ANNUAL REPORT OF THE TRUSTEES OF

Peking University

for year ending July 31, 1918

To The University of the State of New York

This annual report is required by law to be transmitted to the Department on or before August 1st

Read instructions carefully before filling this blank

1 Use perfectly legible figures, not words, for all dates, amounts, numbers etc.
2 When the report makes two items of something which your records combine, e. g. expenditures on grounds and buildings, *estimate as nearly as possible* the division between the two for if you merely bracket the items and give the total, it distorts both columns in the summary for the whole State.
3 When questions do not apply or can not be answered definitely, do not leave a blank, but make clear by the following marks that answers are intentionally, not accidentally omitted:

Line drawn through heading means "does not exist in this institution."
O in place of answer means "none this year."
? in place of answer means "fact unknown."
? preceding answer means "probably" or "approximately"; e. g. ? 324 means "to the best of our knowledge and belief about 324."

4 Change any term used so that report shall accord exactly with facts: e. g. write "chairman" instead of "president."

ANNUAL REPORT OF THE TRUSTEES OF

Peking University, Peking, China

PEKING

for year ending July 31, 1920

To The University of the State of New York

This annual report is required by law to be transmitted to the Department on or before August 1st

Read instructions carefully before filling this blank

1 Use perfectly legible figures, not words, for all dates, amounts, numbers etc.
2 When the report makes two items of something which your records combine, e. g. expenditures on grounds and buildings, *estimate as nearly as possible* the division between the two for if you merely bracket the items and give the total, it distorts both columns in the summary for the whole State.
3 When questions do not apply or can not be answered definitely, do not leave a blank, but make clear by the following marks that answers are intentionally, not accidentally omitted:
Line drawn through heading means "does not exist in this institution."
O in place of answer means "none this year."
? in place of answer means "fact unknown."
? preceding answer means "probably" or "approximately"; e. g. ? 324 means "to the best of our knowledge and belief about 324."
4 Change any term used so that report shall accord exactly with facts: e. g. write "chairman" instead of "president."

ANNUAL REPORT OF THE TRUSTEES OF

Peking University, Peking, China

for year ending July 31, 1923 32

To The University of the State of New York

This annual report is required by law to be transmitted to the Department on or before August 1st

Read instructions carefully before filling this blank

1 Use perfectly legible figures, not words, for all dates, amounts, numbers etc.
2 When the report makes two items of something which your records combine, e. g. expenditures on grounds and buildings, *estimate as nearly as possible* the division between the two for if you merely bracket the items and give the total, it distorts both columns in the summary for the whole State.
3 When questions do not apply or can not be answered definitely, do not leave a blank, but make clear by the following marks that answers are intentionally, not accidentally omitted:
Line drawn through heading means "does not exist in this institution."
O in place of answer means "none this year."
? in place of answer means "fact unknown."
? preceding answer means "probably" or "approximately"; e. g. ? 324 means "to the best of our knowledge and belief about 324."
4 Change any term used so that report shall accord exactly with facts; e. g. write "chairman" instead of "president."

Mr Eric M North
150 Fifth Avenue
New York City

My dear Mr North:

I beg to acknowledge receipt of the annual report for Peking University for the year ending July 31, 1925.

I note that the total registration of unclassified students is given as 62 men and 9 women and the total graduate students as 9 men and 5 women. The figures given in the different courses are as follows:

	B. A.		Theological		B. S.		Total	
	Men	Women	Men	Women	Men	Women	Men	Women
Unclassified	62	9	3	1			65	10
Graduate	9		9	1		1	18	2

Possibly the totals given are correct and that the unclassified theological students are duplicated. This, however, would not account for the total number of women graduate students. Will you kindly indicate what corrections should be made here?

I note that the value of the property, the receipts and payments are given in Yuan dollars. Will you kindly advise me of the value of this dollar in American money in order that we may report the property and finances for this University in the equivalent of our money?

Thanking you for your early attention to these matters, I am

Very truly yours

Alice C. McCormack

TRANSFER

September 30, 1925.

Miss Alice C. McCormack, Chief,
Statistics Bureau,
The University of the State of New York,
The State Department of Education,
Albany, New York.

My dear Miss McCormack:

Referring to your letter of September 18th, upon checking over the matter, I find that the figures of the Theological School were inserted after the totals were reached, and as the totals were so far to the right, they were overlooked, as requiring correction, so that the totals given in your letter are correct, and the grand total should be 449 men and 112 women.

A fair approximation of Yuan dollars at the present time would be fifty-four or fifty-five cents, American money. This evaluation, of course, fluctuates considerably, and comparisons from year to year, made on the basis of different rates of exchange, would, of course, be misleading.

Cordially yours,

Secretary,
Peking University.
