Cora Reeves, "
Chinese Language & Literature	" Mr. Chau Shan Yi, Canton.
Health Education & Physical Culture	" Dr. G.B. Huntley, Shanghai.
Mathematics	" Prof. W.F. Keye, Soochow.
Philosophy	" Prof. F. Wei, Boone.
Pre-Medicine	" Prof. W.H. Adolph, Tsinan.
Registration & Records	" Prof. J.W. Dyson, Nanking.

1 Session each.

Library Administration	Secy. Mr. H. Clemons, Nanking.
Music & Fine Arts	" Miss Grabill, Ginling.
Home Economics	" ? ? Yenching.

Judging by the interest which has been aroused in this Conference, it would appear probable that it will be well attended and will prove to be a very stimulating gathering. No members of our staff who can possibly beg, borrow or save the necessary funds for travel, etc., can well afford to be absent, and it is certainly hoped that Cheeloo will be very well represented there.

#### LIBRARY SOCIETY

The first meeting of the new session of the Literary Society will be held on Monday, 8th October at 8.30 p.m. in the Assembly Hall of the Medical School, when Bishop T.A. Scott will lecture on "English Cathedrals" (illustrated by lantern slides).

The Hon. Secretary, Miss Morton Smith, would be glad if those who have not yet paid their subscriptions would kindly do so either before or after the first meeting.

#### Y.W.C.A.

All friends of the Y.W.C.A. are cordially invited to attend the organization meetings of the Association on Friday, October 12th - Y.W. C.A. Centre, Nan Shin Chieh, at 3 p.m. Saturday, October 13th - Tsinanfu Institute, at 2 p.m.

#### UNIVERSITY HEALTH OFFICE

At the last meeting of the Medical Faculty Dr. E.B. Struthers requested to be relieved of his duties in the University Health Office, and the Faculty have recommended to the Field Board that Dr. Maitland be appointed in his stead. The Institution owes a great debt of gratitude to Dr. Struthers for the valuable work which he has rendered during the past year, both in organizing the physical examination of the student body, and also in assisting in the reform of the general sanitation of the campus.

#### VISIT TO SHANSI AND HONAN.

Dr. Balme is expecting to leave Tsinan on or about the 12th inst, in order to pay a long promised visit to some of the leading Middle Schools and Church centres in Shansi and Honan. Full details of his itinerary will be published in the next Bulletin. He expects to be away from the University for about 4 weeks, and is hoping not only to get in touch with the Middle School principals and Church leaders, but also to meet several of our old alumni in the different centres.

#### YALE IN CHINA

The many friends of Dr. Edward H. Hume will be interested to hear that at a recent meeting of the Board of Trustees of Yale in China, held at Newhaven last month, Dr. Hume was appointed President of the College, with Mr. Brownell Gage as Provost. Our hearty congratulations to Dr. Hume and to our sister University at Changsha.

#### STAFF MOVEMENTS

We are hoping within a few days to have the pleasure of welcoming Mr. & Mrs. H. Smith and Dr. Braazfiadt, both of whom were sailing on September 20. Mr. Smith will probably be going first to Chefoo before taking up his residence among us.

LIBRARY.

The following books have been presented to the library,  
the gift of Dr. & Mrs. Evans:-

Wister -- The Virginian  
Williamson--The Port of Adventure  
Wright -- The Re-Creation of Brian Kent.  
Daggett - The Broad Aisle.

Other new books received:-

The Chinese Church as Revealed in the National Christian Conference  
McKenzie -- Exerciss in Education and Medicine  
Roggers -- Modern Philosophy  
The Mirrors of Downing Street

NEWS ITEMS

STAFF RECEPTION

The Annual Reception for members of the staff, which was held on 4th inst., proved to be a delightful opportunity for meeting one another for a social evening. The Medical School Assembly Hall was charmingly decorated and there were about 100 present. The first part of the evening consisted of an informal conversazione, interspersed with musical selections, after which brief addresses were given by the President, Dr. Li Tien-lu, Dr. Wheeler, Dr. Hou and Rev: L.V. Cady. Light refreshments then followed and we concluded a very happy evening with family prayers led by Mr. MacRae. Our warm thanks are due to the ladies who worked so hard to make this reception a success, and to Mr. Hunter and the various artistes who were responsible for the musical programme.

STUDENT RETREAT AND CONFERENCE

Once again the mountain cottages at Hsing Lung Shan have proved invaluable as a place for quiet conference and for the thinking out of some of those deeper problems upon

which it is so hard to concentrate time during the rush of the daily route work. A party of 25, including representatives of the Faculty and of all three Schools of the University and of the Social and Religious Centre met together from Friday to Monday of last week in order to consider the question of the Religious activities of the students' body, and the best form of organization through which those activities should express themselves.

For some time past both Faculty and students have been concerned about the comparative weakness of the student Y.M.C.A.s in the University, and as is probably generally known, the Medical School Y.M.C.A. has not been functioning at all since last spring, whilst the similar organization in the Arts & Science School is also very weak. With the coming of women students an important new feature is introduced, and the question naturally arises as to whether, an attempt should be made to revive these departmental Y.M.C.A.s and to add a similar organization for women students, or to combine these various groups into a single Christian Association for the whole University.

In discussing this problem we had the great advantage of the presence of Mr. T.Z. Koo, who is well-known as one of the national secretaries of the Y.M.C.A., and who has been elected as secretary of the World Student Christian Federation for the Far East. Mr. Koo made a special journey up from Shanghai in order to attend our Retreat, and the contribution which he was able to make from his wide experience of student Christian activities, not only in other Chinese Colleges but also in other countries, was invaluable.

Dr. Hou Pao-chang was elected chairman of the Conference, which was opened by a masterly address from Mr. Koo, who gave a historical presentation of the development of the student Christian Movement in China. He especially emphasized the fact that in its genesis this Movement was directed towards the Government Schools, and was entirely evangelistic in character. With the varied developments of recent year, the Movement has become centered more particularly in the Christian Colleges, where there is a real danger of their losing the sense of responsibility towards the Government School students and of concerning themselves too closely with their own internal problems. The possibility of a Wide National Student Christian Movement which should bind together the Christian Student forces of China was placed vividly before us by Mr. Koo, and could not fail to make a deep impression upon the students.

At the ensuing sessions a frank discussion took place as to the difficulties of our present organization and as to the causes for comparative weakness of our present student Y.M.C.A. s. Amongst these causes the following were particularly emphasized:-

- (1) The lack of an adequate programme, owing to the fact that so many activities previously centered in the Y.M.C.A. are now being cared for by other bodies, such as the Social & Religious Centre, the Athletic Association, etc.
- (2) The lack of an adequate programme, -- a real corporate consciousness between the students of the various schools.
- (3) The overcrowded timetables of the students, and their tendency to concentrate solely upon their classes and examinations.

- (4) The reluctance of the Faculty Advisors to assume responsibility for the care of the Y.M.C.A.s
- (5) The lack of spiritual keenness amongst the students themselves.

Following upon this discussion, the Conference took up the matter of an adequate programme for Christian students, and the best organization to meet the complexities of the situation in our University. Four possible alternatives were suggested:-

- (I) That we should do away with the Y.M.C.A.'s altogether, and simply encourage individual students to carry on their own evangelistic and spiritual work.
- (II) That we should continue to have departmental Y.M.C.A.s with no official link between them.
- (III) That the Y.M.C.A.s in the different schools, and the Y.W.C.A. for women should be autonomous units, but that they should be linked together by a central representative council upon which should devolve such functions as unifying of the departmental budgets, the election of University representatives to conferences, etc., and the undertaking of any activities of a common character.
- (IV) That the present organizations should give place to a single Student Christian Association for the whole University, including both men and women students; such an organization to operate as before by means of certain departmental activities (e.g. Bible-classes, recreation rooms in the individual schools, Student Volunteer Band, Social & Religious Centre, etc.), but to function as a single Christian Association with one set of officers, one co-ordinated programme and one budget.

After full consideration a large majority of those present decided in favour of this fourth suggestion, but it was decided to take no hurried action in putting it into effect. The students present at the conference urged that we first attempt to conserve and deepen the spirit of unity which was experienced during the Retreat, by continuing to meet together as a group every Sunday evening for prayer and general consultation, at the same time inviting any others who cared to do so to meet with us. These gatherings will be held in the Administration Building every Sunday evening at 8 p.m., and it is hoped that from this united group it will soon be possible to formulate a programme which will draw together all students of the University in one effective and aggressive Christian Association. Such an Association would not merely concern itself with the cultivation of its own spiritual life, but would above all attempt to express itself in organizing evangelistic work on behalf of non-Christian students within and without the University.

#### INTER-HIGH SCHOOL ATHLETIC MEET

Whatever uses the generous donors of McCormick Hall and of the Gotch-Robinson School of Theology had in their minds when they presented us with these valuable buildings, they probably never imagined that they would one day be utilised as a dormitory for crowds of high-school boys. That however was the state of things during this present week, when all our estimates were thrown to the winds, and some 200 or 300 students

descended upon us for our second Inter-High School Meet. The upper floors of both the buildings above mentioned were at once put into requisition to provide sleeping accommodation for all these visitors, and though we could not offer them anythings more than the bare floor upon which to spread their bedding, they all seemed thoroughly comfortable and very grateful.

This Meet has been a remarkable success, and has thoroughly justified the foresight of our friend, Mr. Cassat, who first suggested such an Athletic gathering lasy year. No less than 14 Middle Schools from the Province sent up athletic representatives, 6 of these being Government Schools, 5 Mission Schools, and the remaining 3 Private Schools. Between them they sent 179 athletes, so that it was necessary to spend the whole afternoon of the 9th clearing off preliminary trials.

The great test was held on the 10th, and commenced with the usual patriotic ceremonies associated with the National Republic Festival. Speeches were delivered by the representative of the Military Governor, and by the Educational Commissioner, and after the national flag had been hoisted, and the usual three bows and a cheer had been given, the various representatives of the schools paraded round the athletic track, and the Meet commenced. There was a large number of spectators present, but the order throughout was excellent, and the whole Meet was carried out without any of those regrettable instances which have so often spoilt sporting events in China.

In the contest for the Spalding Cup, a Private School, the Tung Wen High School, Tsinan, was easily first, the points gained by the first five teams being as follows:-

Tung Wen School, Tsinan	40
American Presbyterian School, Tsinan	16
First Middle School, Tsinan	13
First Normal School, Tsinan	10
Porter Academy, Tehchow	6

The Prize for the best individual competitor also went to a representative of Tung Wen School, whilst the Basket-ball trophy, which was very keenly contested this year, was won by the First Middle School, Tsinan. The following are the records for the Meet, which, it will be noticed, were in most instances an improvement on last year.

<u>Race</u>	<u>1923</u>	<u>1922</u>
100 yards	11 $\frac{2}{5}$ sec.	11 $\frac{2}{5}$ sec.
220 "	26 $\frac{1}{5}$ "	27 "
440 "	(59 $\frac{4}{5}$ ) 32 $\frac{4}{5}$ "	1 min. 2 $\frac{2}{5}$ "
$\frac{1}{2}$ mile	2min. 24 $\frac{2}{5}$ "	2 " 24 "
1 mile	5 " 12 $\frac{2}{5}$ "	5 " 25 $\frac{4}{5}$ "
2 "	11 " 37 "	11 " 58 $\frac{1}{4}$ "
200 yards low hurdles	30 $\frac{1}{5}$ "	34 "
$\frac{1}{2}$ mile Relaw Race	1 " 48 $\frac{2}{5}$ "	1 " 58 "
Putting the Shot	37 Ft. 3 $\frac{1}{2}$ ins.	37 ft. 7 ins.
Throwing the Discus	95 " 7 "	87 " 6 "

<u>Race</u>	<u>1923</u>		<u>1922</u>	
Throwing the Javelin	111 ft. 0	ins.	120 ft. 3	ins.
High Jump	4 "	9½ "	4 "	11½ "
Long Jump	18 "	1 "	17 "	3½ "
Hop, Skip and Jump	38 "	10½ "	35 "	4½ "
Pole Vault	8 "	10½ "	9 "	6 "

Our warm congratulations are due to Mr. Li Wen Chang and those who worked with him in the organization of this Meet, which is proving to be a most effective means of drawing together the various high schools of the Province in a spirit of friendly rivalry. We also owe our sincere thanks to Dr. C.A. Siler, who came up specially from Linchingchow to act as chief referee, and to all who were associated with him in other administrative capacities.

#### PRESIDENT'S TOUR IN SHANSI AND HONAN

The following is Dr. Balme's itinerary for the coming month:-

October	13	Tientsin (Nankai University)
"	14-16	Peking
"	17,18	Paotingfu
"	19	Travelling to Shansi
"	20-24	Tai Yuan Fu, Shansi
"	25,26	Tai Ku "
"	27,28	Fenchowfu, "
"	29	Travelling
"	30,31	Pingtingchow "
November	1	Travelling
"	2-4	Chengchowfu, Honan
"	5-7	Changtefu, "
"	8,9	Weihweifu, "
"	10,11	Kaifeng "
"	12	Return to Tsinan.

The purpose of this visit is an attempt to get into closer touch with the Mission and Church leaders in the important centres from which students are coming to the University, and where our own graduates are working. Dr. Balme would be very grateful if this tour could be remembered from time to time in prayer.

#### RETREAT JOTTINGS

It is no use pretending that a dead organization is alive, and attempting to make it work. The only thing to do is to recognize it as dead and amputate it.

The Chief function of an advisor is to stir up the fire, but how is he to do it when the fuel is scattered in half a dozen places when it is burning low and threatening to go out.

It may be the advisor's duty to stir the fire, but how is he to do it when the fuel is scattered in half a dozen different places? It is extraordinarily hard to light a single piece of coal!

No Y.M.C.A. will ever get influential if it expects its advisors to do its work for it, or to bear its responsibility. Their chief function is to try to conserve the spiritual zeal of the Y.M.C.A. leaders, and to give them the extra push that they need when the cart gets stuck in the mire.

The trouble with most Y.M.C.A.s is that the members regard it as the sole responsibility of the Y.M.C.A. president to keep the organization running effectively.

Students to-day are so apt to be saddled with the responsibility of carrying through their own propositions that they hesitate to attend meetings, or when present are apt to remain silent most of the time.

Any group of men who are united in purpose and determined to carry through an effective piece of spiritual work can influence the whole University and get it done.

The distinguishing characteristic of a College Y.M.C.A. should be not merely its programme and its methods, but the personality and spirituality it expresses.

SPECIAL STAFF MEETING

Up to the present it has not been possible for the staff to consider together the following suggestions regarding different phases of University life which were made at the Staff Retreat next September. It is now proposed that a meeting to consider practical steps towards putting the most important of these into effect be held on Sunday afternoon, 28th October, at 3 o'clock in the Administration Building. A detailed announcement of this meeting will be made shortly. Meantime will the members of staff please read once again and consider carefully the above suggestions as they appear in Weekly Bulletins No. 27 & 28.

STAFF NEWS

From a letter recently received from Mr. Frank Harmon, we gather that he is making good use of his time, visiting hospitals in Toronto and New York. He is evidently enjoying himself and gaining information about hospital managements that will be valuable for the future, though he writes "I am beginning to believe that a visit to Hospitals at in China might be just as profitable as a visit to Hospitals at home, where the problems are entirely different in so many directions." He has since sailed for England, his family remaining in Canada until January. After a recent visit to Toronto, he has this to say:-

"I had a very jolly hour or two with Chang Pei-huai at Knox College. I called there and found him in charge of the College Library for the holidays. He is a great favourite there and has got along splendidly with his English. We made a sortie together to try and find a respectable Chinese Restaurant where we might dig up a little food resembling northern stuff. Such places as we visited were so though that we beaty hasty retreats and landed up eventually at Eaton's Lunch Room."

During the past weekend we were delighted to welcome Dr. L.H. Braafladt and his family after their extended absence, and the Rev: & Mrs H.F. Smith and family. Mr. Smith has come to join the staff of the School of Arts and Science in the Department of Education. After a few days' visit at Weihsien and Chefoo, they will return to take up their permanent residence on the the campus.

*and leaving on the*  
Dr. & Mrs Stearns and Master David ~~left by the Satur-~~  
 Monday morning express for the south, en route for America. The best wishes of the staff go with them. During furlough Dr. Stearns hopes to pursue post-graduate work on both sides of the Atlantic.

Dr. S. Waddell, who is hoping to come down at China New Year to remain among us, has meantime arrived in Tsinan to render temporary assistance in connection with the women medical students.

Dr. Ba Ta-chih and Dr. Wang Hwei-wen have been granted leave of absence in order to pursue post-graduate work during the autumn months in the P.U.M.C.

#### STUDENT GROUP MEETING

The first group meeting on Sunday evening to follow up the work of the recent Student Retreat was attended by some 30 or more students. The time was given to prayer and free discussion as to the best way to improve spiritual conditions among the student body, and provide for the most wholesome activities as an expression of our corporate religious life.

#### UNIVERSITY CHARTER

The matter of securing a Charter from the Canadian Government for the University has been entrusted to Rev. A.E. Armstrong of the Canadian Presbyterian Mission Board, Toronto. Considerable progress has already been made. Mr. Armstrong writes under date September 1st, "I think we will have the sympathy of the Prime Minister (Hon. McKenzie King), who has been in China, and Mr. Rowell's influence as former President of the Privy Council in Canada will carry great weight." An effort is being made to enlist the support of prominent University men in Canada. The Dominion Parliament meets in January, at which time our case will be presented. The prospects for success are good.

#### A VISIT TO NANKAI.

A Chinese University which includes four separate schools, and which out of a total annual budget of Mex.\$120,000 deliberately puts aside \$12,000 every year for the purchase of new books for its library is certainly a University which deserves study, and every succeeding visit to Nankai increases one's feeling of admiration of the spirit which inspires and pervades the whole institution.

The University is being built outside the city, at some little distance from the Middle School, but it is hoped, when funds suffice, to bring both Middle School and Collegiate Department together on one campus. Seeing that the former now has nearly 2,000 boys, and that over 300 men and women students are already enrolled in the latter, it is not hard to imagine the profound influence which such an educational institution will wield.

The buildings already completed include a large Administration Hall (with numerous classrooms and some temporary laboratories, library etc.), dormitories for about 250 students, and a group of very attractive, simple residences for members of staff. Each of the latter contains four living rooms and seven smaller rooms, and is built on bungalow style, at an average cost (including board floors, and installation of electric light and of water) of between Mex.\$2,000 and 2,5000! These houses are used by either western or Chinese teachers, and are indeed a model of simplicity. A large Science Building is in process of erection, and next year it is proposed to build a large library at an estimated cost of \$100,000.

Adjoining the Nankai campus, a College of Oriental Culture is to be built next year, under the presidency of Liang Chi Ch'ao, for post-graduate study in Oriental Literature and History, and for the training of teachers of those subjects. Nankai has already contributed the land for this new college, and has promised an annual grant towards its maintenance.

The courses offered at Nankai are arranged under four schools:

- The School of Liberal Arts.
- The School of Natural Science.
- The School of Commerce.
- The School of Mining Engineering.

Each of these schools is under its own Sub-Dean and Faculty, whilst Dr. Ping Ling is Dean of the whole Collegiate Department, acting under Dr. Chang Po-ling, who is president of both University and Middle School.

The religious life of the University is entirely controlled by the College Y.M.C.A., which is responsible for the arrangement of all religious services.

With the exception of the Chinese subjects, the whole teaching in the college is being given in English, the staff mostly consisting of returned students, with a few foreigners. Throughout all the departments there is a spirit of progress and of true efficiency which is most inspiring to see, and anyone who has an opportunity of paying a visit to Nankai will find his time amply repaid.

#### AUGUSTINE LIBRARY

The following books are the recent gift of Dr. Watson:

- Hey-Practical Observations in Surgery, illustrated by cases.  
This is interesting because of its historical value for it was published in 1810.
- The New Sydenham Society -- Atlas of Pathology.

The following books are the gift of Dr. Stearns:

Transactions of the American Gastro-Entrological Assn. 1904.  
Whitman--A Treatise on Orthopedic Surgery,  
Philadelphia General Hospital Reports, 1910.

Other new books are the following:

Muir--Handbook of Leprosy.  
Clark--Applied Pharmacology.  
Shockley--An Outline of the Medical Service of the Theatre of  
Operations.  
Mukherji--Infantile Cirrhosis of Liver.  
Naegeli--Blutkrankheiten und und Blutdiagnostik.  
McCollum--The Newer Knowledge of Nutrition.

PAOTINGFU NOTES.

Visit to Presbyterian and American Board Mission. During the two days that Dr. Palme spent at Paotingfu, an opportunity was kindly afforded him to meet the chief foreign and Chinese workers in each of the two Missions at work there, and to tell them something of the newer developments at Cheeloo. Several students within recent years have come to us from Paotingfu, both to the Theological and Medical Schools, and we are hoping that there may be others who will soon follow them, including some of the graduates of the excellent Girls School connected with the Presbyterian Mission.

An old Tengchow Graduate. It was a special pleasure to make the acquaintance of Mr. Chung Wei I, one of the earliest graduates of the Wen Hwei Gwan, Tengchow, and who today is one of the strongest members of the Paotingfu Presbyterian Church. Mr. Chung has had a most interesting career, as teacher at Truth Hall, Peking, and at the old Peking Academy (under Dr. Martin), and as a member of Dr. Hayes' Staff on the Provincial College, Tsinan.

Since 1900 he has been taking a leading part in the Tientsin Y.M.C.A. He is now engaged in special work amongst the intelligentsia of Paotingfu, where he is exerting a unique influence.

Educational Work in Paotingfu. With the exception of the Presbyterian Girls School, the schools connected with the two missions in Paotingfu are not continued beyond Junior Middle standard. There are however several Government institutions deserving of careful attention.

The Ho Peh University has been founded during the past two years, and is the successor of the former Provincial Higher Normal, Medical and Agricultural Schools. It is situated in commodious quarters, and at present consists of a Preparatory Department (Yu KÖ), a School of Medicine, a Law School, a School of Liberal Arts, and an Agricultural School. Each of the four schools gives a four-year course, but requires the two years of Yu Ko as a preliminary, these two years having alternative courses according to the particular school which a student intends to enter.

The Medical School is at present suffering for want of equipment, but it already possesses some keen teachers, one of whom, Dr. Wu, is a graduate of the University of Pennsylvania, and is already offering an excellent course in Biological Chemistry. No dissection is at present attempted, but I was greatly struck by a lecture in Anatomy which I attended (given by a returned student from Japan), and which was copiously illustrated by original drawings on the blackboard. These were copied by the students, who were also supplied with excellent lithographed drawings. There is not at present a proper Hospital, but a well organised Dispensary has been opened, with six well-equipped departments, all under the care of returned students. I was interested to find that the Doctor in charge of the Skin Department was taking a plaster cast of most of the interesting skin conditions which come to him for treatment, subsequently making a wax model from the casts so obtained, and painting these models so as to secure a permanent record of the case. A large number of these models have been mounted, and are exceedingly good. It was also of great interest to find that only women nurses are being employed, all of whom receive their training at the school.

Although it has not yet been possible to organise this medical school thoroughly, neither staff nor equipment being at all adequate, a most promising start has been made.

The Yu Deh Middle School, a private school with some 700 boys, is a most progressive institution, and well repays a visit. A strong athletic spirit runs through the whole school, and there appears to be a fine esprit de corps, judging by the number of old boys who are working hard for the institution as members of staff. The school owes a great deal to the interest formerly taken in it by Mr. Foster, a member of the staff of the old Provincial Higher Normal School, who introduced manual work, and organised a large and very successful workshop. The Yu Deh School is just commencing to admit girl students also on coeducational lines!

The old Provincial Higher Normal School has now been abandoned, but the Second Provincial Lower Normal School is in a very flourishing condition, and has recently obtained an excellent head in the person of Mr. Chang, a returned student from Columbia. Mr. Chang is introducing all kinds of new methods to stimulate the initiative and self-expression of his students, including various Debating Clubs, a Self-Government Society, Committees to take charge

of the Garden, etc. etc. There are at present about 400 boys, all Gao Deng graduates, and all preparing to be teachers of Elementary Schools under the new 6-6-4 system.

Two other Government Schools, one for Boys (the Sixth Provincial School) and one for Girls, also exist in Paotingfu, both of them doing excellent work along progressive lines.

#### INTERCESSION.

Members of staff are again reminded of the meeting to be held at the Administration Building on Sunday afternoon. A part of the time will be given to prayer together on behalf of the newly-formed group of students who are meeting each Sunday evening. That group is accustomed to give a large share of its time to intercession. Let us show our true community of spirit. "More things are wrought by prayer than this world dreams of".

#### ARRIVALS.

During the present weekend we are to have the pleasure which we have long experienced in anticipation, of welcoming Dr. E. Leonard to our city, campus and staff. That she comes with recovered health is an additional cause for genuine satisfaction.

Tsinan in general, and Cheeloo in particular, extend a hearty welcome to Mr. and Mrs. R.H. Stanley and family who have arrived, to become members of the local staff of the Young Men's Christian Association. Mr. Stanley was formerly in Kai-feng, but comes to Tsinan direct from a number of years of invaluable experience among Chinese students in Japan.

#### RECENT VISITORS.

On Sunday we received a visit from Mr. Roger Greene of the China Medical Board and from Dr. W.S. Carter of the Rockefeller Foundation, who went over the University buildings. Dr. Carter was formerly Dean of the Medical Faculty and Professor of Physiology of the University of Texas and is now connected with the China Medical Board. He has been delegated for the present two years to the University of the Phillipines. Dr. Carter went south on his way to Manila while Mr. Greene returned to Peking on Monday.

The visit of Dr. Haden, Dean of Theology, Kwansai Gakuin, Kobe, Japan helped to give us a more adequate conception of what the recent earthquake disaster means to the whole Japanese people.

#### LUNGSHAN.

A very live primary school has made its debut at Lungshan. The infant is doing well. On the opening day the teacher contrived to assemble all the interested parents for a talk on "How to Bring up Children". The premises secured are, commodious and clean, and situated in a quiet spot outside the town. One of the men specially interested in the enterprise is partner in a flourishing silk manufacturing business. Notwithstanding the competition of two other schools which receive official support, the school begins with a baker's dozen of boys in attendance.

#### WITH THE STUDENTS.

The Student Social Center, of an evening, presents an interesting sight. Evidently the small boys and girls of the vicinity find it irresistible. Long before they are expected they

crowd the courts and doorways and demand attention, in the form of correction at least!!! English classes attract students of all ages and from many different schools in the city. Co-education has already invaded the precincts and the need of women students for a place to gain practical experience is not overlooked. Credit is due to pastor Chang, Mr. Kwoh and the Board of students in charge, for the way in which they have accepted responsibility for raising a considerable share of the funds required, to help the plant in operation. The new Chairman of the Board is Dr. Li Tien-lu.

FOUND.

On the campus, one pair gold-rimmed glasses. Owner may have the same, on proof of identity, by application at the President's Office!!!

TO TRAVELLERS AND HOSTESSES.

A perusal of the recently published Railway Timetable suggests that after November 1st Tsinan visitors to Peking may be greatly reduced in number. Think of it! 2 a.m. in December!!!

GET THE HOLIDAY SPIRIT EARLY THIS YEAR

HERE AND THERE IN SHANSI.

Dr. Balme writes from Taiku, Shansi:-

"My last letter to you was written from Paotingfu, regarding which centre I sent you various notes. From there I made my way into Shansi, spending the night at the railway junction, Shih Chia Chuang where I had the pleasant experience of finding one of our old medical Graduates in charge of a promising little medical mission which the American Board Mission have recently opened. Shih Chia Chuang is a cesspool of iniquity, and I am

glad to think that Dr. Li, and the evangelists working with him, are trying to do something in the way of a witness to spiritual forces.

On reaching Taiyuan I was quite taken back by being met at the station not only by a contingent of the missionaries but also by no less than eleven old Cheeloo men, all of them occupying various positions of importance in the city. I had no idea that there were so many of our alumni there. The following day they most kindly entertained Mr. Williamson and myself at a Chinese feast, followed by a good talk about the University. They have now decided to form a branch of the Alumni Association and to continue to have meetings at regular periods. It was good to see their interest in Cheeloo, and their desire for fuller information about our newer developments. They urged that we should commence a University magazine without delay, and made various other suggestions regarding future plans and policies. Most of them are engaged in direct Christian work, two as pastors or evangelists, one as a doctor, and several as teachers; the remainder are following various commercial pursuits.

My four days in Taiyuan were very fully occupied. In the first place I was naturally anxious to get into touch with the missionaries and church leaders, and to see something of the work now going on in the mission schools and hospitals, both of which have grown greatly since my day. Arrangements were kindly made for me to go over these premises, and also to meet the missionaries and Church leaders (on separate occasions) for a good talk about Cheeloo. I also had the opportunity of addressing the school boys and girls, and appealing for future students for the university.

In addition to this, I visited some of the leading government schools, and met some interesting educationalists and others. I also paid official visits to the Governor and his Chief of Staff, to report regarding the Shansi students now in our own institution. All these things took up a good deal of time, but it was most encouraging to note the remarkable progress which has gone on during these last few years in the city and district. I could hardly find my way about the city, for everywhere there are new wide roads, big educational and military establishments, and imposing residences. The motor road, which now runs almost from Tatungfu to Yuncheng, is an extraordinary boon. In old days it used to take us two days on a cart to run up from Taiyuan to Sincchow, our nearest E.B.M. station, about fifty miles north of Taiyuan. On Wednesday Mr. Williamson ran me up there in his side car in a little over 2½ hours, and I was able to have over three hours with the friends there and still be back in Taiyuan in time for an evening meeting. We used the motor road also in coming on from Taiyuan to Taiku, where I arrived yesterday.

Once again I have been finding old Cheeloo men here, - two teaching in the Boys' School, one in the girls' school, and one doctor assisting Dr. Hemingway. It has been a very great pleasure to see them, and to hear of the good work they are doing. It is a fine school that the American Board has built up, with 33 boys in the Yu Ko, 165 in the Middle School, and fifty or sixty Primary. They have a good set of teachers too, and our old friend Su Ko Min seems to be looking after their science teaching in a way that we can be thoroughly proud of.

In regard to the government schools in Taiyuan, I was particularly struck with the serious effort they are making to provide teachers for the many elementary schools which have been opened throughout the province. Two large normal schools for boys, with over 2500 students between them, and a normal school for girls, are attempting to meet the need. The students are

gao-deng graduates, and are now being taken through a six-year course, including much manual work of various kinds. All the government schools are now working under the new 6-6-4 system, though the majority of the primary schools in the country only offer the first four years of the primary course."

#### VISITORS.

On Saturday last we had the great pleasure of welcoming Dr. Eliza E. Leonard on her way back from America. After a few days visit she has gone on to Peking, accompanied by Dr. Waddell, with the expectation of returning shortly to spend a large part of the fall with us. Meanwhile, pending Dr. Leonard's return, Dr. Heath is staying here.

Mr. Harry Clemons, Librarian of the University of Nanking, has spent two days with us on his way through to Peking.

#### STUDENTS' Y.M.C.A.

Forty students of the Medical Department combined to reorganize the Y.M.C.A. The following are the officers:

<u>General Executive:</u>	<u>Chairman:</u> Chang Hui Chuan.
<u>Recording Secretary:</u>	Sun Chien I.
<u>Corresponding Secretary:</u>	Tien Yeh.
<u>Bible Study and Prayer Meeting:</u>	<u>Chairman:</u> Mr. Liu I Peng.
<u>Social Service:</u>	Liu Chung Hsui.
<u>Finance:</u>	Wei Hsing Jang.
<u>Outside Relations:</u>	Chao Kwang Yueh.
<u>Music:</u>	Li Shou Ch'eng.
<u>Amusements:</u>	Chen Tsung Shou.
<u>Miscellaneous Affairs:</u>	Hou Li Shan.

Last Sunday evening saw a continuation of the student meetings which have been held during the past three weeks to consider the problems of the religious life of the University and of the Student Y.M.C.A. At this meeting it was decided to make a general organization for the University as a whole, and the matter was entrusted to a committee representing the different departments.

#### SPECIAL STAFF MEETING.

A special meeting of the Staff was held last Sunday afternoon to reconsider the various suggestions which were put forward at the retreat on Hsing Lung Shan, with a view to strengthening the corporate spirit among the students, and deepening their spiritual life, and to increasing our Christian impact on the life of the city. These suggestions had previously been worked over by a small committee and those which it seemed most possible to put into effect were brought before the meeting for discussion.

In order to leave time for prayer before the meeting closed, many suggestions were left untouched, and an opportunity will be given next Sunday afternoon to continue the discussion.

#### RELIEF FOR SUFFERERS IN JAPAN.

The following message has been received by Mr. Balme in acknowledgement of the two cases of clothing sent to the British Women's Association, Shanghai.

"On behalf of the Earthquake Refugee Committee, I have to acknowledge your very kind gift of two cases of clothes. These will be despatched to Kobe with the major portion of the clothes we already have in hand. We heard by cable yesterday

that the need for clothes for foreigners in Japan is great,  
so your welcome gift is just in hand.

Again thanking you,

I am,  
Yours sincerely,  
(signed)  
H.B. Dovey.

LOST PROPERTY OFFICE.

A good travelling rug, with initials "N.F." clearly marked in red, was left unclaimed after the recent Students' Retreat at Hsing Lung Shan. Will the owner kindly send for it and have it removed from the President's Office, where it is at present reposing.

MOTHERS' CLUB.

The Mothers' Club will meet next Monday, 5th November, in the McCormick Hall at 4:30 p.m.

Mrs. Harold Smith will give an address on "The Activities of Women in America".

SALE OF WORK.

A Sale of Taian industrial work, consisting of luncheon sets, tea cloths, tea napkins, children's clothes, toys, etc., will be held on Thursday, November 8th from 3 - 7 p.m. at the house of the Misses Dinkelacker.

SPECIAL STAFF MEETING.

The second of the special Staff meetings was held on Sunday afternoon. Although the attendance was much smaller, the interest shown was equally keen and several recommendations were passed which looked towards putting into effect the suggestions made at the Staff Retreat and at the last Staff meeting. In the main, these have been entrusted to regular University organizations such as the Senate.

VISITORS.

It has been a pleasure to have as visitors in Tsinan during the past fortnight Dr. and Mrs. Charles D. Tenney who have been staying with their son, the American Consul. Dr. Tenney is, of course, well known and greatly honoured as one of the pioneers and leaders in western education in China.

Her many friends rejoice to welcome back Mrs. R.C. Forsyth after an absence of several months. Tsinan has not seemed the same in her absence.

NEWS FROM MEMBERS OF STAFF.

A letter has come from the Cassats from Charinda, Iowa. They have found pleasant living conditions there, where several of Mrs Cassat's family reside, and have rented an apartment which is

the ground floor of a large residence, and are keeping house. Mr. Cassat is obediently devoting himself to the pursuit of health and all earnestly hope that he will be successful.

#### TSINAN LITERARY SOCIETY.

The November meeting of the Literary Society will, as usual, take the form of a concert, and will be held on Monday, November 12th, at 8.30 p.m. Mr. A.H. Hyland is kindly lending his house for the occasion.

The Hon. Secretary, Miss Morton Smith, would be glad to receive, before this meeting, any subscriptions which have not yet been paid.

#### AN URGENT CALL FOR THEOLOGICAL STUDENTS.

Of the various experiments which have been made within recent years for the opening up of new territory in China, one of the most striking, and at the same time one of the boldest, is that which has been conducted by the American Board Mission in the extensive territory which they took over a few years back from the English Baptist Mission, in North Shensi. This experiment owes its inspiration to the Rev. Watts O. Pye of Fenchow, who conceived the idea of covering the entire field with a large band of trained Chinese evangelists, and deliberately investing considerable foreign funds in the opening of out-stations at strategic centres; in the gathering together, for a three or four year course of training, of a large number of picked men; and of placing these men out in the centres so opened, and supporting them in their evangelistic work.

In order to build up this scheme, Dr. Pye first directed his attention to the strengthening of the ordinary educational institutions of the mission (particularly looking to the establishment of a strong Middle School), and the opening of a School for Evangelists, where men of spiritual gifts who had not had the privilege of a middle-school education could be suitably trained for pioneer work.

Dr. Pye then proceeded to make a careful survey of the whole field (which includes over 20 counties); dividing it up into 20 "Ch'us", over each of which he is endeavouring to place a well-trained Chinese superintendent - preferably a graduate of our own Theological School, or similar institutions. Each Ch'u is similarly divided into a number of evangelistic districts, in each of which Dr. Pye is planning to open up an out-station, and to place one of his trained evangelists.

As each new out-station is opened, the first duty impressed upon the evangelist is to make a careful and accurate survey and map of his district, keeping an exact list of all the villages contained in it. This list is kept in the station, and a copy of it (brought up to date) is forwarded from time to time to the superintendent of the Ch'u or to Dr. Pye himself. Under the names of the various villages are entered up the names of any people residing there who have already entered the Church, or are ready to be enrolled as enquirers. The main duty of the evangelist is to gather these Christians or would-be Christians into classes, and train them in Bible knowledge and soul-winning. In fact it may be said that the whole success of this great scheme rests upon the emphasis which is laid upon the duty of every individual Christian to win others, and thus organise little congregations of believers in the various villages and market towns. The evangelists are distinctly discouraged from spending too much of their time in preaching, either at the out-station

which they make their headquarters or in the market towns which they regularly visit. Their main function is to go round their districts continually, and train the new christians to preach themselves, to conduct services, and to win new converts. At the same time, the superintendent of each Ch'u is supposed to visit the outstations systematically, and to help the evangelists in their work of training and organising the new churches so formed, and of commencing fresh work in other centres.

Whenever men are found who appear suitable, they are encouraged to join the Evangelists school, and themselves undergo training. They to take charge of further out-stations. During their course of training each receives a financial subsidy; it is not however sufficient to cover all his expenses, the balance of which he must furnish himself.

Although this work is still in its infancy, the progress already recorded is remarkable. No less than 183 out-stations have been opened, each in charge of a full-time evangelist; 1200 people were received into the Church last year, and an equal number will be received this year; nearly 7000 people, in these many villages, are now enrolled as receiving instruction; and about 3000 have already become Churchmembers.

One thing is certain. Humanly speaking, the whole success of this effort depends upon the intensive training and sympathetic guidance of all who have a share in it - the new enquirers and church-members recruited in the towns and villages; and the evangelists placed in charge of each out-station and district; and the superintendents of the various "Ch'us".

It is for this work that Dr. Pye is appealing today to the Theological Schools, and especially to Cheeloo, and it is hard to think of any sphere which offers so magnificent a field of service to our theological students. The whole work is essentially Chinese. Its greatest menace is the possible lack of sanctified scholarship and tried experience on the part of its Chinese leaders. Given men of sound training, of full consecration, and of humble reliance upon the Spirit of God, who could assist in this task, and what may not be accomplished within the next ten years?

#### EDUCATIONAL DEVELOPMENTS IN SHANSI.

Amongst the many forms of constructive work initiated by Governor Yen Hsi-Shan, none takes a more prominent place, nor is more full of hope for the future, than his attempt to spread popular education. Schools of all types are to be found all over Shansi today, and there is probably a far larger percentage of the child population receiving elementary education than is to be found in any other province.

Naturally enough, with so many new village schools to provide for, the greatest problem of all has been the training of suitable teachers. Two Normal schools in Taiyuanfu are caring for over 2500 students at the present time, and others are to be found elsewhere. It will be some years before the teaching offered in the elementary schools is brought up to modern requirements, but the courses now offered in the Normal Schools give every hope for the future.

There are a large number of Middle Schools and Professional schools in the province, but these are also suffering at present for lack of suitable teachers. Most of them have good buildings, and a fair amount of modern equipment, but in the case of the Provincial Medical School in particular, there hardly seems anyone on the staff who is able to make use of the apparatus which has been purchased, a large part of which still remains unpacked.

The Mission Schools for Boys are all making good strides. Taiku, Fenchow, Taiyuan and Hungung are now all offering the full six year Middle School course, or will be doing so by next year, whilst Taiku also has a two year Junior College Department. Scientific equipment for individual instruction of students is inadequate in all these schools, and there is a sad dearth of science teachers. Attempts are being made in all of them to remedy this defect, and our old graduate Mr. Wu Ko Min is doing a fine piece of work in this direction in the Oberlin Memorial Schools at Taiku.

Girls education is still sadly neglected, and it was rather a shock to find that there is not a single Senior Middle Mission School for Girls in the whole province, and that the Junior Middle Girls Schools at Taiyuanfu, Taiku, Fenchow and Pingtingchow only have 63 girls between them. How far this is due to the unwillingness of the Shansi people to see their girls get a full education, or how far to the competition of the Government Girls Normal School in Taiyuan (which offers free board and tuition, and an assured salary at the end of training) it is difficult to decide, but it is a matter of serious moment to the churches.

#### CHEELOO GRADUATES IN SHANSI.

There is at present hardly a mission station in Shansi which is doing middle school or hospital work which has not at least one old Cheeloo graduate lending a hand, and it is most gratifying to find what splendid assistance they are most of them rendering. Of nine former students in our Medical School, seven are today engaged in direct mission hospital work in Taiyuan, Taiku, Fenchow, Pingtingchow, Liaochow and Showkang; whilst several of our Arts and Theological graduates are occupying important posts in the religious and evangelistic work of these and other stations. Altogether there are at the present time about thirty of our alumni scattered about in Shansi, the great majority of whom are in the direct service of the missions and churches. It was a unique pleasure to meet groups of them at the various stations, and to find how keen is their interest in everything related to their old alma mater.

#### AUGUSTINE LIBRARY.

Recent additions to the Library.

The following books are the gift of Dr. Watson:

Babinski and Froment. Hysteria or pathiatism.  
 Leri. Shell Shock.  
 Ombredanne and Ledoux-lebard. Localisation and extraction of projectiles.  
 Vincent and Muratet. Dysentery Asiatic cholera and exanthematic typhus.  
 Vincent and Muratet. Typhoid fevers and paratyphoid fevers.  
 Bourgeois and Sourdille. War Otitis and war deafness.  
 Thibierge. Syphilis and the army.  
 Imbert and Real. Fracture of the lower jaw.  
 Courtois-suffit and Giroux. The abnormal forms of tetanus.  
 Roussy and Lhermittee. The psychoneuroses of war.  
 Werster. The rules of aseptic and antiseptic surgery.  
 Smarch. The Surgeon's handbook.  
 Schlie. Prolonging and Feigning Sickness.  
 Klein and Smith. Atlas of histology.

The following books are the gifts of Mr. Struthers.

Abrami and other. Malaria in Macedonia.  
 Prince and Orenstein. Mosquito Control in Panama.  
 Reports of the St. Andrews Institute for Clinical Research.

The following have been received from Dr. Wheeler.

Rollier. Heliotherapy.  
 Addresses and Papers Dedication ceremonies and Medical Conference

PROCEEDS OF FOREIGN SCHOOL SALE OF WORK.

The Committee wishes to express its sincere thanks to the many friends of the Tsinan Foreign School who contributed so generously to the success of the Benefit Sale and Tea held last Saturday. A total of \$ 1,545 has been received, which, after deducting expenses (\$340) gives a net profit of \$1,205. This means that the School Building is built and paid for, the interest on the bonds is assured for year, and there is a small balance in hand from which to pay off bonds, and provide a central heating system or meet whatever financial need proves most pressing.

DEATH OF MRS CHALFANT.

It is with very sincere regret and with a deep sense of personal loss that we have to record the Home-call of our friend and colleague Mrs. William Chalfant, who passed away at Tsingtao on Thursday last.

Mrs. Chalfant's connection with missionary work in Shantung dates back from the time when she left a country home in England in order to come out to China as governess to the children of the late Rev. A.G. Jones. Her interest in the spread of the Kingdom of God in China rapidly deepened, and as soon as her work in Mr. Jones' family came to an end, she offered to the Church of England Zenana Missionary Society for service in connection with that Mission. For some years she was engaged in direct evangelistic work in Chekiang Province, only leaving it when she became the wife of the late Rev. William Chalfant. In this new capacity she identified herself from the first with the welfare of the students amongst whom Dr. Chalfant laboured, and after his lamented death she offered her services as a teacher of English in the Arts School. In spite of failing health she continued in that position until last summer, when a serious illness compelled her to send in her resignation.

She will long be remembered in the University not only as a painstaking and enthusiastic teacher, but as one who truly loved her students, and made their individual welfare a matter of personal concern. Our deep sympathy goes out to the four stepsons in America, to whom Mrs. Chalfant has been such a devoted mother. The youngest of these sons is at present studying medicine in Johns Hopkins University, and it had been a long cherished hope that he would one day return to China for medical missionary work. We earnestly trust that this prayer of Mrs. Chalfant may be fully answered, though we grieve to think that she will not be here to welcome him and to be associated with him in assuming his life-work.

A special Memorial Service will be held in the University church on Tuesday next, 20th inst, at 11 a.m.

#### DAY OF PRAYER FOR STUDENTS

As Sunday next, 18th November, is the day set apart by the World's Christian Student Federation as a special day of prayer for schools and colleges, arrangements have been made for the holding of a special service for all Christian students in the City, to be held in the University Church at the usual hour. The preparations for this service are in the hands of the Student Y.M.C.A.'s, who are expecting to have as many as 1000 students present from the following institutions:-

Shantung Christian University  
Chi Mei Middle School  
Han Mei Girls' Middle School  
City Y.M.C.A. and Y.W.C.A.  
Invited guests from Government Schools.

All members of the University Staff and their families are cordially invited to join in this service of intercession. The speaker on the occasion will be Mr. R.H. Stanley.

#### MEETING OF ADMINISTRATIVE COUNCIL.

As will be seen from the Weekly Calendar, the Administrative Council of the Field Board of Managers expect to hold their autumn meeting during the coming week, to be preceded by a special meeting of the University Finance & Property Committee.

#### UNIVERSITY LECTURE COURSE.

It is a matter of regret that owing to various unavoidable reasons, it has not been possible to commence our autumn course of popular lectures as early as was the case last year.

Arrangements have been made for six such lectures during the present term, and there is every reason to expect that they will

prove as interesting and helpful as during the past two sessions. The programme is as follows:-

December 6 (6.30-7.30 p.m.)	"The True Spirit of Scientific Investigation" (bilingual)	Dr.P.C.Kiang
December 13	"Some Social Problems of the Modern City" (English)	Rev:A.G.Parker
" 20	"Psychology and Moral Culture" (bilingual)	Dr. T.L. Li
" 27	"Demons" - (Chinese)	Prof. H. E. Wang
January 3	"Religious Aspects of Some Contemporary Philosophy" (English)	Rev: L.V. Cady
" 10	"Leprosy" - (English)	Dr. L.F.Heimbürger

#### STAFF MOVEMENTS

Letters have been received during the past few days from various members of the staff at present on leave.

Mr. Burt writes from Bath, where he and Mrs Burt have now taken up their residence. He had been present with Dr. Bruce at the September meeting of the British Joint Board, and since then had been engaged in deputation work in Leicester and Birmingham in place of Mr. Whitewright, who was unfortunately not well enough to keep his engagements. Mr. Burt was also expecting to visit Coventry and Manchester and other places.

A letter from Mr. Whitewright speaks of the great success of the World Baptist Conference at Stockholm, where he had been in charge of the exhibition, and where he tells us that the photographs of the University were by far the most complete of any institution represented. Unfortunately neither he nor Mrs. Whitewright was in a very good state of health at the time of writing. He sends his warm greetings to all members of the University. Miss Ethel Whitewright was expecting to sail on "The City of Paris" with Mrs. Wheeler on October 20, so they should be amongst us again by the end of this month.

A letter from Dr. McAll brings the news of his safe arrival in England, and of visits paid to the office of the British Joint Board. He is hoping to start back for China about the end of January, and to reach Tsinan during the first half of March.

A long and cheery letter from Dr. Neal tells us that he and Mrs. Neal are now settled for the winter in Philadelphia, after a very good summer holiday. He speaks of the great outpouring of sympathy which has been manifested in America as a result of the terrible calamity in Japan. Dr. and Mrs Neal are both following with close interest every detail of the work of the University, and although they do not at present hold out much hope of being able to re-visit us, we are sure of their constant sympathy in everything that is going on.

Mr. Drake is at present securing some practical experience in teaching, as one of the assistant masters of Eltham College. We are delighted to learn that as a result of the special work which he carried through last year at the London Day Training College. he has been awarded the Diploma in Teaching.

Dr. Ellis has been in the United States since August, but was expecting to sail from San Francisco on November 10. We are

hoping before long to receive news of his arrival in China, but he is expecting to visit some of the stations of his Mission in Kwangtung and Central China before arriving in Tsinan.

We are indeed glad to be in a position to welcome Dr. Leonard as a permanent resident amongst us. She has returned from Peking this past week, and will now be taking up her settled abode in Tsinan.

#### DR. BALME'S TOUR IN HONAN.

The following notes of places visited by Dr. Balme during his recent tour in Honan may be of interest to readers of the Bulletin:-

##### Government Higher Education.

Plans are on foot for the establishment of a Provincial University in Honan under the name of the Chung Chow Ta Hsueh. This institution is situated in Kaifeng, and has already been organized on the site of the former Liu Mei College, which acted as a preparatory school for students proceeding to America or Europe. It is proposed that the new University should also incorporate the Provincial Law and Agricultural Schools, to which it is hoped that other departments may be added in the future. The principal Mr. Chang, is a returned student from the United States and became a member of the Methodist Church whilst staying there. He was one of the delegates to the Educational Conference held in Tsinan in 1922, and gave us a hearty invitation when we visited his College last week. There are at present 300 students in residence, but more than half of these are still doing Middle School work. A good force of teachers is being recruited, several of them having had special training abroad. Dr. Hargrove, a former member of the Southern Baptist Mission is now giving his whole time to the English Department in this University, where there are excellent opportunities for Christian work. Dr. Chang invited me to address the student body, and spoke most sympathetically on the needs of China for Christianity.

##### Mission School in Honan.

During my visits to Kaifeng, Changte, Weihwei and Chengchow, I had the privilege of visiting the boys' and girls' schools connected with the Southern Baptist Mission, Canadian Church Mission, and the Canadian Presbyterian Mission in those cities. The largest of these schools is St. Andrew's School, Kaifeng, where there are now nearly 400 boys, and where the school is entirely self-supporting, apart from the salaries of the foreign teachers. This institution is being run as an Anglo-Chinese School, half of the instruction being given in English, and is attracting an influential type of student. Although the majority of them at entrance are non-Christians, almost all have so far entered the Church before graduation. The school is well housed and equipped.

The Southern Baptist Boys' School at Kaifeng (which also has excellent buildings and equipment), and the Canadian Presbyterian School at Weihwei, are both planning full Middle School courses, under the 6-6-4 scheme, but at Changte and Chengchow only Junior Middle Boys' Schools are at present being conducted.

Girls' Education in Honan, as in Shansi, is distinctly backward so far as the number of scholars in Middle School is concerned. The Canadian Church Mission, and Southern Baptist Mission at Kaifeng both have excellent plans, and there is also a good Girls' School connected with the Canadian Presbyterian Mission at Changte. In all these institutions, however, there is a shortage of well-qualified teachers, and an almost complete absence of scientific equipment.

Our recent developments in the University are being watched with great interest by these various schools, and in particular by the authorities of the Girls' Schools, who greatly welcome the new facilities which we are now offering to women students. The lack of easy communications between northern Honan and Tsinan is, however, a serious handicap, and is likely to remain so until the long-talked-of railway, connecting us directly with the Peking-Hankow line, is completed.

#### CHENGCHOW Graduates in Honan.

There are more than 30 of our old graduates at work in Honan, the largest number being employed by the Southern Baptist Mission at Kaifeng and Chengchow. At both of these cities I had the pleasure of meeting groups of alumni, and of telling them something of recent developments in the University. They include the following names which will be familiar to many members of our staff:- Dr. Li Ching-heng and Mr. Ch'en Sheng-lin (one of our first graduate male nurses) who are both doing excellent work in the Southern Baptist Hospital, Chengchow; Revs. Kao Teh-cheng and Yin Hsueh-dzeng, who are acting as pastors in Chengchow and Kaifeng, respectively; Mr. Teng Sheng-chieh, secretary of the Chengchow Y.M.C.A., Mr. Liu Hua-t'ing, Mr. Yueh Yu-chiao, and Li Fang-lin, who are all helping in city evangelistic work; Mr. Nieh T'ung-liang, and Mr. Hsu Tao-ch'ang, who are engaged in pastoral and evangelistic work in country districts around Kaifeng; and Messrs. Yin Hsueh-kung, Shen Yung-ch'ian, Swen Chao-ch'ing, who are employed as teachers in the Southern Baptist Boys' Schools. I also had the pleasure of meeting two of our medical graduates, Dr. Liu Kwang-cheng, and Dr. Huo Chi-ching, both of whom are now engaged in private practice.

It was very delightful to see the enthusiasm of all these alumni, in meeting with anyone who could bring them the last news of the University, and they are now planning to form a Honan branch of the Alumni Association, and to hold regular meetings. If as we hope, the new Alumni gate is erected next year, we must certainly plan to have a special Alumni Day, and I hope we shall see many of these old graduates come back to re-visit their alma mater.

#### ASHES WANTED, PLEASE

This is just a reminder that we are planning to do great things with the Athletic Field next year, as the result of a kind anonymous donation which has been sent for the purpose of levelling and improving it. We shall therefore need all the ashes that we can possibly collect during this winter, and should be most grateful if householders and those in charge of the various college and hospital buildings would arrange to have them all reserved for the purpose. Notices will be sent out later with regard to the matter of collection, etc.

#### AUGUSTINE LIBRARY

"It will be of interest to all to know that during the month of October, 803 books were borrowed from the main library; 258 of these were English books. The total number, 803, borrowed this October is an increase of 350 over the corresponding month of last year."

MEMORIAL SERVICE FOR THE LATE MRS CHALFANT

An impressive service was held in the University Chapel on Tuesday morning in memory of our friend and colleague, the late Mrs William Chalfant. A large congregation was present, including the whole student body, the staff, and several missionary friends from the community. The service, which was conducted by the Rev. J.J. Heemen, was marked throughout by a spirit of devotion, and of thankfulness to God for the life and service which Mrs Chalfant had so gladly given to the country of her adoption. The special hymns for the occasion - "Now the Labourer's Task is O'er" and "For All Thy Saints", - were sung with feeling by the whole congregation, and the beautiful anthem "What Are These That Are Arrayed In White Robes?" was rendered by a special choir. Reference having been made to the great services which had been given to the University, both by Dr. and Mrs Chalfant, the memorial address was delivered by Professor Wang Hsi-en, who referred to Mrs Chalfant's valuable work as an educator, a philanthropist, and a devoted Christian.

### VISITORS TO THE UNIVERSITY

During the past week we have had the pleasure of welcoming back among us a very special friend of the University, in the person of Mrs H.W. Luce, who was for so many years associated with the Arts & Science School in Weihsien. We have also been delighted to have a visit from Dr. Biederwolf and Mr. Rodiehaven, who conducted a special service for our students last Monday morning, and from the Rev. W.L. Oakes, B.D., a member of the Wesleyan Methodist Mission in Hunan.

### OPENING OF WEIHWEIFU HOSPITAL

Our hearty congratulations are extended to our friends and colleagues in the Canadian Presbyterian Mission, and especially to Dr. F.M. Auld and Mrs Ratcliffe, on the successful opening of the beautiful new hospital erected by their Mission at Wei-hweifu. The University was represented at this function by Dr. Balme and Mr. MacRae, and the whole ceremony passed off most happily. A large company of Chinese officials and gentry and of missionary friends were present, and a very interesting address was delivered by Surgeon General Ch'uan. The Hospital has been erected and equipped on thoroughly modern lines, and although funds have not so far sufficed to complete the furnishing of the building, the wards that have already been fitted up are exceedingly attractive and pretty. It is a matter of particular interest to us at Cheeloo to know that Weihweifu, the city where our colleague, Dr. McClure, built up his great medical reputation, now has so up-to-date and efficient a Mission Hospital.

### CHAPEL SERVICES

It is not proving a very easy task to cultivate amongst our students a real spirit of devotion and worship, and an earnest appeal is addressed to all members of the staff to do everything that lies in their power in this direction. Ever since the new Church was opened we have been trying to make the services truly reverential, and to stop all tendency towards conversation or other distractions during the period immediately proceeding or following our religious gatherings. We certainly do not want our meetings to be stiff or formal, but it would mean much to our students if they could develop habits of quiet meditation and prayer at the commencement of all Chapel services, and we should indeed be thankful if all faculty members would endeavour to impress this upon them.

### VOLUNTARY HELPERS FOR THE UNIVERSITY

Recent letters from England bring the gratifying news that Mrs John Carr, whose visit to Tsinan last year will be remembered by all, has kindly offered to assist Dr. Moorshead and Dr. Bruce in the secretarial work and promotional activities of the British Joint Board of the University. Dr. Bruce and Mrs Carr are both expecting to spend a considerable amount of time this winter in the effort to create and develop new interest for Cheeloo in various centres in Great Britain. At the same time Mrs Oliver Todd, who most generously assisted Mr. Whitewright in the work of the Institute while resident in Tsinan, is busily occupied in the task of finding new friends for our Extension Department in the U.S.A. Our sincere thanks are offered to both these voluntary workers.

### VASTER MUSIC

The Christian enterprise needs men and women of large heart and mind. If we saw more clearly the wide horizons, we should be less troubled with the little hindrances and interruptions to each day's work. An even temper, long patience,

readiness to start again cheerfully when all our work has been destroyed, the quietness and confidence that grow out of secret communion - are not these some of the things that count most in building the city of God?

Many lives seem to be out of gear in some subtle way. They just miss the balance and poise that ensure smooth work even at high pressure. Yet it is these qualities which ought peculiarly to mark the disciple of Jesus Christ. With what calm He faced opposition and misunderstanding! How patient he was with the stupidities of his disciples! How perfectly adjusted and balanced his whole life seems, as contrasted with our one-sided personalities!

There is one direction in which this lack of proportionate development has often resulted in strain, not only in the individual but in the Christian society. The mind and the soul need to grow together. A mind which advances too rapidly for the soul leads to cleverness without principle, to knowledge without reverence. Even in the Church there are many such cases. Men acquire knowledge on many subjects, in themselves very important, and become arrogant, cock-sure, intolerant of opposition. One cannot meet them in argument, perhaps, and therefore one is only a subject for scorn. Such knowledge "puffeth up." It tends to division. Argument is irritating rather than persuasive. A man becomes more keen to prove that he is right and you are wrong, than to discover the truth of which even his opponent may possess some fragment. The life gives forth a clanging sound which jars on the sensitive ear. Even where he is right such an one throws his hearers into violent antagonism just because he puts his case in so provocative a way.

On the other hand we have the phenomenon of the person who sets knowledge at naught. He distrusts the mind which God has given him. He lives in a world of emotion and beautiful phrases. Try to pin him down to a concrete proposition and he runs away into the forest of sentimentalism. Always working for a fresh emotional crisis he forgets that man cannot live on these things alone, and has a mind as well as a heart with which to love and worship God. Advance in the spiritual life for such a person is simply a new wave of fine feelings and enthusiasm. But instead of this being a real forward move it is simply the washing back and forth of the tides of emotion on the shores of life. How can such an one win strong men and women into the Kingdom? The falsette screech soon replaces the song which stirs the deeps of personality.

Truly and beautifully does Tennyson warn us against either of these extremes:

"Let knowledge grow from more to more  
But more of reverence in us dwell

That mind and soul, according well,  
May make one music as before-  
But vaster."

This is our need in China -- the vaster music which comes from growth of mind and soul in perfect harmony. The retreat which is nothing but an emotional storm is a spiritual luxury which disintegrates the fibre of our inner life. The discussion which moves only in the plain of dialectic and never touches the deeper springs of life is arid and profitless. Merely to argue or merely to feel deeply will not be enough. Combine thought and feeling, discussion and prayer, the search for truth with the worship of God, and our lives will give forth this vaster music in which knowledge and reverence are harmonized, and the song swells with a beauty and winsomeness that cannot be resisted.

By Dr. H.T. Hodgkin  
From National Christian Council Bulletin.

WELCOME TO NEW MEMBER OF ARTS FACULTY

It is with special pleasure that we have to announce that Mrs Henry Payne, who has most kindly assisted in the Arts School throughout this term, by taking over Mrs Chalfant's English classes, has now been appointed lecturer in English, and a member of the Faculty of the School of Arts and Science.

STAFF MOVEMENTS

A letter just to hand from Mr. P.C. Cassat brings the news that he has been very carefully examined by one of the leading physicians in Iowa, who has placed him on a special form of treatment and diet. Mr. Cassat is not allowed to take part in any physical exercise, but is permitted to take a small share in office work. Although definitely prohibited from returning to China for the next 10 months, the physician who has examined Mr. Cassat holds out hope that he may be allowed to return at the end of that time, provided there is no evidence of progress in his complaint.

Mr. Cassat writes, "Three of the September Weekly Bulletins have just arrived a few days ago; and we read them through before we touched our other letters, - we were so glad to hear from Tsinan. Every bit of news is so welcome, and we look forward to it eagerly. The enrolment is splendid. I fear the new Women's Compound will be swamped before many semesters roll by."

AUGUSTINE BIBRARY

The following books, the gift of Dr. Wheeler, have recently been received at the library:

The Poetical Works of Longfellow.  
Childers-The Riddle of the Sands.  
Trollope-Barchester Towers.  
Mabie-Method in Soul-winning.  
Benson-Crescent and the Iron Cross.

Other books received are:

New Century Bible- Psalms, in two volumes.  
British Pharmaceutical Codex, 1923.  
Schall-X-Rays, Origin, Dosage and Practical Application.

The editor of the China Medical Journal presented us with a copy of Lockhart and Mummery--Diseases of the Rectum and Colon and their Surgical Treatment.

AN APPEAL TO THOSE WITH GUILTY CONSCIENCES!

Several Literary Society subscriptions have not yet been paid, and the Hon. Secretary & Treasurer, Miss Morton Smith, appeals to those whose consciences are, or should be, pricking them, to send in their subscriptions "not immediately, but sooner, much sooner."

VISIT OF PROFESSOR JOHN M. COULTER

The University has been greatly privileged during this past week by the visit of so distinguished a scientist as Professor John M. Coulter of the University of Chicago, Chairman of the Botanical Section of the National Research Council of the U.S.A.

Since the days of Henry Drummond there have been but few scientists who could present in an acceptable manner to the student world a well-reasoned and fair presentation of the claims of religion and science. Religious leaders have in only too many

cases have been afraid of close contact with the dicta of science; whilst scientists on their part have often betrayed a contempt based upon ignorance of the claims of religion. Professor Coulter is fortunately one of those men who have given serious thought and study to both, and is able, therefore, both to appreciate and interpret the essential unity of religious and scientific truth. The four lectures which he has given to the whole student body and staff during this past week, have been deeply appreciated, and have left an impression that will not easily be effaced. The fearlessness of his convictions and the restraint of his language, were peculiarly suited to a University audience, whilst the eminent position which he occupies as a botanist, gives him the authority to speak with weight upon the subjects which he chose for his addresses: They were as follows:-

"Science and Religion"  
 "Botany as a National Asset"  
 "The Present Status of Evolution"  
 "The Religion of a Scientist"

In addition to delivering the above four addresses in the University Chapel, Professor Coulter was good enough to lecture to the Science Seminar of the University staff, taking as his subject "War Time Re-construction in Agriculture in the United States". It was very fascinating to hear of some of the far-reaching experiments which were conducted by the Botanical Section of the National Research Council during the war, and of the immense advantage which this Research meant to the country, both in the expansion of agriculture, the preservation of crops against drought and disease, and the securing of suitable substitutes for raw products previously imported into America. It was delightful to hear, for example, that the first specimen of drought-resisting corn, by means of which some of the semi-arid districts of America are now being cultivated, was secured from China; that the first sample of the original wild wheat was found in Palestine and Syria; and that when the botanists of the United States searched for a food stuff for their soldiers which would contain the maximum amount of vitamine, and thus produce the maximum amount of "pep", as Dr. Coulter put it, they found it in our good old friend, the Chinese soya bean.

Professor Coulter himself was born in China, his parents being missionaries at Ningpo. Both he and Mrs Coulter (who has for many years held a most prominent position in the Presbyterian Women's Board, Chicago), have a keen sympathy with all forms of Mission work, with the details of which they are thoroughly familiar. Professor Coulter's visit to China is in connection with the National Society for the Advancement of Education, and it is most encouraging to think that the fearless and inspiring lectures to which we have had the privilege of listening, will be delivered in Government Schools and Colleges throughout this country.

WELCOME TO DR. & MRS ALEC A. LEES

On behalf of the Cheeloo Staff we would like to extend a very warm invitation to Dr. & Mrs Lees of the English Baptist Mission, Shensi, who expect to be resident in Tsinan for the next few months, Mrs. Lees being forbidden on medical grounds to return at present to the interior. Dr. Lees will be attached to the staff of the School of Medicine and Hospital during his temporary location here, and will be assisting in the Department of Surgery.

MEETING OF ADMINISTRATIVE COUNCIL.

The Administrative Council of the Field Board of Managers met in Tsinan on 22nd November, under the chairmanship of Dr. Chang Po-ling. From the Minutes which are now being circulated, it will be noticed that the main actions taken have been as follows:-

- (1) The definition of the Functions of the Vice Presidency - to which office a warm invitation is being addressed to Dr. Cheng Ching-Y.
- (2) The reference to the Senate and to the Arts Faculty of the suggestions which have come from the Joint Boards as to the possibility of securing temporary facilities for practice teaching in connection with the new Teacher-Training Department, pending the provision of funds for the erection of a University Middle School.
- (3) The appointment of Mr. Gady as Acting Dean of the School of Theology during Mr. MacRae's absence; of Dr. Li Tien-lu as Head of the Department of Education, and of Dr. Maitland as University Health Officer.
- (4) The appeal to the American Presbyterian Mission for a new appointment as Head of the Department of English in the University.
- (5) The appeal for funds for the extension of Water Supply and Fire Protection.
- (6) The Reservation of sites from the campus for an Alumni Building, Primary School in connection with Follansbee Village, and a Frog-pond!
- (7) The recommendation that charges for the extension of water-supply, electric mains, new roads, etc., be assessed against the buildings to be served by the same, and also that a rate be levied against all property in the University for the maintenance and upkeep of such services.
- (8) The recommendation that tuition fees for Arts and Science and Medical Students be raised by \$10 per annum, commencing from September next.

The above actions need the official endorsement by the Field Board and by the Home Joint Boards before they come into operation.

NEW CHINESE MEMBER OF STAFF.

It is with very great pleasure that we are able to announce that our Chinese staff is expecting to be reinforced next spring by the addition of one of our own Arts graduates, Mr. S.C. Lo, who has had a valuable experience as a student in America, as a Y.M.C.A. worker with the Chinese Labour Corps in France, and as the Head of one of the stations of the American Baptist Mission, North. Mr. Lo is himself a Shantung man, and his presence on the staff of the School of Theology should be a real source of strength. Mr. MacRae has kindly furnished us with the following additional notes with regard to him:-

"On his return from abroad early in 1922, Mr. S.C. Loa, M.A., was invited through the Field Board of the University to join the staff of the School of Theology. At that time he was anxious for an opportunity to gain further knowledge of Church life in China. He immediately undertook an important task at Kihwa, Chekiang, where he has since been in charge of both evangelistic and school work. During the past week we have just received the welcome news that he will return to his alma mater to assume his duties from the beginning of the Spring Term, 1924.

Mr. Loa studied in Columbia University and Union Theological Seminary, New York. He also spent some time in France with the Chinese Labour Corps, where he gained invaluable experience. "

#### OPENING OF LECTURE SESSION.

The first lecture of the new series will be delivered in the Augustine Library on Thursday next, 6th December, by Dr. P.K. Kiang, whose subject will be "The True Spirit of Scientific Investigation". Dr. Cochran will take the Chair, and we understand that the Lecture will be delivered both in English and Chinese.

#### STAFF MOVEMENTS.

It has been a great pleasure to see Mrs Wheeler with her two little girls back among us this week, and at the same time to welcome Miss Ethel Whitewright. When Miss Whitewright left England her father and mother were still undergoing special medical treatment in a nursing home in Bristol, but we are hoping that we may soon have news of their recovery.

A letter from Dr. Ellis, written from San Francisco shortly before sailing, brings word that he and Miss Nunn both expect to reach Tsinan a few days before Christmas. Dr. Ellis writes:- "I have travelled 6000 miles on this continent, visited 18 leading hospitals, 12 Universities, a five-day X-ray Conference, and addressed the New York Roentgen Ray Society. I have the spiritual support of the late, and of the new Editor of the Journal of Roentology, both Christian men, and am bringing back from them two piece of X-ray apparatus (personal gifts), with a good deal of interest and enthusiasm."

#### ATHLETIC CONTEST WITH T.A.C.C.

The Athletic Association has received an interesting challenge from the Tientsin Anglo-Chinese College to meet their representatives in Foot-ball, Basket-ball, and Cross-Country Running, on Saturday, 17th December. The Tientsin College, which has a fine reputation for athletics, is sending down teams to Tsinan for the purpose of this contest. We shall have to do some hard practising if we are to hold our own against such worthy opponents.

#### MORE ASHES, PLEASE!

Mr. Li Wen-chang has arranged for a special coolie to call every two or three days at the various University buildings and residences, in order to collect your ashes. He will wear a special p'ai tzu, with the stamp of the University upon it, so that there will be no difficulty in recognising him, and we would be grateful if householders will kindly allow him to remove all ashes for the purpose of our new cinder track.

STUDENTS' TRAVEL BANDS

The Faculties of the Arts & Science and Medical Schools are making arrangements for the graduating classes to have their final examinations this month, so as to permit those students who are successful to take a tour round some of the chief educational centres before their graduation. There is great enthusiasm among the students with regard to this scheme, and the whole initiative in the matter has come from them. The Arts and Science students are planning to visit Tientsin, Peking, Nanking, Soochow and Shanghai; whilst the medical students will probably confine their trip to the north. In each case a member of Faculty will accompany them, and most of their time will be spent in visiting other colleges.

LIBRARY MAGAZINES AND JOURNALS.

It may not be generally known that members of staff are not only welcome to borrow books from the Library, but also to have the use of the magazines and journals which are taken in there. Current numbers can be removed for a single evening, from 9.00 p.m., but must be returned the following morning at 9.00 a.m., whilst back numbers can be borrowed for the same length of time as ordinary books, namely, three weeks. The following magazines and journals are at present received:-

American Historical Review	International Conciliation
British Weekly	International Review of Missions
Chemical Abstracts	Journal of Agricultural Research
Chemistry & Industry	Journal of American Chemical Socy
China Illustrated Review	Journal of Home Economics
China Journal of Science & Arts	Journal of Religion
China Review (American)	Kyoto Imperial University
China Weekly Review (Chinese)	Lingnaam Agricultural Review
Chinese Social & Political Science	Mentor
Chinese Students' Monthly (Review	National Geographic Magazine
Christian Century	Natural History
Current History	New Statesman
Educational Review (Chinese)	Outlook
English Student	Physical Review
English Weekly	School Review
Experiment Station Record	School Science and Mathematic s

NEWS ITEMSOUR FIRST ANNIVERSARY

It is just a year since the first experiment was made in putting out a modest little type-written paper under the title of "The Cheeloo Weekly Bulletin". Since that time the paper has expanded both in size and circulation, and to-day it is not merely doing duty as a circular letter amongst members of staff, but is also carrying information regarding the University to members of the Boards, to missionaries in other stations, and to friends in the home-lands.

The publication of such a paper presents, however, a certain expenditure both of time and money, and we propose next week to issue a series of brief comments on the question, "Is the Bulletin Worth Continuing?" Any who read the paper will be welcome to send in their views on this point (anonymously, or under a nom-de-plume, if they so prefer), and we will endeavour to publish them however unflattering they may be!

VISIT OF MR. GARDNER TEWKSBURY

During the coming week we are looking forward to the pleasure of a visit from Mr. Gardner Tewksbury, who will be conducting some special meetings in the University and helping forward evangelistic work amongst the students. It is probably known to all that Mr. Tewksbury is one of the secretaries of the Chinese Student Volunteer Movement, but during this present term he has been specially set aside for evangelistic work in schools and colleges. His main emphasis is not on the conducting of large meetings, but rather upon personal intensive work amongst students who are needing spiritual help. His visit amongst us is most timely, coming as it does at a moment when our own Student Christian Associations are feeling anxiously the need of a forward movement throughout the University. The special meetings for prayer and conference which have been held by a group of students ever since the Hsing Lung Shan Retreat ought to prove to be the best possible preparation for the special effort to be put forth next week. Although these Sunday evening meetings have not yet resulted in the amalgamation of the separate Y.M.C.A.s in the University, they have been attended by representatives from all three schools, and have thus helped to concentrate attention upon a common objective. The Medical School Y.M.C.A. which has been revived since the beginning of these meetings, is already shewing most encouraging signs of activity, and it is confidently hoped that before long we shall see an energetic Student Christian Association working through all departments of the University. Mr. Tewksbury's visit, emphasizing as it does the call for individual consecration and service, should bring new stimulus to the spiritual forces of the students, and will be followed by continued prayer and sympathy from us all.

### UNIVERSITY CHRISTMAS PARTY.

The Christmas party which was held last year for the children of the University staff proved to be such a happy and successful occasion that several are enquiring whether it is intended to repeat the experiment this year. A meeting will be held in McCormick Hall next Monday afternoon at 5 o'clock to decide this question, and to elect any committees which may be necessary, in the event of those present feeling that such a party should again be held. All members of the staff and their wives will be welcome at this meeting.

### ATHLETIC MEETING.

The announcement in last week's Bulletin with reference to the Athletic Contests with representatives of the Tientsin Anglo Chinese College, was not quite accurate in the matter of date. The T.A.C.C. men expect to arrive here on Friday evening, 14th December, and it is proposed to hold one of the matches (either football or basket-ball) on the following day, 15th December, leaving the remaining contests for Monday, 17th December.

A special meeting of the students will be held in the Institute next Saturday evening at 7 p.m. in order to consider the necessary steps for the reception of the Tientsin delegates, and for the conduct of these matches. Members of staff will be welcome at this gathering. Let us see what we can do to strengthen the athletic spirit amongst the students, and secure a thoroughly sporting contest with the T.A.C.C.

### STAFF MOVEMENTS

As a result of an appeal from Shansi, Dr. H.W.S. Wright has left Tsinan in the early hours of last Saturday morning to proceed to Tai Yuan Fu for consultation over the case of one of the English Baptist Mission nurses in that city. Our friends in Tai Yuan Fu have not only had this anxiety upon their shoulders, but have recently passed through the sore trial of seeing their fine Men's Hospital burnt to the ground.

### CONGRATULATIONS

The Bulletin begs to extend its very warm and sincere congratulations to Mr. & Mrs McHardy on the birth of their little daughter, Fiona. We are hoping later to discover where such an intriguing name comes from!

### SHAKESPEARE RECITAL

Literary Society members and lovers of Shakespeare are heartily invited to the meeting of the Literary Society, to be held on Monday next at 8.30 p.m. in the Medical School Assembly Hall, where the Rev. E.J. Bentley of Peking will favour us with some recitations from Shakespeare, and other writers. Those who heard Mr. Bentley's lecture last year will need no second bidding to come, whilst we hope that those who have been less favoured in the past will now seize the opportunity which the Literary Society has secured for residents in Tsinan.

AUGUSTINE LIBRARY

Dr. E.M. Merrins, Editor of the China Medical Journal, has presented the Library with the following four books:-

Falta and Meyers	....	Endocrine Diseases.
Levinson	....	Cerebrospinal Fluid
Sampson	....	Physiotherapy Technic
Lebat	....	Regional Anaesthesia.

Other new books added are the following:-

China Ministry of Communications..	List of Post Offices	
Fairgrieve	....	Geography and World Power
Bosanquet	....	The philosophical Theory of the State.
Carlyle	....	Mediaeval Political Theory in the West. Vo.I.
MacDonald	....	Select Charters Illustrative of American History
Stoddard	....	The Rising Tide of Color
Huntington and Cushing		Principles of Human Geography

Profcssor George B. Barbour, Profcssor of Geology at Yenching University, has presented the library with a reprint of 40 pages dealing with the local geology of Tsinan. It is entitled "The Tsinan Intrusive".

The Medical Library is now receiving a new magazine, "Hygeia". This magazine began to be published in April, and the Library now has all copies from the beginning.

During the month of November more books than every before (1000) were borrowed from the main library. One fourth of these were English books.

VISIT OF MR. GARDNER TEWKSBURY

It has been a great pleasure to us all to have Mr. Gardner Tewksbury with us, and his stirring addresses to the students cannot fail to have made a real impression upon them. Most of his time has been spent in interviewing those who have wished to consult him. Unfortunately, owing to the state of his health, he will not be able to stay through the coming weekend, as we had fully expected, but he is hoping to return for a longer visit next term, when he will be greatly welcome.

### VISIT OF MR. T.Z. KOO

Through the kindness of the National Committee of the Y.M.C.A. we are hoping to have a visit from Mr. T.Z. Koo on Saturday and Sunday next, including an address to the whole student body on Sunday morning, and meetings with the Y.M.C.A. representatives. As most readers of the Bulletin probably know, Mr. Koo is one of the associate general secretaries of the National Y.M.C.A., and is in charge of the Student Division of the Association, in which connection he has recently been paying an important visit to India. It is a great opportunity for our students to have a chance of hearing him, and of meeting with him for general conference.

### IS THE BULLETIN WORTH CONTINUING?

The following comments have been received from various readers of the Cheeloo Bulletin, in reply to the question which was proposed last week:-

WT: ... already more than

"The Cheeloo Bulletin has already much more than justified its existence. As a source of information to friends of the University it is receiving a warm welcome. On the campus we cannot well afford to dispense with it."

J.D. MacRae

"The Bulletin from the very first found an assured place, and as the months have gone by, it has become increasingly clear that we could not possibly get on without it. It is certain that there is no periodical taken in Tsinan that is read so promptly, completely and regularly as is the Bulletin. It is a special satisfaction also to realise that our absent ~~it-is-a-special~~ members are kept week by week in touch with all that is going on in the University."

S. Cochran.

"The Weekly Bulletin proposes to bring to the readers the knowledge of what is going on in and about the University-- a knowledge quite essential to the individuals participating and functioning in corporate life of an institution. This it does in a splendid way. Failing the Bulletin, it might mean the necessity of long bulletin boards, repeated trips to the notices, and notebooks with illegible notations to consult with, if one wants to keep up with the events of the University. From this point of view, the Weekly Bulletin is a reduced board, substituted trips, a note-book and a sharpened pencil, and easy reading, all in one. People must be living in realms where Time and Space are not physical actualities who can afford to belittle the value of such an ingenious invention."

Anon.

"The 'Cheeloo Bulletin' is one of the most important new ventures of the University in recent years. It is now soon to celebrate its first birthday. I wish to express my warm congratulations, and hope for its continued long life.

Though its life as yet has been short, its service has been remarkable. Briefly; since it contains the weekly calendar, and much news concerning the University, it is of much value. It permits those who do not know the institution to learn to know her better, and those who do, also to learn to know her better still. It has indeed afforded the readers much convenience, and given much pleasure to those who are away on furlough.

I am looking forward too, that its nurse, the editor, may take very good care of it, so that its life may be as long as that of the University."

Hou Pao-chang.

"Dear Sir, The Bulletin deserves to be congratulated for its rise from pristine attempts to taudry wit and rhyme to its more dignified columns of news. It still has provincialism to surmount. With best wishes for its second year, I am, Yours truly,  
Arthur Jacot."

"Dear Sir, When a man is away his only hope to make him happy is to get a regular letter from his wife. I do not only mean to get my real wif's (Mrs. Han's) regular letters, but also consider my Alma Mater as my wife, and to to get these regular Weekly Bulletins as my Billet Doux. I had many intimate friends who wrote many interesting letters about the University, but none gave me the current news so detailed as this Bulletin. So I usually read it through once, twice or even three or four times..... I feel that but for this Bulletin I would be an ignorant outsider, in spite of being a member of the staff."  
Han Chung-hsin.

"Sir, I am grateful for the opportunity afforded me of giving my opinion on the Cheeloo Bulletin, a periodical which I consider to be nothing less than a Public Nuisance. It reaches me on Sunday afternoon at a time when all my enegies should be concentrated upon the evening service of this Church. How can I do my cerebrating, however, when I am intrigued over the contents of this sheet, even as the editor is intrigued as to the origin of the name Fiona?

To say that the Bulletin should be reserved until a later hour is merely to burke the issue. How can a regular recipient be expected to do other than scan it immediately upon arrival? I shall have much pleasure in furthering any effort to suppress this sheet, and to put in its place something which is Deadly Dull, which will offer no temptations to cerebrating eelibates.

I have, Sir, the honour to be,  
The one and Only Cheeloo Chiaoto, J.C.K."

---

"There was a little man, and he had a little pen,  
And his Bulletin was made with sweat, sweat, sweat!  
He questioned all the neighbours, "Now is it worth our  
labours?"  
The answer came immediate, "You bet, bet, bet!"

"The Bulletin"

(With apologies to Pennyson & everyone else)

"I come from haunts of 'phone and file  
I make a witty sally  
I sparkle out with verses vile  
And merry shilly-shally.

My page is bright with many a laugh  
And many friendly greetings  
To new arrivals on the Staff,  
And notices of meetings.

And here and there a plaintive wail  
For ashes or improvements,  
The notes of an impending sale,  
The Staff's amazing rovenents.

I wind about with words left out  
And errors most compelling  
For Underwoods beyond a doubt  
Are beastly bad at spelling!

I chatter, chatter high and low,  
I descend to dullness never;  
For staff may come and staff may go,  
But I go on for ever.

(At least we hope you will, old thing.)

DEATH OF DR. J. AURIOL ARMITAGE

We have to announce with deep regret the death of Dr. J. Auriol Armitage, Treasurer of the British Joint Board of the University, and Chairman of the Medical Committee of the S.P.A. Dr. Armitage, who had originally intended to enter the ministerial profession, was a deeply religious man, and possessing keen interest in the work of Missions. Although a strong Anglican, he was a warm hearted supporter of union efforts, and generous supporter of our School of Medicine and Hospital. On two occasions he paid visits to China, the latter being in 1921, when we had the pleasure of welcoming him to Tsinan. He suffered keenly during the Great War, which caused him the loss of all sons; but in spite of this trial his faith remained as steadfast as ever, and his deep sympathy with the extension of the Kingdom of God never wavered. On behalf of the University we would extend our deep sympathy to Mrs Armitage and her daughters.

UNIVERSITY CHRISTMAS PARTY.

A Christmas party for the children of the Chinese and foreign members of the staff, will be held on Saturday afternoon, 29th December, probably at about 3.30 p.m. The Committees which did such splendid service last year in arranging for the entertainment, the tea, and the presents, have been asked to continue in office during the present year. We hope to be able to give fuller details of the arrangements next week.

UNIVERSITY LECTURE COURSE

We regret to announce that Dr. Li Tien-lu finds it impossible to give his lecture on Thursday next, 20th December, but we are hoping to have the pleasure of hearing it at a later date.

THE AUGUSTINE LIBRARY

The following books have been received:-

Wright	A Student's Philosophy of Religion.
Tawney	The Acquisitive Society.
Rogers	English and American Philosophy Since 1800.
Hobhouse	Development and Purpose.
Dewey	Human Nature and Conduct.
Conklin	The Direction of Human Evolution.
Boas	The Mind of Primitive Man.
Adams	Idealism and the Modern Age.
Barton	The Religions of the World.
Thomas	Source Book for Social Origins.
Brunet	The New German Constitution.
Channing and Hart	Guide to the Study of American History.
Gibbons	The New Map of Europe.
Headlam	Bismarck and the Founding of the German Empire.
Montgomery	An Elementary American History.
Sullivan	The Great Adventure at Washington; The Story of the Conference.

SCHOOL BAZAAR FINAL STATEMENT

Appended below are the grand totals of the various stalls which contributed so finely to the success of the Tsinan Foreign School Bazaar. We are just now able to make out this final statement owing to a few outstanding bills, but everything is in and the balance of \$1,259.76. total net receipts from same. Our thanks are due to the Bazaar Committee, Stall Holders, and Patrons, and to the "Treasurer of the East".

GRAND SUMMARY

<u>Stalls</u>	<u> Holders</u>	<u>Receipts</u>
Embroidery	Mrs. Boyers and Mrs. Fair	\$369.15
Curios	Mrs. Christian and Mrs. Loucks	251.65
Tea Room Admission	Mrs. Cochran, Balme, Todnem, Hunter, Adolph, and Miss Morton Smith	160.00
Gifts and Contributions -) Money		157.00
Tobacco	Mr. Hunter	150.90
Raffles	Miss Wilson	139.50
Jam and Candy	Mrs. Struthers and Mrs. Harkness	106.95
Baby Stall	Mrs. Heimbürger and Mrs. Boone	103.90
Stationery and Toilet Articles	Mrs. Aiers	89.40
Fish Pond	Miss Cheer, Miss Oakeshott, Miss Hayes	33.70
Toy Stall		22.40
Cloak Room	Mrs. Watson and Mrs. Payne	5.30
		<u>\$1,589.85</u>
	Grand Total	
	Less Expenses	330.09
	Receipts to Foreign School	<u>\$1,259.76.</u>

enabled us to pursue our work without interruption. We thank God for the spirit of goodwill which has characterized our communal life, and has drawn us together in pursuit of our common objective; but most of all we thank God for the greatest of all gifts, which this season symbolises, and which is indeed the inspiration of our lives, and the motive power of our service. May the spirit of Jesus Christ preside over our Christmas festivities this year.

#### ARRANGEMENTS FOR CHRISTMAS DAY

A special service will be held at the University Chapel on Christmas morning, which will commence at 10 o'clock instead of at the usual hour of 9.45 a.m. It will be largely a musical service, Christmas carols and other special music being rendered by the choir. We are hoping to have the Church suitably decorated for the occasion, and any friends who are able to assist in the preparations on Monday afternoon, or who could kindly lend flowers, plants or greenery, are asked to communicate with Dr. Mosse, who has this matter in hand.

During the afternoon of Christmas Day there will be the usual entertainment in the hospital, for the convalescent patients and employees, which will commence at 4 p.m. and will be given by the nurses and students. Any members of staff who care to visit the hospital will be heartily welcomed.

#### UNIVERSITY CHRISTMAS PARTY

As announced last week, it has been decided to hold a Christmas party for the children of the staff on Saturday afternoon, 29th December, at 4 o'clock, but instead of being in McCormick Hall as last year, this will take place in the Assembly Hall of the School of Medicine. This change is due to the large increase of the Cheelo family, the children of which now number no less than 125! Tea will be served at 4 p.m. after which there will be an Entertainment, the whole proceedings terminating with a distribution of small presents by Father Christmas. Parents and friends welcome.

#### VISIT OF MR. T.Z. KOO

The University is once again under a deep debt of gratitude to Mr. T.Z. Koo for the visit which he paid us over the last weekend. In addition to addressing the University service, Mr. Koo spent the whole of Sunday afternoon in conference with the representatives of our student Y.M.C.A.'s, in an endeavour to work out with them a plan which would meet with the approval of each section, and would at the same time draw the various departments together into a corporate Student Christian Movement for the whole institution. After a long discussion, the following plan was unanimously agreed to by the group, and has been referred to the various departments for their endorsement:-

1. That commencing with the beginning of next term, the various student Christian organizations of the University should be united on a federal basis, but should work through five separate departments:- (a) School of Theology; (b) School of Arts & Science;

(c) School of Medicine; (d) Women students; (e) Nursing students.

2. That elected representatives of these 5 departments should form the Executive Council of the University Student Christian Association.

3. That all matters connected with external relations, (e.g. representation on other student Christian organizations, the conducting of Christian work in the city or district, the maintenance of the Social & Religious Centre, etc. etc.) should be regarded as the function of the central body, who should also represent the Student Christian Association in any matters affecting the whole University.

If this plan is approved by the individual Association, it will come into effect at the beginning of next term, when it is hoped that the whole student body can combine on a programme of common work, such as is offered by the very encouraging movement in Popular Education which is now meeting with such striking success in other cities.

Those who have been following with prayer and sympathy the group meetings of students which have been held in the University since the Hsing Lung Shan Retreat, will rejoice to know of this promising move forward which has now taken place as the result of Mr. Koo's visit.

#### WELCOME TO TSINAN

It is with very special pleasure that we extend a hearty welcome to Dr. Stanley Ellis who 'returned home' last Thursday after his successful tour in England and N. America. We regret that he has not been able to bring Mrs Ellis with him, but it is good to hear that she is hoping to follow in six months' time. Dr. Ellis was accompanied by Miss Nunn, our new nurse-masseuse, to whom also we would extend a very warm welcome.

*Noted JWG*  
*Noted JWG*

There is yet another 'member of staff' whom we would like to welcome to-day, although he is still a long way off, and that is Master David Wilson Cassat, of whose happy arrival we have just received news. Our warmest congratulations to Mr. & Mrs Cassat on the arrival of their little son.

#### AU REVOIR PARTY TO MR. MACRAE AND DR. & MRS HEEREN

An informal reception was held in McCormick Hall last Monday afternoon, in order to take leave of Mr. MacRae, left and Dr. & Mrs Heeren on their departure for furlough. Mr. MacRae left Tsinan the same evening, and is expecting to sail on the "Empress of Australia" on the 24th inst, whilst Dr. & Mrs Heeren and Mary are leaving us on Christmas night, and will be sailing for England in the "City of Paris" on the 28th. They carry with them the deep gratitude of all who have been associated with them during these past years, and have seen something of the splendid services which they have contributed to the building up of the University. We shall follow their movements in the home countries with the deepest interest.

WELL DONE, FOOTBALL TEAM!

The Athletic Contests which took pace on Saturday and Monday between representatives of the University and the Tientsin Anglo-Chinese College team passed off most pleasantly, and did a great deal to strengthen the interest in athletics which is gradually growing year by year in the University. The T.A.C.C. Football Team brought with them the reputation of an unbeaten record during this present season, and it is an open secret that our own team fully expected to be defeated. Thanks, however, to some fine individual work, and to two beautiful corner kicks by Hsin Fa-kang, the University won the match by 4 goals to 1, the Captain, Pan Tso-hsin, being responsible for 3 of these goals, and Chen Fu-en for the 4th.

Our Basket-ball Team was not so successful on the Monday afternoon, and was beaten by 52 to 10. The T.A.C.C. students though younger and lighter than the average Cheeloc student, are well-trained in team work, and gave a splendid exhibition of sportsman-like and quick play. We hope that this will be the beginning of a series of athletic contests between the two schools. The representatives of Cheeloc were as follows:- Football:- Pan Tso-hsin (captain) Chang Hsueh-hung, Chang Hwei-chuan, Chang Yu-shou, Chen Fu-en, Chin Teh-feng, Ho Yu-ming, Hsiao Kuò-kuei, Hsin Fa-kung, Hsu Nai-ke, Kung Li-ping. Basket-ball:- Pan Tso-hsin (captain) Chao Huai-li, Chang Chi-cheng, Chui Pei-wen, Chin Teh-feng, Chang Hwei-chuan, Chang Wei-hsin.

ANNUAL MEETING OF SHANTUNG BOARD OF CHRISTIAN EDUCATION

The Annual Meeting of the Board of Christian Education will take place in the University on Wednesday, Thursday and Friday, January 23-25. A very attractive programme has been planned, full particulars of which will be given next week. It has been decided that all who are engaged in Christian Education may have the privilege of attending the opening of the conference, and listening to the discussions.

METEOROLOGICAL REPORT

Through the kindness of Professor Harkness, we are hoping to be able to supply a meteorological report each week. As the Bulletin goes to press on Thursdays, they will record the readings of the previous week.

Report for week December 10-17 inclusive

	<u>Temperature</u>	<u>Humidity</u>	<u>Pressure</u>

NEW YEAR 1924

As this is the last issue of the Bulletin for the 1923, we would wish all our readers a Very Happy New Year. As we think of the developments which have taken place in the University during the twelve months, we have solid cause for gratitude and for renewed confidence in the guidance and loving kindness of God. The completion of the University Chapel and the inspiring services which we have had the privilege of attending there, the coming of the women students and the development of this new and important side of our activities, the addition of so many new members of staff, and the inspiration which they have brought into our midst - these

are among the many land-marks which have characterized the development of the University during 1923. As we face the untrodden road that lies ahead of us, may the experience of the unfailing mercies of this past year give us constant expectancy and courage.

#### UNIVERSITY CHRISTMAS PARTY

Members of staff are reminded that the Children's Christmas party will take place in the Medical School Assembly Hall (not in McCormick Hall) on Saturday afternoon, commencing at 4 p.m. Tea will be served as soon as the children arrive, after which an entertainment has been kindly arranged by Mr. Hunter's committee. Small presents will be distributed from the Christmas tree before the children leave, as was done last year. We are hoping that there will be a record turn out of Cheeloo children, though we understand that a few of the more newly born members of the family will be unable to be with us.

#### GRADUATION CEREMONY

In the next issue of the Bulletin we are hoping to give full particulars of the graduating ceremony, but in the meantime may we ask everyone to remember that it is fixed for Wednesday, 16th January, and will probably take place in the Institute at about 10 a.m. During the evening of the same day, we are proposing to entertain the new graduates at a dinner, which will probably be given in one of the hotels, when it is hoped that as large a representation as possible of the members of staff will also be present. Full particulars regarding the time and place, cost of tickets, etc., will be circulated within the next few days.

#### STUDENT CHRISTIAN ASSOCIATION

We are glad to be able to report that the proposals for the new organization of our University Christian Association have all been approved by the five separate departments, each of which has now elected two representatives upon a central Committee of Arrangements. This Committee is now at work outlining the functions of the University Christian Association, and these suggestions will then be submitted to the Departmental groups. There is every reason to hope that by the beginning of next term the new organization will be in a position to commence its activities.

#### SHANTUNG BOARD OF CHRISTIAN EDUCATION.

The following is the suggested programme for the Annual Meeting of the Shantung Board of Christian Education, which is to take place in Tsinan in Tsinan on January 23rd, 24th and 25th. As mentioned last week, members of staff who are not actually members of this Board will be welcome at the open sessions of the Conference.

January 23.

- 9.30 Presentation of Results of Shantung School Questionnaire, to be introduced by Mr. H.F. Smith, and followed by discussion.
- 10.30 Devotional Service
- 11.00 Continued Discussion on Shantung Questionnaire, and matters arising out of it.
- 2.00 Statistical Summary of the Educational Tests employed in Shantung Schools in 1923. to be introduced by Miss Rankin.
- 4.15 Discussion on The Best Means of Applying the Results of Educational Tests. to be opened by Mr. Y.H. Wang of Teh-chow. (Paper prepared in collaboration with Mr. R.M.Hogan.)

January 24.

- 9.00 Business
- 9.30 Report of Committee on Primary School Curriculum, to be presented by Mr. C.S. Wang, Chairman.
- 10.30 Devotional Service
- 11.00 Report of Committee on Middle School Curriculum, to be presented by Mr. R.C. Wells, Chairman.
- 2.00 Address by Rev. E.W. Wallace, D.D., Secy. of China Christian Educational Association,
- 4.15 Discussion on Industrial Education, to opened by Mr. Sam Dean of Peking.

January 25.

- 9.00 Business Session
- 9.30 The Cultivation of Religious Life amongst Middle School Students, to be opened by Dr. Li Tien-lu.
- 10.00 Devotional Service
- 11.00 Business Session: Election of officers, Election of delegates to C.C.E.A., Question of formation of Shantung Educational Association, Budget, etc.
- 2.00 Methods of Teacher-training in their Relation to Practical Conditions in China To-day, to be opened by Mr. H.F. Smith.
- 4.15 The Teaching of Science in Middle Schools, and the Minimum Requirements of Scientific Apparatus, to be opened by Dr. W.H. Adolph.

CONFERENCE OF CHRISTIAN COLLEGES

The latest report from Nanking is to the effect that over 150 delegates have already registered for the Conference of Christian Colleges and Universities on February 5, 6, & 7. The various sections which have so far reported are providing excellent programmes, and a considerable number of Chinese educationalists are also hoping to take part in the discussions, so that it looks as if the three days allotted to the Conference will prove all too short. We hope to give full details in a later issue of the Bulletin.

HEARTY CONGRATULATIONS

The whole staff of Cheeloo unite in extending very warm congratulations to Mr. & Mrs Parker on the safe arrival of their little daughter, Harriet Ann. Who was it that suggested that Jean Ann would have been a more appropriate name for the small girl?

STAFF MOVEMENTS

It is with great regret that we have to announce that Miss Pollard's return to Tsinan is again delayed, owing to her state of health. Recent letters speak of her as slowly improving, but she is not yet sufficiently strong as to justify her returning to duty. Dr. Moorshead is hoping that it may be possible for her to leave in the spring, but nothing can be decided at present.

IS THE BULLETIN WORTH CONTINUING?

The following reply from Bishop Scott was delayed in reaching us, owing to his absence in Japan, where he was helping in the consecration of the two first Japanese Bishops. He replies to our question in the following terse fashion:-

"It is the one Weekly Paper (except Punch) that I read regularly!"

WARMEST THANKS

Evelyn Gill Klahr (Vassar 1906) who is ranked among the ten best short story writers in the United States, has just written Mrs. Harold Smith of her desire to give a hundred books to the English-speaking colony in Tsinan, in memory of her mother who died just a month ago. She writes:- "I can't promise that all the books will be enjoyable, but I think they will all be important books. I sent you four books today; among them are the "Inge Essays" that have aroused a great deal of enthusiasm and "Maria Chapedelaine", the only recent novel the critics are sure will become a classic." These books will be marked by a special book plate prepared by Miss Klahr and permanently housed in the Augustine Library.

FOUND

Mr. Harold Smith informs us that he has found a walking stick, which he will be glad to pass over to anyone who owns it.

METEOROLOGICAL REPORT, DECEMBER 17-24 INCLUSIVE

<u>Temperature</u>	<u>Humidity</u>	<u>Pressure</u>
Avg. 40 Deg. F.	30%	30.36 ins.
Max. 60 " (1 p.m. Dec. 19)	50% (10 a.m. Dec. 21)	30.42" (11 a.m. Dec. 22)

Weigle	The Pilgrim Training Course for Teachers
Rawlinson	Progressive Ideals of Christian Work in China.
Holdsworth	Gospel Origins
Peake	A Commentary of the Bible
Smith	A Guide to the Study of the Christian Religion.

#### EDUCATIONAL TOUR OF ARTS GRADUATING CLASS

The graduating class of the School of Art and Science left Tsinan a week ago under the leadership of Dr. Li Tien-lu for a tour of some of the leading educational centres. At Tientsin they were most generously entertained by Dr. Chang Po-ling, who provided hospitality for the whole class at Nankai University. During the 3 days there they not only had the opportunity of seeing over Nankai School and Collège, but also paid visits to the Pei Yang University, the First Normal School, the First Middle School, Girls' Normal School and attached Kindergarten, and to the Tientsin Mint.

From Tientsin they proceeded to Peking, where the Yenching University authorities were good enough to extend similar hospitality to them. In addition to seeing Yenching, they visited the P.U.M.C., the Higher Normal College, the Girls' Normal School and the National Museum, and were hoping in addition to pay visits to Tsinghua College, the Summer Palace, and to General Feng's Troops at Nan Yuan, before leaving. At the end of this week they are expecting to go to Nanking (where our own Alumni Association is making plans for them), to Soochow and to Shanghai.

The Medical Graduating Class is also planning a similar visit to Peking, at the kind invitation of the P.U.M.C.

#### DISCONTINUANCE OF UNITED CHAPEL SERVICE

As we are now approaching the period of examinations, the Wednesday morning United Chapel Services will be discontinued for the remainder of the term, each school arranging for its own morning Chapel.

#### SUBSCRIPTION FOR CHEELOO BULLETIN

It has been suggested that as the Cheeloo Bulletin is now increasing its circulation, and the expense of its publication is therefore growing, a small subscription should be charged per annum towards this cost. A careful estimate shews that a subscription of \$1.50 per annum would be sufficient to meet the expenses, and we are therefore asking all who receive the Bulletin if they would be willing to contribute that sum towards it. Will those who wish to do so, be kind enough to fill up and return the accompanying form.
