NESTLÉ'S FOOD

Doctors' Opinion in China:

"I have been more than satisfied with the excellent results in giving it to delicate children and to mothers where the quality of the breast milk was poor."

"In all cases both young and old suffering from digestive derangements and irritation and weakness of the alimentary canal, I have found it of the greatest use."

"Being convenient to prepare and all that can be desired as a sustaining nourishing diet, we greatly value its use."

"It is useful in all forms of weakness, but I found it specially helpful in dysentery."

"It has certainly been a great help to some infants whose mothers' milk has been insufficient or of poor quality."

"Even new-born babies have found it quite easily digestible and satisfying."

"At the weaning stage it has been very useful in tiding them over the difficult time."

"In cases of persistent vomiting after chloroform or from other causes it has sometimes been the only food that the stomach could retain."

"I have found Nestlé's Food valuable among my Hospital patients, especially with those suffering from weak and disordered digestion. Nephritis, chronic diarrhoea, and dysentery cases, as well as typhoid fever, have been helped by it."

PREFACE

Improvements This DIRECTORY is improved each year. The improvements in the current issue include:

1. Greater accuracy.
2. More *detailed information*, as to names, dates, and Chinese characters.
3. *Cross-references* from Parts II and III to Part I. After each mission name in Part II is given the page where the same list can be found in Part I with the Chinese name and date of arrival of each missionary. After each individual name in the alphabetical list (pp. 241-334) is given this same page reference to Part I.
4. *All names removed* from the 1918 DIRECTORY are listed on pp. 334-7, showing the cause of removal: resignation, marriage, or decease.
5. The *Chinese characters* for each station have been added in Part II as well as in Part I.

Arrangement and Method The following notes sent to Secretaries of Missions with lists for correction explain the nature and scope of this DIRECTORY.

The Directory is arranged in four parts:

1. **Societies** In this part is given first the official legal name of the Society or Board, in capital letters, followed by an abbreviated or popular name (in parenthesis) in common use in China, then by initials in **IONIC CAPITALS**, without punctuation, for convenience in reference.

The *Home Address* given is that of the main administrative center abroad, or in China.

The *correct title* of the Society in Chinese character should follow.

If the work in China is divided into Missions, Dioceses, Districts, Conferences, or other *administrative units* of more than one resident station, these units are arranged in the alphabetical order of the designation of the unit, even if this involves a violation of the alphabetical order of provinces.

In each administrative unit the *stations with resident missionaries* are arranged in alphabetical order by provinces, and then alphabetically by the name of the station as Romanized by the Chinese Postal Guide (Edition of January, 1918). In each case it is intended to give the Chinese character before the Romanized form.

The *date of first residence* by missionaries of the society concerned should follow the Romanized form of the station name. It is desirable

also to add the date of first residence in the province if this can be given. In case a station or province has been thus opened, or occupied and afterward closed and re-occupied, both dates should be given, or a note should be made indicating whether the date given is that of first occupation or the date when the last continuous occupation began.

The *names of missionaries* resident in each station are given in alphabetical order rather than in order of seniority. Give first the Chinese name, preferably three characters, in the foreign order (1, 2, 3), then symbol (*, †, ‡, etc.) indicating status, surname, title (if Miss or Mrs.), Christian names or initials or honorary degrees, position in Mission (if Bishop, Superintendent, Director, Secretary, Treasurer, Statistical Secretary, etc.), date of first arrival in China (not necessarily the same as that of joining this particular mission). In case of married men the words " & wife" follow the degrees or initials and precede the date of arrival, unless the dates of arrival of husband and wife differ, in which case both should be given.

Language Students are indicated by italics. If this is not to be the principal occupation for the next year of any person whose name is now in italics, mark "not student."

Code Books. A beginning has been made in indicating the use of two Codes generally employed. If desired, other codes in use may be indicated. It is particularly desired to learn the stations as well as the Societies which actually have copies of these code books and a note will be made by a symbol printed by the name of the station, if the information is supplied to the editor. † may be used for *Missions Code* and ‡ for *China Inland Mission Code*.

In some cases a missionary serves *more than one society*, in which case the name is entered under each and is followed by the initials of the other in parenthesis.

Degrees. The use of academic degrees is desired by some and is offensive to others. So far as is possible individual preferences will be followed if made known to the editor in writing.

The Name of Societies are arranged according to the main denominational group to which they belong—Anglican, Baptist, Congregational, Lutheran, Methodist, Presbyterian, China Inland Mission, or Other Societies. In each group the order of Societies is determined by the alphabetical order of the abbreviations chosen to represent the Society. These abbreviations conform, so far as possible, to those used in the publications of the Continuation Committee of the World Missionary Conference, and in the *Missions Code*. Uniformity from year to year will greatly aid in standardizing and familiarizing these to the general public interested in missionary matters.

In general it is not intended to include the *name of Chinese* employed in missionary work except when their relation to the Societies and their remuneration is upon the same basis as the foreign missionary. It is intended to include all non-Chinese regularly in missionary employ, whether they have "missionary standing" and a vote in the

missionary organization or not. The regular foreign teaching or office staffs should be included, but may be specially marked if desired.

II. Geographical Grouping The Second Part of the Directory re-groups the names of missionaries by their geographical location, alphabetically by province, station, abbreviations of Society names, and surname of the missionary. In this part no Chinese characters are given except names of stations, no names of administrative units, and no dates except those of the opening of the stations.

III. Alphabetical The Third Part is a single alphabetical list of missionaries giving titles and names, degrees (and wife), initials of society, and postal address.

The Second and Third Parts are compiled in the offices of the China Continuation Committee from the corrected sheets of the First Part and may differ, to conform to information received during process of publication (which occupies nearly four months). Changes reported before final proofs are read will be made in these parts.

IV. Organizations The Fourth Part is a list of National or International or Union Organizations and Committees of importance to more than a single society.

The names will ordinarily largely duplicate those in other parts, indicating the voluntary elective or appointive relationships of those serving the general missionary activities aside from their employment by their respective societies.

Statistical Information The total number of names listed differs in parts I, II, and III, as corrections are noted during publication. The number in Part III (alphabetical), which is most recent and accurate, is as follows:

Single men 408, Married men 2061, Total men 2469; Single women 2031, Wives 2061, Total women 4092, Grand total 6561; a net increase of 178 over the issue of 1918, and of 397 over 1916. Of these 1297 are indicated as absent during all or part of 1918 including 139 on war duty; 277 as language students; 329 names entered in the 1918 DIRECTORY do not appear in this issue, of whom 42 are deceased and 49 are single ladies who have married. The changes in address number 430.

Acknowledgments The Editor desires to acknowledge his indebtedness to over three hundred correspondents whose loyal and ready cooperation in supplying information and in calling attention to errors has made possible whatever degree of accuracy and completeness has been attained and whose suggestions have led to improvements in each annual issue. He also desires to acknowledge the painstaking assistance in preparation of copy and in proof reading of Mr. B. J. Chen.

Any further suggestions for the improvement of this DIRECTORY will be welcomed by the Editor.

Shanghai, May 10th, 1919.

CHARLES L. BOYNTON.

DIRECTORY OF MISSIONARIES IN CHINA

INDEX OF SOCIETIES

In the following list the name given in **Jenson Type** is the name under which the Society appears in the *World Atlas of Christian Missions* and the *Missions Code*. Names in Roman type only are of societies not entered in either of these books. The name in parenthesis is that which was used in the *China Mission Year Book 1915*, in case this differs from the form used in the *World Atlas* or *Missions Code*, while the denominational group under which it appears in the **DIRECTORY** is given in *italics*.

The initials in **IONIC TYPE** indicate the abbreviations which have been adopted by the China Continuation Committee for use in future issues of the *China Mission Year Book*. With few exceptions they are the initials used in the *World Atlas* and the *Missions Code*. Initials preceded by an asterisk (*) are those used in previous issues of the *China Mission Year Book* where these differ. Those enclosed in brackets are new abbreviations adopted by the China Continuation Committee.

The bane of the Hospital is the old Chinese mop—

Dr. Beebe's advice is, "Get rid of it."

Just a bit of Standard Floor Dressing on the floor and woodwork makes the whole hospital more bright and cheery—and, which is more important, far more sanitary. It collects and settles the dust, instead of scattering it, at the same time acting as an important disinfecting agent.

It is put up in convenient-sized packages, and stocked at the various agencies of the Standard Oil Company of New York, from whom it may be ordered as you need it, thus saving you long tedious waiting for the arrival of shipments from home.

It will be a pleasure for us to send you samples and information regarding prices and tell how you can most conveniently get supplies.

This is how to use it—Use a mop made of coarse cotton string or yarn or other cotton material. Apply a small quantity of Standard Floor Dressing, rubbing briskly upon the floor or woodwork to be cleaned. You will be decidedly pleased with the result. Because Standard Floor Dressing collects the dust and dirt, and does not scatter it, dry sweeping is generally neither necessary nor advisable.

This convenient liquid is available in halfpint and pint bottles and in tins for hospital use.

The physician's conclusive argument as to the advisability of using Calol is sure to be found in his own use and experiment. Many eminent physicians have already made such tests and their recommendations are available in the little booklet, "Constipation and Its Relief."

The Standard Oil Company of New York are desirous that you shall also have the opportunity of making personal tests of this liquid and will send you a trial bottle on receipt of the coupon below.
